As a caregiver, your days are packed with events and appointments for your patient. If you take care of several patients simultaneously, or on alternating days, you may find yourself overwhelmed rather quickly. Having a calendar is the easiest tool to keeping every appointment and visit straight.

Finnegan Medical Supply understands that caregiving is a complicated task for both professional and family-member caregivers. We have developed caregiver tools, like this calendar, to make your job and life easier. We hope that you use these tools as ways to get the pertinent information out of your brain and onto paper so that you, or whomever has to substitute for you, can have all the patient's information at their fingertips. That keeps you and your patient safe.
