

## HB12

## HOLE BORER

**TILTING HANDLEBARS**  
enable the hole borer to dig holes on banks and sloping ground.

**FORWARD & REVERSE**  
for complete auger control.

**EXTENDABLE BODY**  
ensures compact transport size.

**LOCKING HANDWHEEL**  
to select the length of the hole borer.

**SWIVEL AUGER HEAD**  
adjusts as it digs.

**HYDRAULIC OPERATION**  
for power and reliability.

**AUGER CHOICE**  
from 5cm to 30cm wide.

**HONDA ENGINE**

**DEPTH EXTENSION**  
allowing an additional 30cm depth.

**LARGE WHEELS**  
make the HB12 very manoeuvrable.

**REPLACEABLE AUGER TIPS**

## SPECIFICATION

ENGINE	HONDA GX270 PETROL
AUGER DEPTH	80CM
DEPTH EXTENSION	30CM
AUGER WIDTHS	5CM TO 30CM
WEIGHT	100KG

The **CAMON HB12** is hydraulically driven and is designed to be powerful, durable, and reliable.

Easy operation coupled with excellent balance due to the tilting handlebars and swivel auger head, ensure that the **CAMON HB12** will effortlessly dig holes over 100cm deep and up to 30cm wide.
