

# NORMADOT

Pretend Play & Accessories

# About our company

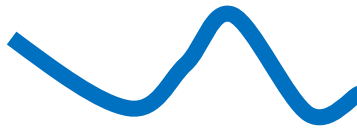

# Authentic and timeless handprinted Danish design

normadot is a small family run danish based design company founded in 2015. We believe in passionate craftsmanship, artistic playful design made to last and have a low impact approach to materials and practices.

The assortment includes baby and toddler toys, gifts ,accessories & home decor for the young at heart. All designs are hand drawn, silkscreen printed and embroidered in Danish studio.

I print on 100% Oeko tex cotton canvas and gots organic cotton jersey using handmixed water based printing inks

Our design is currently sold in selected stores worldwide and we recently entered a collaboration with Stevns klint experience

# The Process

I always start a design using paper, pencil or paint. And although i have been working with silk screen printing for many years now, i still get a thrill from the first pull of the squeegee through the paint of a new screen.

Lifting up the screen from a new design for the first time is always exciting.

I have a background as a freelance designer and illustrator for Magazines and designer for India based universal knitwear's

We hope you will enjoy our HAPPY world of timeless quality design.
