

# DIRECTORS NOTE

---

I hope this catalogue reaches you at the best of health. I would like to point out a few important factors regarding the new designs, in summary they are below:

- 1) Each design has a badge that is NOT sewn to the garment but provides the customer to either use/dispose, this also ensures there is no damage to the garment during transportation.
- 2) We have concentrated heavily on our latest LW monogram as we continue to commercialise and grow the brand internationally.
- 3) 95% of the designs have been manufactured using imprinted premium fabric, we have also improved our standard white fabric as per the request of our clients.
- 4) There are 2 children designs and all designs have their designated codes at the end of the catalogue.
- 5) There are new bag/boxes/buttons etc all utilising the new LW monogram, we really hope you like them.
- 6) There are videos within this PDF, but to play you will need android device, laptop or a desktop, it will not play on ios Apple devices.
- 7) There is going to be a major facelift to the current website and a commercial video to compliment.

We hope you enjoy the latest designs and we look forward in receiving your order.
