Snow Plough	100cm (40")	✓	✓	✓	✓	✓	✓

NOTES:

1. The 20" (52cm) Rotavator attachment will fit onto the 738 but it is narrower than the wheel width of the power unit.
 2. There are three styles of roller available for the Power Harrow and Stone Burier - mesh, cage or solid.
 3. Diesel power units must be fitted with the Long Oil Bath Scythe. The Short Oil Bath Scythe is for petrol models only.
 4. When fitted to the 740 or 770HY the 100cm Rotary Mower will require either an Implement Extension or Quick Release Coupling.
 5. When the Snow Blower, Snow Plough or Dozer Blade are fitted to the 738 (diesel), 740 (both), 750 (both), or 770HY (both) additional weights will be required for the implement to balance with the engine on the power unit.
- Please be aware that the BCS 750 has a different PTO to the other units in the range and is fitted with a Quick Coupling System as standard.
