1. PRODUCT AND COMPANY IDENTIFICATION

Product name: CMC
Part No: CMC_XXX
Brand: Electrodesandmore
Supplier: Battery Consulting
4020 Christopher way
Plano TX 75024
USA
Telephone: +1 877-394-3941
Fax: +1 208-955-4890
Emergency Phone # (For both supplier and Manufacturer): +1 972-636-1722
Preparation Information: Battery Consulting
Product Safety:

2. HAZARDS IDENTIFICATION

Emergency Overview

OSHA Hazards
Carcinogen, Target Organ Effect, Skin Sensitiser

Target Organs
Lungs, Nerves.

GHS Classification
Skin sensitization (Category 1)
Carcinogenicity (Category 2)

GHS Label elements, including precautionary statements

Pictogram
Signal word
Warning
Hazard statement(s)
H317 May cause an allergic skin reaction.
H351 Suspected of causing Cancer.

Precautionary statement(s)
P280 Wear protective gloves.

HMIS Classification
Health hazard: 2
Chronic Hazard: *
Flammability: 0
Physical hazards: 0

NFPA Rating
Health hazard: 2
Fire: 0
Reactivity Hazard: 0

Potential Health Effects
Inhalation: May be harmful if inhaled. May cause respiratory tract irritation.
Skin: May be harmful if absorbed through skin. May cause skin irritation.
Eyes: May cause eye irritation.
Ingestion: May be harmful if swallowed.

3. COMPOSITION/INFORMATION ON INGREDIENTS
Synonyms: Styrene-Butadiene Rubber (SBR) binder for Li-ion Battery Anode

WARNING!
Static charges generated by emptying package in or near flammable vapors may cause flash fire.
May form flammable dust-air mixtures.
May cause mild eye irritation.
May cause skin irritation by mechanical abrasion.
Inhalation of dust may cause respiratory tract irritation.
Surfaces subject to spills may become slippery.

Repeated ingestion may cause an allergic reaction in susceptible individuals.
Repeated or prolonged skin contact may cause allergic dermatitis in susceptible individuals.
Refer to Section 5 for Hazardous Combustion Products, and Section 10 for Hazardous Decomposition/Hazardous Polymerization Products.

4. FIRST AID MEASURES

General advice
Consult a physician. Show this safety data sheet to the doctor in attendance. Move out of dangerous area.

If inhaled
If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.

In case of skin contact
Wash off with soap and plenty of water. Consult a physician.

In case of eye contact
Flush eyes with water as a precaution.

If swallowed
Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a Physician.

5. FIREFIGHTING MEASURES

Conditions of flammability
Not flammable or combustible.

**Suitable extinguishing media**
Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

**Special protective equipment for firefighters**
Wear self contained breathing apparatus for firefighting if necessary.

**Hazardous combustion products**
Hazardous decomposition products formed under fire conditions. Nickel/Nickel Oxides, Lithium oxides, Manganese/manganese oxides

---

## 6. ACCIDENTAL RELEASE MEASURES

**Personal precautions**
Use personal protective equipment. Avoid dust formation. Avoid breathing vapors, mist or gas. Ensure adequate ventilation. Evacuate personnel to safe areas. Avoid breathing dust.

**Environmental precautions**
Prevent further leakage or spillage if safe to do so. Do not let product enter drains.

**Methods and materials for containment and cleaning up**
Pick up and arrange disposal without creating dust. Sweep up and shovel. Keep in suitable, closed containers for disposal.

---

## 7. HANDLING AND STORAGE

**Precautions for safe handling**
Avoid contact with skin and eyes. Avoid formation of dust and aerosols. Provide appropriate exhaust ventilation at places where dust is formed.

**Conditions for safe storage**
Keep container tightly closed in a dry and well-ventilated place. Store under Inert gas.

---

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

**Components with workspace control parameters**
Flash Point: > 300 °C
Lower Explosion Limit: N/A
Upper Explosion Limit: N/A
Fire Hazard: Flammable / Combustible under high heat and flame.
Can generate toxic and combustible fumes, - carbon monoxide, chlorinated and hydrocarbon compounds, and soot.
Fire Fighting Procedures: Use full protective equipment and SCBA, filter masks, etc.
Extinguishing Media: High expansion foam, water fog and spray.

**Personal protective equipment**

**Respiratory protection**
Where risk assessment shows air-purifying respirators are appropriate use a full-face particle respirator type N100 (US) or type P3 (EN 143) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).
Hand protection
Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove’s outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

Eye protection
Face shield and safety glasses Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

Skin and body protection
Complete suit protecting against chemical. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

Hygiene measures
Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance
Form: Solid
Color: brown, black

Safety data
pH: no available data
Melting point/freezing point: Melting point/range: > 290 °C (> 554 °F)

Boiling point: no data available
Flash point: no data available
Ignition temperature: no data available
Auto ignition Temperature: no data available
Lower explosion limit: no data available
Upper explosion limit: no data available
Vapor pressure: no data available
Density: no data available
Water solubility: no data available
Partition coefficient: n-octanol/water: no data available
Relative vapor Density: no data available
Odor: no data available
Odor Threshold: no data available
Evaporation rates: no data available

10. STABILITY AND REACTIVITY
Chemical stability
Stable under recommended storage conditions.

Possibility of hazardous reactions
No data available

Conditions to avoid
No Data Available

Materials to avoid
Oxidizing agents

Hazardous decomposition products
Other decomposition products: no data available.
Hazardous decomposition products formed under fire conditions: Nickel/nickel oxides, Lithium oxides, Manganese/manganese oxides

11. TOXICOLOGICAL INFORMATION

Acute toxicity

Oral LD50  No data available
Inhalation LC50 No data available
Dermal LD50  No data available

Other information on acute toxicity  No data available

Skin corrosion/irritation  No data available

Serious eye damage/eye irritation  No data available

Respiratory or skin sensitization  May cause sensitization by skin contact.

Germ cell mutagenicity  No data available

Carcinogenicity
Limited evidence of carcinogenicity in human studies.

IARC:  2B - Group 2B: Possibly carcinogenic to humans (LITHIUM MANGANESE NICKEL OXIDE)
NTP:  Reasonably anticipated to be a human carcinogen (LITHIUM MANGANESE NICKEL OXIDE)
OSHA:  No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

Reproductive toxicity  no data available

Teratogenicity  no data available

Specific target organ toxicity - single exposure (Globally Harmonized System):  No data available.

Specific target organ toxicity - repeated exposure (Globally Harmonized System)  no data available
Aspiration hazard  no data available

Potential health effects

**Inhalation**  May be harmful if inhaled. May cause respiratory tract irritation.
**Ingestion**  May be harmful if swallowed.
**Skin**  May be harmful if absorbed through skin. May cause skin irritation.
**Eyes**  May cause eye irritation.

**Signs and Symptoms of Exposure**
Large doses of lithium ion have caused dizziness and prostration, and can cause kidney damage if sodium intake is limited. Dehydration, weight loss, dermatological effects, and thyroid disturbances have been reported. Central nervous system effects that include slurred speech, blurred vision, sensory loss, ataxia, and convulsions may occur. Diarrhea, vomiting, and neuromuscular effects such as tremor, clonus, and hyperactive reflexes may occur as a result of repeated exposure to lithium ion. Men exposed to manganese dusts showed a decrease in fertility. Chronic manganese poisoning primarily involves the central nervous system. Early symptoms include languor, sleepiness and weakness in the legs. A stolid mask-like appearance of the face, emotional disturbances such as uncontrollable laughter and a spastic gait with tendency to fall in walking are findings in more advanced cases. High incidence of pneumonia has been found in workers exposed to the dust or fume of some manganese compounds.

**Synergistic effects**  no data available

**Additional Information**  RTECS: Not available

12. ECOLOGICAL INFORMATION

**Toxicity**  no data available
**Persistence and degradability**  no data available
**Bioaccumulative potential**  no data available
**Mobility in soil**  no data available
**PBT and vPvB assessment**  no data available
**Other adverse effects**  no data available

13. DISPOSAL CONSIDERATIONS

**Product**
Offer surplus and non-recyclable solutions to a licensed disposal company. Contact a licensed professional waste disposal service to dispose of this material. Dissolve or mix the material with a combustible solvent and burn in a chemical incinerator equipped with an afterburner and scrubber.

**Contaminated packaging**
Dispose of as unused product.

14. TRANSPORT INFORMATION

**DOT (US)**  Not dangerous goods.
**IMDG**  Not dangerous goods.
**IATA**  Not dangerous goods.
15. REGULATORY INFORMATION

OSHA Hazards
Carcinogen, Target Organ Effect, Skin sensitiser

SARA 302 Components
SARA 302: No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

SARA 313 Components
The following components are subject to reporting levels established by SARA Title III, Section 313:

SARA 311/312 Hazards
Acute Health Hazard, Chronic Health Hazard.

Massachusetts Right To Know Components
Carboxymethyl Cellulose (CMC)

Pennsylvania Right To Know Components
Carboxymethyl Cellulose (CMC)

New Jersey Right To Know Components
Carboxymethyl Cellulose (CMC)

California Prop. 65 Components
WARNING! This product contains a chemical known to the State of California to cause cancer.
Carboxymethyl Cellulose (CMC)

16. OTHER INFORMATION

Text of H-code(s) and R-phrase(s) mentioned in Section 3

Further information
