The **CMC Rescue 8 Link** was designed as a key component of a rappel technique developed by our Tactical Rappel Class instructors. The 8 Link allows you to extend your figure 8 descender further away from your harness to make room for a safety Prusik Hitch below the descender.

### USER INFORMATION

CMC Rescue recommends separating the User Information from the equipment and retaining the information in a permanent record. CMC also recommends making a copy of the information to keep with the equipment and that the information should be referred to before and after each use.

### INSPECTION

Inspect the equipment according to your department's policy for inspecting life-support equipment. The equipment should be inspected after each use and at least once a year by an inspector that meets your department's training standards for inspection of life-support equipment. Record the date of the inspection and the results in the equipment log. Each user should be trained in equipment inspection and should do a cursory inspection and check component compatibility before each use.

When inspecting the equipment, check the webbing for cuts, worn or frayed areas, broken fibers, soft or hard spots, discoloration or melted fibers. Check the stitching for pulled threads, abrasion or breaks. If any of the

### ⚠ WARNING

- **SERIOUS INJURY OR DEATH MAY RESULT FROM THE IMPROPER USE OF THIS EQUIPMENT.**
- **THIS EQUIPMENT HAS BEEN DESIGNED AND MANUFACTURED FOR USE BY EXPERIENCED PROFESSIONALS ONLY.**
- **DO NOT ATTEMPT TO USE THIS EQUIPMENT WITHOUT PRIOR TRAINING.**
- **USE, INSPECT, AND REPAIR ONLY IN ACCORDANCE WITH MANUFACTURER'S INSTRUCTIONS.**

above are noted, or if the equipment has been subjected to shock loads, fall loads or abuse other than normal use, or if there is any doubt about the serviceability of the equipment, remove the equipment from service and destroy it.

### USE

Attach the 8 Link to the descender with a Girth Hitch. Use a locking carabiner to attach the 8 Link to your harness. Multiple carabiner loops allow proper length adjustment.

### CARRYING, MAINTENANCE & STORAGE

During use, carrying, and storage keep the equipment away from acids, alkalis, exhaust emissions, rust and strong chemicals. Do not expose the equipment to flame or high temperatures. Carry the equipment where it will be protected as it could melt or burn and fail if exposed to flame or high temperatures.

If the equipment becomes soiled it can be washed in cold water with a mild detergent. CMC Rescue recommends the use of LifeLine Cleaner. Dry out of direct sunlight. Do not dry in an automatic dryer. Store in a cool, dry location.

### REPAIR

All repair work shall be performed by the manufacturer. All other work or modifications may void the warranty and shall release CMC Rescue, Inc. from all liability and responsibility as the manufacturer.
