The **CMC Rescue Anchor Strap Sleeve** is an innovative new way to protect your anchor straps from the long term wear that most often leads to their retirement. Made from the same tough #4 cotton duck and PVC coated nylon as our ProSeries Edge Guards, the Anchor Strap Sleeve protects against abrasion, chafing and dirt, and may provide limited protection from chemical exposure.

The anchor strap stitching remains visible for quick inspection after each use, and the entire strap can be removed for complete inspection at any time. CMC Rescue recommends tying a length of cord longer than the sleeve onto one end of the anchor strap when removing for inspection to facilitate ease of re-installation of the strap into the sleeve.

USER INFORMATION

User Information shall be provided to the user of the product. CMC Rescue recommends separating the User Information from the equipment and retaining the information in a permanent record. CMC also recommends making a copy of the information to keep with the equipment and that the information should be referred to before and after each use.

INSPECTION

Inspect the equipment according to your department's policy for inspecting life safety equipment. The equipment should be inspected after each use by an inspector that meets your department's training standard for inspection of life safety equipment. Record the date of the inspection and the results in the equipment log or on a tag that attaches to the equipment. Each user should be trained in equipment inspection and should do a cursory inspection before each use.

When inspecting the equipment, check webbing and rope for cuts, worn or frayed areas, broken fibers, soft or hard spots, discoloration, or melted fibers. Check stitching for pulled threads, abrasion, or breaks. Check hardware for damage, sharp edges,

WARNING

- **SERIOUS INJURY OR DEATH MAY RESULT FROM THE IMPROPER USE OF THIS EQUIPMENT.**
- **THIS EQUIPMENT HAS BEEN DESIGNED AND MANUFACTURED FOR USE BY EXPERIENCED PROFESSIONALS ONLY.**
- **DO NOT ATTEMPT TO USE THIS EQUIPMENT WITHOUT PROPER TRAINING.**
- **USE, INSPECT, AND REPAIR ONLY IN ACCORDANCE WITH MANUFACTURER'S INSTRUCTIONS.**

and improper operation. If any of the above are noted, or if the equipment has been subjected to shock loads, fall loads, or abuse other than normal use, remove the equipment from service and destroy it. If there is any doubt about the serviceability of the equipment, remove the equipment from service and destroy it.

The service life of equipment used for rescue depends greatly on the type of use and the environment of use. Because these factors vary greatly, a precise service life of the equipment cannot be provided.

CARRYING, MAINTENANCE & STORAGE

During use, carrying, and storage keep the equipment away from acids, alkalis, exhaust emissions, rust and strong chemicals. Do not expose the equipment to flame or high temperatures. Carry the equipment where it will be protected as the equipment could melt or burn and fail if exposed to flame or high temperatures.

If the equipment becomes soiled, it can be washed in cold water with a mild detergent. CMC Rescue recommends the use of LifeLine Cleaner. Dry out of direct sunlight. Do not dry in an automatic dryer. Store in a cool, dry location. Do not store where the equipment may be exposed to moist air, particularly where dissimilar metals are stored together.

REPAIR

All repair work shall be performed by the manufacturer. All other repair work or modifications will void the warranty, and releases CMC Rescue, Inc. from all liability and responsibility as the manufacturer.
