antibacterial spray, lightweight and textured appearance can be taken out with you

The epidemic situation is getting more and more severe, everyone should implement epidemic prevention measures and actions. The following are the top 5 recommended dry hands, hand soaps, hand soaps, and antibacterial sprays that are both inside and outside. You can buy them on Pinkoi!

As the epidemic heats up, life epidemic prevention has become the most concerned topic of the whole people! Pinkoi recommends 5 major cleaning and epidemic prevention products, including dry hands, hand soap, hand lotion, antibacterial spray, etc. You should implement and strengthen epidemic prevention actions when you go out and at home. You may wish to take the necessary supplies home for backup.

Koala eco Natural Moisturizing Hand Wash

Established in 2017, Koala eco Australia uses natural essential oil moisturizing hand lotion made of purified water and natural mild detergent, which is non-toxic, safe and environmentally friendly. Gently press the head, take an appropriate amount of hand sanitizer and rub your hands to achieve the cleaning effect. One set contains a can of tea tree & mint, lemon eucalyptus & rosemary, please go straight to the bathroom and wash your hands immediately when you get home!
