8 Chic Ways To Make Spring Cleaning More Fun + Beautiful

SO FRESH and so clean (clean). That's the way we want our homes to feel as we open up all the windows to invite in the sunnier, sweet-smelling season.

Yes, spring cleaning is a chore, but this list of products and ideas makes it all a bit more beautiful. Once you're done cleaning, reward all that elbow grease with a great candle or diffuser.

03 KOALA ECO PLANT-BASED CLEANERS | I mean, have you ever seen such a gorgeous bottle of floor cleaner? Honestly, we'd use these beautifully-packaged cleaning products even if they were just greenwashing — which they most certainly are not. Koala Eco uses no new plastic and is environmentally friendly, biodegradable and vegan. Their products use no synthetic fragrance, no dyes and no phosphates. We love keeping their veggie wash sink-side and have grown to love all their cleaners for kitchen, bathroom and beyond!
