

CAMON[®]

LANDSCAPING MACHINERY

 MADE IN
BRITAIN

TC07

TURF CUTTER

The **CAMON TC07** simplifies the task of turf removal. Combining power and compactness, it's constructed with top-grade components. Designed for longevity and consistent performance, the TC07 will remain a dependable tool in your arsenal for years to come.

 **MADE IN
BRITAIN**

CAPABILITIES

Compact yet robust, the **CAMON TC07** effortlessly tackles tasks that would otherwise be time-consuming and labour-intensive.

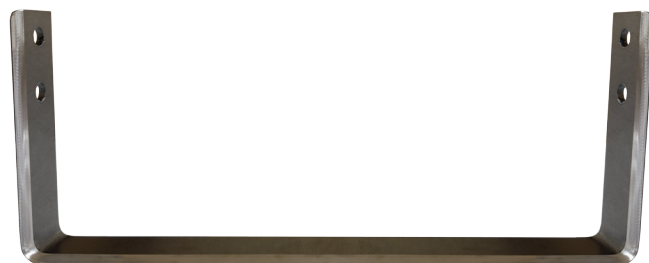

Within moments, it can strip a grassy surface down to the bare soil, priming it for your next project. Its size allows for easy manoeuvrability in tight spots, as well as convenient storage and transport.

With the **CAMON TC07**, users can trust in its enduring build quality, promising years of reliable service. The grass cutting blade is made from specialty steel, guaranteeing longevity, while its drive mechanism is constructed from high quality components to ensure reliability.

The **CAMON TC07** also offers a choice of drive wheels, that allows the user to choose between levels of traction. The agricultural wheels offer a more aggressive drive.

HARDENED STEEL REVERSIBLE CUTTING BLADE made of Hardox® for extended wear and reversible for double the lifespan.

SPECIFICATION

ENGINE	HONDA GX160
WORKING WIDTH	30CM
CUTTING DEPTH	1CM TO 3½CM
DRIVE	POSITIVE GEAR DRIVE
WHEELS	PUNCTURE PROOF TYRES AGRICULTURAL TYRES
WEIGHT	93KG
DIMENSIONS	128CM X 54CM X 102CM

LS42

LAWN SCARIFIER

 **MADE IN
BRITAIN**

The **CAMON LS42** is renowned for its ability to eliminate thatch and moss from all sorts of lawns with exceptional effectiveness. It comes with an easily adjustable handwheel to regulate the depth of scarification, and is powered by a robust Honda engine that guarantees the uninterrupted operation of the spinning cartridges.

CAPABILITIES

Known for its reliability and build quality, the **CAMON LS42** is versatile enough to operate effectively in domestic, rental, and commercial environments. It's an tireless worker, consistently delivering results without ever disappointing its user.

The **CAMON LS42** offers the convenience of selecting from a variety of cartridges, catering to the exact requirements of its user. Be it reviving an aged lawn or maintaining an existing one throughout the summer season, there's a cartridge designed for every need.

Each aspect of the **CAMON LS42** has been designed with the operator in mind, from the fine height adjustment to the folding handlebars and simple controls. The **CAMON LS42** is a machine that will deliver great results every time.

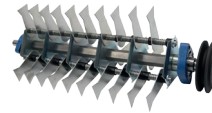

SPECIFICATION

ENGINE	HONDA GX160
WORKING WIDTH	42CM
WHEELS	60MM WIDTH WITH SCRAPERS 80MM WIDTH, NO SCRAPERS
WEIGHT	68KG
DIMENSIONS	120CM X 59CM X 98CM

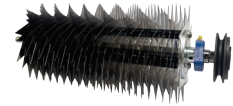

CARTRIDGES

Key to the success of the **CAMON LS42** scarifier is the ability to change between a range of cartridges. Each cartridge is tailored to a specific role and offers the operator incredible options to work on a lawn.

LS52

LAWN SCARIFIER

ANTI VIBRATION HANDLEBARS

with the option of rubber mounts to reduce vibration even further.

POWERFUL HONDA ENGINE

A SIMPLE HANDWHEEL

allows the scarification height to be adjusted.

CHOICE OF OVER 6 CARTRIDGES

allowing the user to select the perfect reel for the job.

QUICK FOLDING HANDLEBARS

for storage and travel convenience.

OPTIONAL COLLECTION BAG

WHEEL SCRAPERS

to remove debris and keep a continuous cutting height.

PUNCTURE PROOF WHEELS

Just like the smaller LS42, the **CAMON LS52** is renowned for its ability to eliminate thatch and moss from all sorts of lawns. It comes with an easily adjustable handwheel to regulate the depth of scarification, and is powered by a robust Honda engine that guarantees the uninterrupted operation of the spinning cartridges.

 **MADE IN
BRITAIN**

CAPABILITIES

The **CAMON LS52** stands out in several ways.

Firstly, it offers a wide 52cm working width so it can cover a larger area with each pass. Additionally, it features a powerful Honda engine, enabling it to perform effectively in more challenging conditions.

Another advantage is its ability to switch between different cartridges, meaning it can adapt to different lawn types and levels of thatch and moss.

This flexibility gives it an edge over many other pedestrian scarifiers that are limited in their functionality.

Finally, the **CAMON LS52** boasts a robust and durable UK-built design, ensuring it can handle heavy use over time, and making it a wise investment for those seeking a reliable, long-lasting machine.

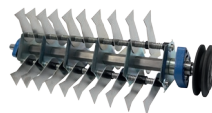

SPECIFICATION

ENGINE	HONDA GX200
WORKING WIDTH	52CM
WHEELS	60MM WIDTH WITH SCRAPERS
WEIGHT	72KG

LS14

LAWN SCARIFIER

SIMPLE OPERATION
with a single two-stage lever.

CHOICE OF ENGINE
with two Honda engines and a cost effective Loncin option too.

A SIMPLE HANDWHEEL
allows the scarification height to be adjusted.

CHOICE OF 5 CARTRIDGES
allowing the user to select the perfect reel for the job.

FOLDING HANDLEBARS
for storage and travel convenience.

OPTIONAL COLLECTION BAG

NARROW WHEELS
to get closer to edges and walls/fences.

LIGHTWEIGHT MACHINE

The **CAMON LS14** boasts a lightweight yet sturdy design, making it ideal for both home and professional use. This efficient unit can effortlessly eliminate vast quantities of thatch and moss, aiding you in achieving a consistently plush and even lawn. Its narrow design and lightweight build ensure user-friendliness. With an assortment of cartridges at your disposal, you can create and maintain your lawn's pristine condition throughout the year.

 **MADE IN BRITAIN**

CAPABILITIES

The **CAMON LS14** stands out in the scarifier market due to its impressive power-to-size ratio. Not only is it user-friendly and easy to navigate, but it also delivers the full range of scarification benefits: it efficiently removes thatch, boosts nutrient absorption, encourages grass growth, and facilitates optimal water penetration into a lawn.

Crafted from high-end materials, the **CAMON LS14** promises longevity. Especially noteworthy is the construction of our blades, made from specialty metals to withstand frequent usage. As a testament to the **CAMON LS14's** quality, it has a 3-year domestic and a 2-year commercial warranty.

The selection of cartridges for the **CAMON LS14** empowers the user to pick the ideal tool tailored to the lawn's condition and the season. No other scarifier of this stature provides such adaptability, enabling owners to customise solutions for their lawns. The range of cartridges also allow the **LS14** to be operated throughout the year in different conditions.

SCARIFIER CARTRIDGES

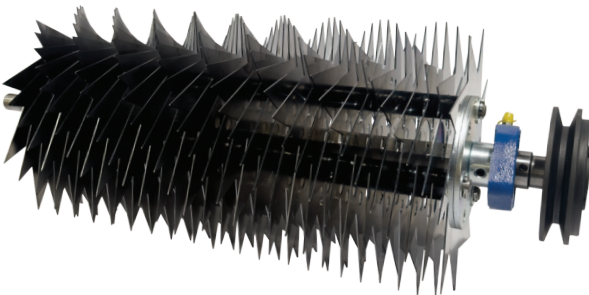

One of the features that make the **CAMON Lawn Scarifiers** so indispensable is their ability to operate a range of different rotors. From "standard" scarifying to verticutting, these unique machines can undertake all types of scarification for all types of lawns.

FREE SWINGING BLADES

- 1.6mm thick blades with double edges
- Free swinging staggered layout on 3 rods
- Best for thatch removal
- 42cm - 30 blades / 52cm - 39 blades
- Fits all models

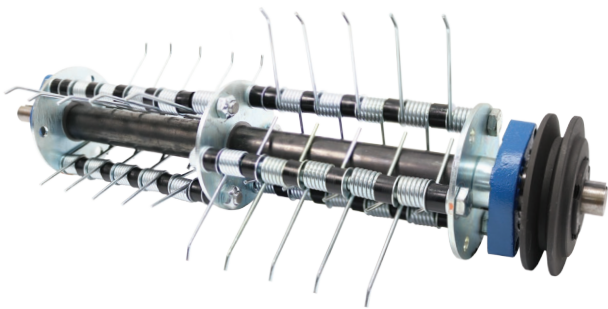

VERTICUTTER BLADES

- 1mm thick blades with 9 tips
- Alternating layout fixed on central rod
- Removes weed grass and grooms all year round
- 42cm - 36 blades / 52cm - 45 blades
- Fits all models

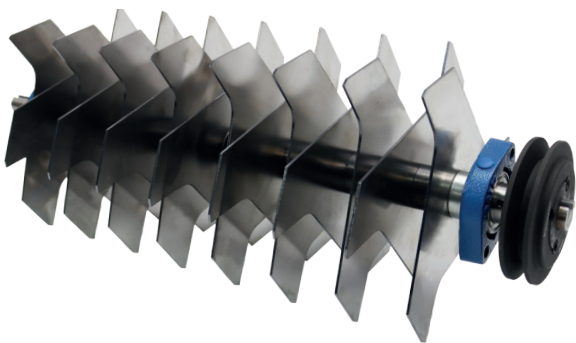

SPRING TINES

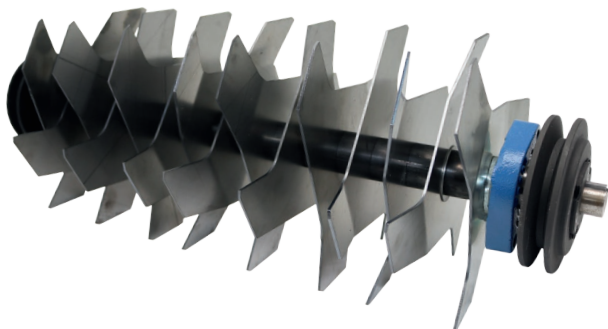

- 2.5mm thick metal springs
- Free swinging staggered layout on 3 rods
- For moss removal and lighter scarifying
- 42cm - 30 springs / 52cm - 39 springs
- Fits all models

FIXED BLADES

- 2mm thick blades with 3 tips
- Alternating layout fixed on central rod
- Remove subsurface thatch and create seedlines
- 42cm - 15 blades / 52cm - 18 blades
- Fits all models

RENOVATION BLADES

- 2mm thick blades with 3 tips - 2 angled
- Alternating layout fixed on central rod
- For complete renovation and removing old lawns
- 42cm - 15 blades / 52cm - 18 blades
- Fits LS42 and LS52

'STAY SHARP' BLADES

- 3mm thick Hardox® blades with one edge
- Free swinging staggered layout on 3 rods
- For extra tough conditions
- 42cm - 30 blades / 52cm - 39 blades
- Fits all models

LA25

LAWN AERATOR

SIMPLE OPERATION

with a straightforward lever that engages the tines.

ANTI VIBRATION HANDLEBARS

with the option of rubber mounts to reduce vibration even further.

POWERFUL HONDA ENGINE

QUICK FOLDING HANDLEBARS

for storage and travel convenience.

CHOICE OF TINES

allowing the user to select the perfect tine for the job.

ADJUSTABLE TINE DEPTH.

Aeration plays a pivotal role in lawn health, and the **CAMON LA25** is your perfect tool for fostering robust and vibrant grass. With its six interchangeable tine options, you can cater to your lawn's needs all year round, alleviating soil compaction, enhancing drainage, and optimizing nutrient circulation.

CAPABILITIES

The **CAMON LA25** combines power and compactness, setting the bar high with its versatility in tine selection and short change-over time. Transitioning between hollow corers, chisel tines, or fracture tines is a breeze, taking less than 5 minutes. Its straightforward operation allows for rapid and efficient coverage of expansive areas.

Crafted using specialty steels, the **CAMON LA25's** tines promise extended durability, ensuring the aerator can handle rigorous, prolonged usage. Its high-quality gearbox drive mechanism underscores its reliability, making the **CAMON LA25** a valuable tool for many years.

Beyond its rapid tine switches, users can adjust the ground speed and hole-spacing pattern, underscoring its adaptability. With unparalleled build quality, the **CAMON LA25's** versatility stands second to none in the market.

SPECIFICATION

SG30

STUMP GRINDER

SIMPLE OPERATION
with straightforward levers.

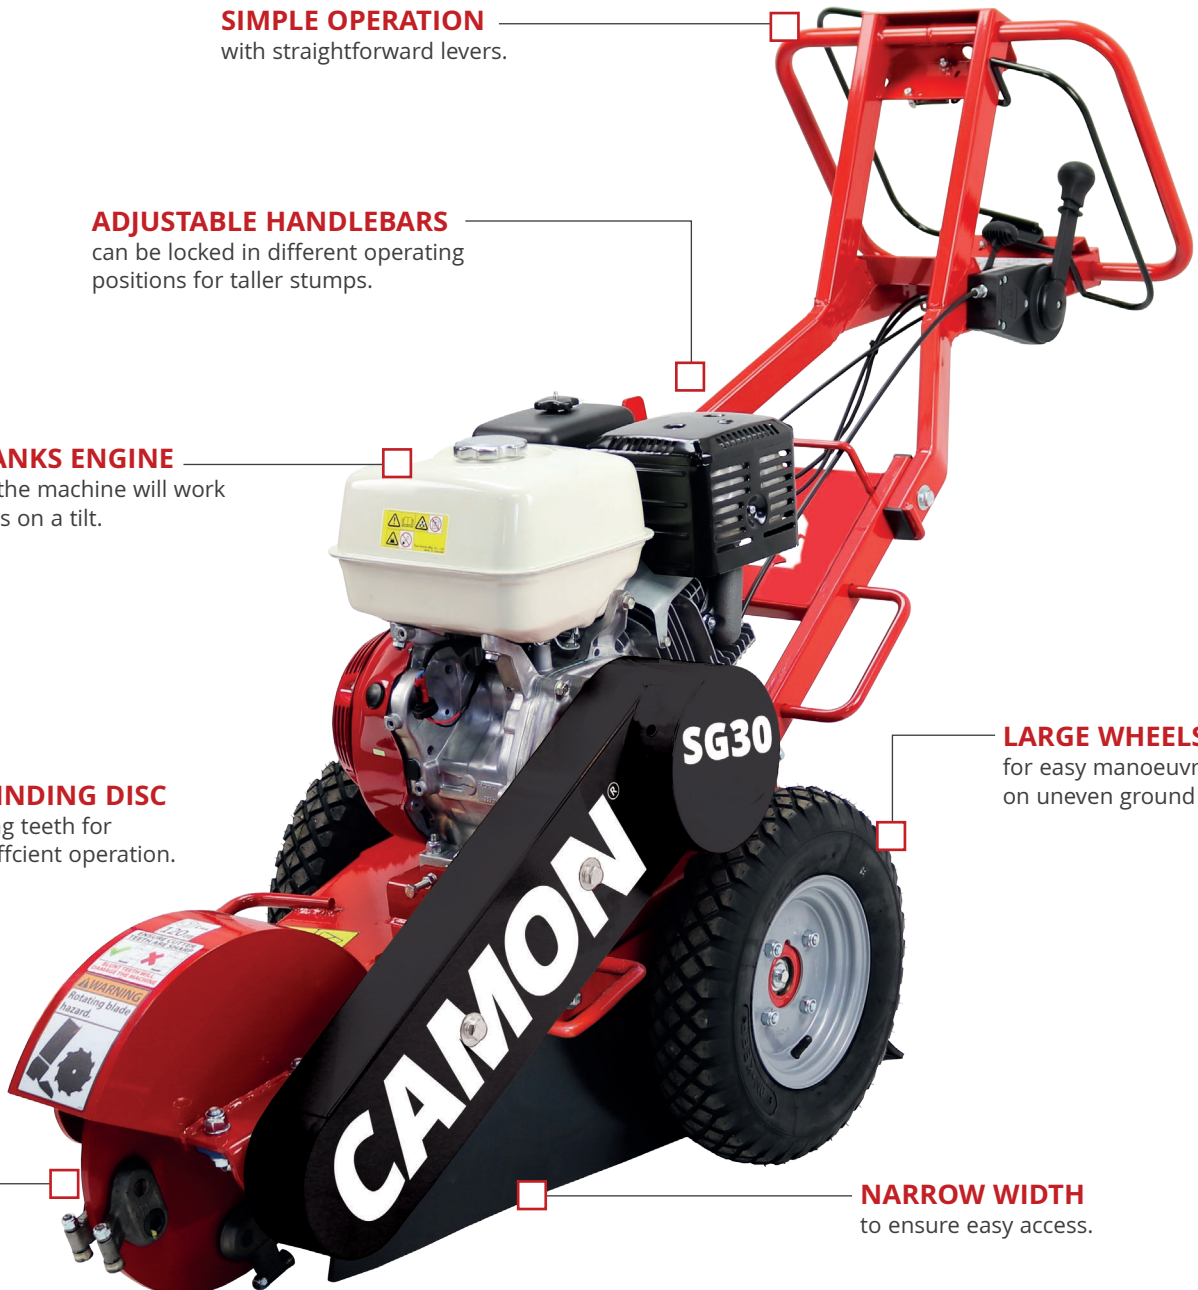

ADJUSTABLE HANDLEBARS
can be locked in different operating positions for taller stumps.

HONDA BANKS ENGINE
ensures that the machine will work even when it's on a tilt.

STRONG GRINDING DISC
and hardwearing teeth for reliability and efficient operation.

LARGE WHEELS
for easy manoeuvrability on uneven ground

NARROW WIDTH
to ensure easy access.

The **CAMON SG30** stump grinder seamlessly combines agility with power, capable of eradicating stumps and their roots swiftly. Designed for durability, its robust steel framework and durable carbide teeth - which can be rotated for extended lifespan - ensure it stands the test of time.

 **MADE IN
BRITAIN**

CAPABILITIES

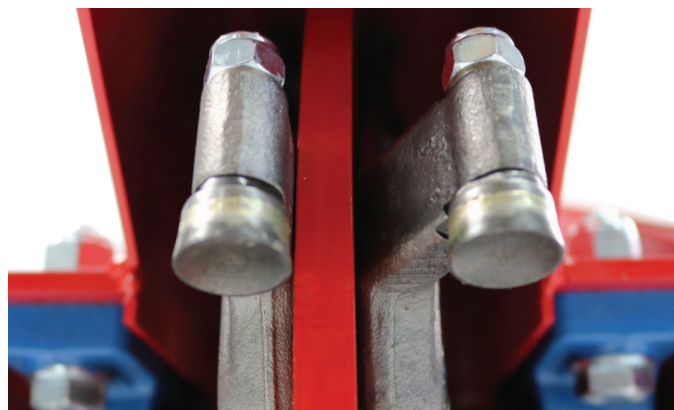

Slim enough to fit through garden gates, yet robust enough to tackle any garden stump, the **CAMON SG30** is an essential, long-lasting tool.

Equipped with 8 Greenteeth®, each fortified with carbide tips and designed for three-way rotation, the **CAMON SG30** maximizes tooth longevity.

Its top-tier clutch and drive system, complemented by a potent bank engine, guarantee operation even on inclines.

The **CAMON SG30**'s sizable wheels and optimal balance make it effortless to manoeuvre, while its collapsible handlebars facilitate both transport and storage.

The **CAMON SG30** is a real workhorse built to withstand domestic, commercial and rental environments. It will work tirelessly at removing difficult stumps, turning awkward areas into usable garden.

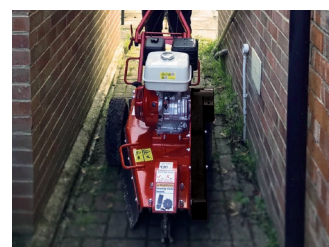

STRONG AND EFFICIENT GREENTEETH®

with a carbide edge and the ability to be rotated three times, the teeth are fitted in straight and angled pockets to offer maximum efficiency.

SPECIFICATION

ENGINE	HONDA GX390 BANKS
WORKING HEIGHT	56CM ABOVE GROUND
WORKING DEPTH	33CM BELOW GROUND
TEETH	8 GREENTEETH®
WEIGHT	135KG
DIMENSIONS	190CM X 63CM X 126CM

C22

TILLER

ADJUSTABLE HANDLEBARS
for operator comfort and safety.

**RELIABLE HONDA
ENGINE**

REAR DRAG BAR
controls the digging depth
and is easily adjustable.

HARD WEARING TINES
which are individually
replaceable.

TRANSPORT WHEEL
to assist with manoeuvring
the tiller.

The **CAMON C22** is the ideal tool for preparing garden borders, vegetable patches, and allotments for the upcoming planting season. With its potent engine and sturdy digging tines, it can easily churn through even the most stubborn soils, offering a more effective and efficient alternative to traditional spade digging.

 **MADE IN
BRITAIN**

CAPABILITIES

The **CAMON C22** is a powerful machine for turning your soil into usable areas for planting. It has been built for all types of operator from domestic to commercial, having been made to last and combines this with a very simple system to operate. Just pull the single lever and the power of the **C22** will quickly do the work for you.

The tines of the **CAMON C22** are not only crafted from hardened steel, but unlike many tillers they are also individually replaceable. The tiller's drive train, made from premium components, ensures both ease of maintenance and demonstrated dependability.

The foldable handlebars simplify the machine's vehicle transport and storage, while the handy front wheel ensures the **CAMON C22** can be easily manoeuvred to its required location.

HARDWEARING INDIVIDUALLY REPLACEABLE TINES are each 6mm thick with a Y-shaped profile for heavy-duty digging applications.

SPECIFICATION

ENGINE	HONDA GX160

DIMENSIONS	140CM X 70CM X 84CM

HA10

HAND AERATOR

RUBBER GRIPS

for storage and travel convenience

EXTREMELY STRONG CONSTRUCTION

for extra durability

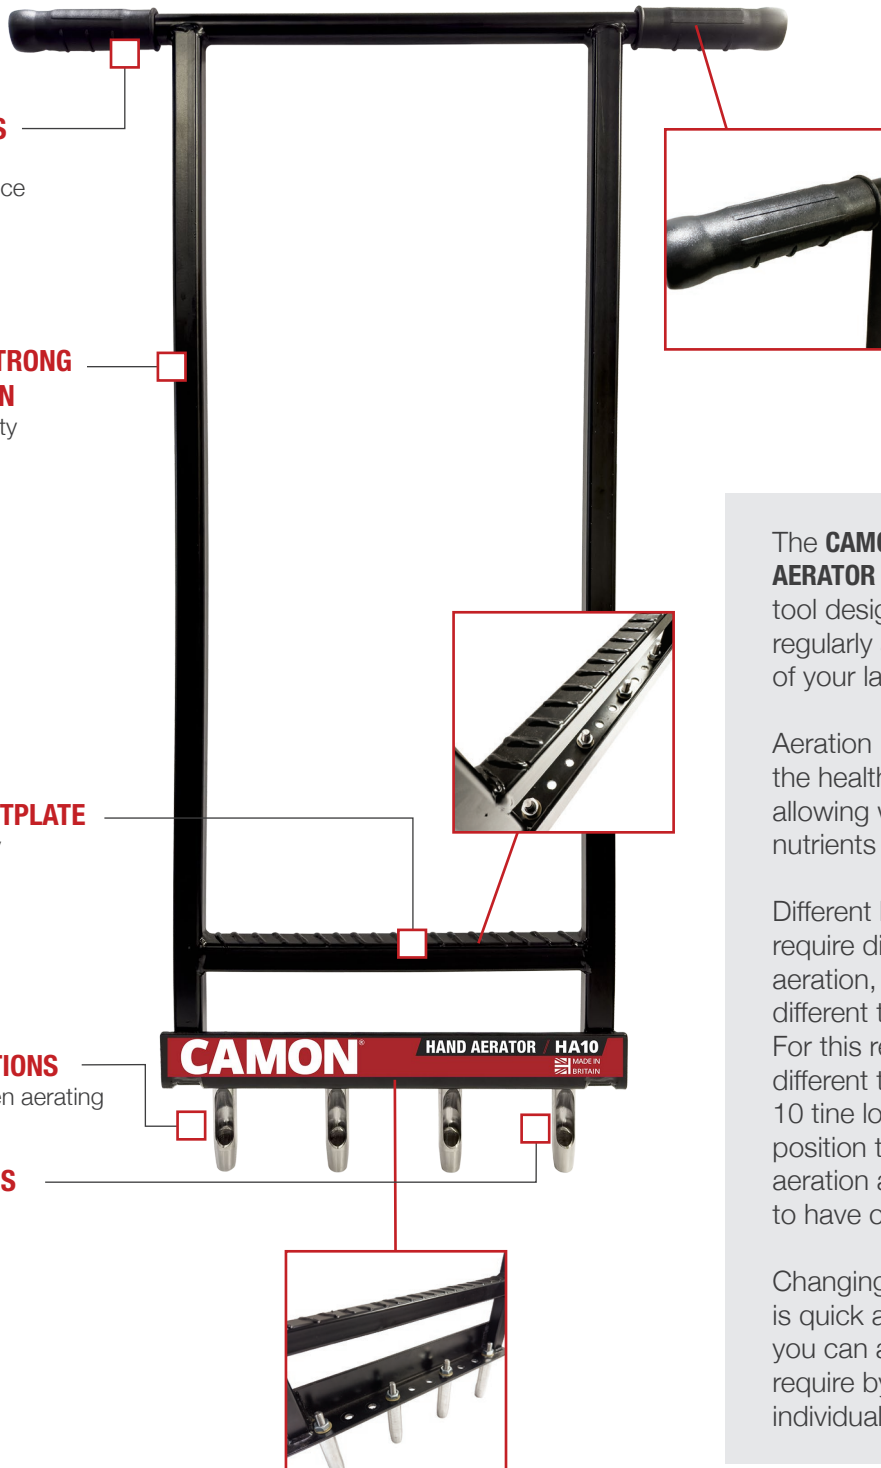

ANTI SLIP FOOTPLATE

for added safety

10 TINE LOCATIONS

for flexibility when aerating

6 TINE OPTIONS

The **CAMON HA10 HAND AERATOR** is a versatile hand tool designed to help you regularly aerate every part of your lawn.

Aeration helps improve the health of your grass by allowing water, oxygen and nutrients into the soil.

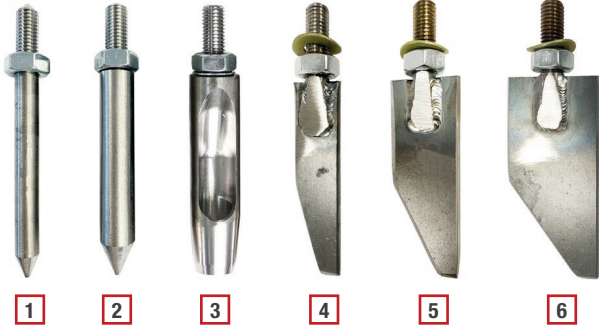

Different lawns may also require different types of aeration, particularly at different times of the year. For this reason we offer 6 different tine options and 10 tine locations in which to position them, to maximise the aeration affect you would like to have on your lawn.

Changing between the tines is quick and easy to do and you can add to the tines you require by purchasing them individually or as sets.

 **MADE IN
BRITAIN**

ATTACHMENTS

Key to the success of the **CAMON HA10 HAND AERATOR** is the ability to change between a range of tine options. Each tine is tailored to a specific role and offers the operator incredible options to work on a lawn.

OUR SERVICES

SPARE PARTS

Normally available from stock, we carry a complete range of original spare parts for all our machines.

TECHNICAL SUPPORT

Our technical team are available during office hours to provide a telephone support service to keep you running.

WARRANTY

Our warranty periods reflect the build quality of our machines; namely 3 years for domestic and 2 years for commercial use.

NATIONWIDE SUPPORT

We have a nationwide network of authorised dealers who offer both pre- and post-sales support and services.
