- > Door or window openings
- > Fire alarms
- > Noises (baby crying, oven timer)
- > And more

Enhancing communications and safety for people with hearing loss with alerts for events and hazards including:

CARING. INNOVATIVE. HIGH-QUALITY.

From an industry leader – Silent Call.

Since 1985, Silent Call has helped people with hearing loss lead lives which are safer and more fully engaged with their loved ones, neighbors and surroundings.

Through Silent Call transmitters and receivers placed throughout the home, office, hotel room or dormitory, users are alerted visually (with flashing strobe lights) or tactilely (with vibrations) to doorbells, phone calls, smoke, fire, severe weather and more.

Easy to install and operate, Silent Call products are made in the U.S.A. to the highest industry standards. Backed by a 30-day money-back guarantee, they're also supported by a five-year warranty on materials and workmanship.

You can select Silent Call with the confidence there are no better alerting systems available from any source, anywhere.

Diane & George J. Elwell

A personal note from the Founder and President:

Silent Call Customers,

Since founding Silent Call in 1985, we've been honored to help thousands of people throughout the U.S. and Canada.

*In every endeavor, we're inspired and guided by **Proverbs 3:5-6: "Trust in the Lord with all your heart and lean not on your own understanding; in all your ways acknowledge Him, and He will make your paths straight."***

On behalf of my wife Diane and others at Silent Call, I thank you for placing your trust in us. Best wishes and God Bless.

George J. Elwell

Medallion™ Series Overview

Medallion™ Series products bring Silent Call benefits to people who are deaf, deaf-blind or hard of hearing. Designed with million-code technology, the receivers and transmitters offer broad coverage without interference from other systems – making them ideal for use in apartments, condominiums, hotels and dormitories as well as homes. They offer extended-range, wireless convenience of up to 500 feet (150 meters), depending on product combination.*

*Normal stated coverage between the transmitter and receiver is clear line of sight. Coverage can be affected by concrete-reinforced walls, TV transmitters, computers, mobile phones and other factors.

Medallion™ Series Receivers | Notifying you to household events – and identifying each with lighted icons or pulse patterns.

Medallion™ Series Mini Receiver (MR1214-MC) \$199.99

Bright, brighter or brightest – a three-way strobe light alerts you to events and threats throughout your home or office with the Medallion™ Series Mini Receiver. Compatible with all Medallion™ Series Transmitters, it even identifies specific alerts with color LED icons for sound, telephone calls, doorbells, fire and smoke, weather alerts and carbon monoxide threats. Easy to use, it plugs into any standard 110-volt electrical outlet and includes a backup battery. It also allows you to select bright-brighter-brightest strobe settings, and works with the optional Bed Vibrator (VIB-PJ). Place one on your end table, night stand or other flat surface.

- > Alerts you to phone calls, doorbells, sounds, fire/smoke, weather alerts and carbon monoxide threats
- > Notifies you with a flashing strobe light with three settings: bright, brighter or brightest
- > Identifies specific events with any of six lighted and colored icons
- > Works with all Medallion™ Series 418 MHz Transmitters
- > Features Silent Call million-code technology for interference-free performance in apartments, condominiums, dormitories, hotels, workplace, and public housing; also ideal for use in single-family homes
- > Plugs into any standard 110-volt electrical outlet
- > Includes a backup battery
- > Activates the (optional) Bed Vibrator (VIB-PJ)
- > Features the Silent Call 5-Year Limited Warranty

Medallion™ Series Vibra-Call™ 3 Body-Worn Receiver (VC4003-MC) \$301.99

People who are deaf-blind and need a portable receiver for maximum freedom around the home or office can rely on the Medallion™ Series Vibra-Call™ 3 Body-Worn Receiver. As you move from room to room and even outdoors to the patio, it works with all Medallion™ Series Transmitters to alert you to events and emergencies. A series of distinct vibration patterns distinguish between doorbells and phone calls, among other notifications. Overnight, it recharges in a Charger/Docking Station but still alerts you to incoming warning signals through the Bed Vibrator, which is also included.

- > Alerts you to phone calls, doorbells, sounds, weather alerts, fire, smoke and more
- > Notifies you to the type of alert with distinctive pulse patterns
- > Features six (6) recall buttons
- > Works with all Medallion™ Series 418 MHz Transmitters
- > Features Silent Call million-code technology for interference-free performance in apartments, condominiums, dormitories, hotels and public housing; also ideal for use in single-family homes
- > Clips to your belt or waistband, or fits in a pocket
- > Includes a Leather Pouch (LP-12)
- > Recharges from a Charger/Docking Station (included)
- > Activates a Bed Vibrator (VIB-PJ) (included)
- > Features the Silent Call 5-Year Limited Warranty

Medallion™ Series Transmitters

Signaling events such as phone calls and doorbells as they occur.

Medallion™ Series Wireless Smoke Detector with Transmitter (SD4-MC) \$109.99

Where there's smoke, there's the potential for danger. Become aware of it and the possibility of fire with the Medallion™ Series Smoke Detector with Transmitter. When the photocell detector senses the presence of smoke, the built-in transmitter broadcasts a signal to any Medallion™ Series Receiver. Easy to install in any room, it is powered by a long-life, 3-volt lithium battery for round-the-clock, 24-hour protection.

- > Senses smoke with a photocell detector
- > Signals with its built-in transmitter
- > Works with all Medallion™ Series 418 MHz Receivers
- > Features Silent Call million-code technology for interference-free performance in apartments, condominiums, dormitories, hotels and public housing; also ideal for use in single-family homes
- > Powered by a long-life, 3-volt lithium battery (included)
- > Features the combination Silent Call 3- and 5-Year Limited Warranty

Medallion™ Series Wireless Carbon Monoxide Detector with Transmitter (CO5-MC) \$139.99

When dangerous levels of odorless and invisible carbon monoxide (CO) gas build up, gain an alert with the Medallion™ Series Wireless Carbon Monoxide Detector with Transmitter which signals any Medallion™ Series Receiver. Easy to install in any room, it is powered by a long-life, 3-volt lithium battery for round-the-clock, 24-hour protection.

- > Signals when dangerous levels of carbon monoxide (CO) gas are detected
- > Works with all Medallion™ Series 418 MHz Receivers
- > Features Silent Call million-code technology for interference-free performance in apartments, condominiums, dormitories, hotels and public housing; also ideal for use in single-family homes
- > Features the Silent Call 3- and 5-Year Limited Warranty

“As a person who’s hard of hearing, I trust Silent Call to alert me when I receive a phone call.”

**Medallion™ Series Telephone Transmitter
(TEL-MC) \$85.99**

Gain an alert when family members, friends or others call you with the Medallion™ Series Telephone Transmitter. It notifies you to voice, TTY or VCO phone calls by sending a signal to any Medallion™ Series Receiver whenever it detects a ring tone. Easy to install, it connects in seconds to the phone jack of any standard analog phone line. It is powered by two AA batteries.

- > Signals incoming telephone, TTY or VCO calls
- > Works with all Medallion™ Series 418 MHz Receivers
- > Features Silent Call million-code technology for interference-free performance in apartments, condominiums, dormitories, hotels and public housing; also ideal for use in single-family homes
- > Connects to the phone jack of any standard analog phone line
- > Operates on two (2) AA batteries (included)
- > Features the Silent Call 5-Year Limited Warranty

**Medallion™ Series Wireless Doorbell Transmitter
(DB4-MC) \$68.99**

When visitors come calling you'll gain an alert with the Medallion™ Series Wireless Doorbell Transmitter. If a family member, neighbor or someone else presses the button, it transmits a signal to any Medallion™ Series Receiver. Battery operated and not intended for wiring to existing doorbell circuitry, it is ideal for homes without doorbells, or for side doors or back doors where doorbells have not been installed. It combines the doorbell button and transmitter in one compact, easy-to-install unit.

- > Signals when a visitor pushes the doorbell button
- > Works with all Medallion™ Series 418 MHz Receivers
- > Features Silent Call million-code technology for interference-free performance in apartments, condominiums, dormitories, hotels and public housing; also ideal for use in single-family homes
- > Combines the doorbell button and transmitter in one compact unit
- > Mounts easily with two (2) small screws (included)
- > Powered by one (1) 12-volt battery (included)
- > Features the Silent Call 5-Year Limited Warranty

**Medallion™ Series Doorbell Transmitter
(DB1-MC) \$85.99**

Become aware when someone is at your door. When a visitor presses the doorbell button, the Medallion™ Series Doorbell Transmitter broadcasts a signal to any Medallion™ Series Receiver. Wired to your existing doorbell, it is activated by the same current that operates the doorbell chime. Easy to install and powered by the doorbell's electrical circuit, there are no batteries to replace.

- > Signals when a visitor pushes the doorbell button
- > Works with all Medallion™ Series 418 MHz Receivers
- > Features Silent Call million-code technology for interference-free performance in apartments, condominiums, dormitories, hotels and public housing; also ideal for use in single-family homes
- > Connects to the doorbell wiring; installs easily
- > Operates on the doorbell electrical circuit; no batteries are required
- > Features the Silent Call 5-Year Limited Warranty

**Medallion™ Series Doorbell Transmitter with Button
(DB2-MC) \$78.99**

You have a visitor! Gain an alert when a guest arrives at your door with the Medallion™ Series Doorbell Transmitter with Button. Supplied with a button for mounting at your entranceway, it connects by wire to a compact transmitter you'll position nearby. When someone presses the button, the transmitter signals any Medallion™ Series Receiver. Intended for installation where there is no existing wired doorbell, it operates on two AA batteries.

- > Signals when a visitor pushes the doorbell button
- > Works with all Medallion™ Series 418 MHz Receivers
- > Features Silent Call million-code technology for interference-free performance in apartments, condominiums, dormitories, hotels and public housing; also ideal for use in single-family homes
- > Powered by two (2) AA batteries (included)
- > Installs easily in applications where there is no existing wired doorbell
- > Features the Silent Call 5-Year Limited Warranty

We ordered a smoke detector system from Silent Call for our youngest son who is deaf about a year ago, and we are very pleased with it.

We also received an item that we did not order. Thank you for letting us keep it and saving us the expense of returning it. I'm even more impressed with Silent Call now..."

– Eric Fields

Medallion™ Series Digital Doorbell Transmitter (DB41-MC) \$85.99

Receive an alert when a visitor comes to your home with the Medallion™ Series Digital Doorbell Transmitter. Designed for use with the latest digital doorbell systems and easy to install, it connects in just minutes to the doorbell circuitry and is activated by the same electric impulse that operates the chime. It then notifies any Medallion™ Series Receiver to let you know when a family member, friend or delivery person is at your door.

- > Connects to an existing home or office digital doorbell system
- > Activates by the same signal that operates the doorbell chime
- > Works with all Medallion™ Series 418 MHz Receivers
- > Features Silent Call million-code technology for interference-free performance in apartments, condominiums, dormitories, hotels and public housing; also ideal for use in single-family homes
- > Powered by two (2) AA batteries (included)
- > Features the Silent Call 5-Year Limited Warranty

Medallion™ Series Sound Monitor (SM5-MC) \$97.99

Become aware of a baby's cry, ringing alarm clock, door buzzer or oven timer. Whatever the noise, the Medallion™ Series Sound Monitor alerts you to it. When a sound is detected, it sends a signal to any Medallion™ Series Receiver. A delay circuit prevents activation by brief noises such as a slamming door, and a sensitivity switch lets you adjust the sound threshold at which it activates. Fully portable, it operates on two AA batteries.

- > Signals when cries, alarms and timers are sounded
- > Works with all Medallion™ Series 418 MHz Receivers
- > Features Silent Call million-code technology for interference-free performance in apartments, condominiums, dormitories, hotels and public housing; also ideal for use in single-family homes
- > Sensitivity switch lets you adjust the sound threshold at which it activates
- > Includes a delay circuit to prevent activation by brief noises
- > Monitors sounds in any room; fully portable
- > Powered by two (2) AA batteries (included)
- > Features the Silent Call 5-Year Limited Warranty

Medallion™ Series Door/Window Access Transmitter (DW3-MC) \$105.99

When a person opens a door or window that you're monitoring, you'll receive an instant notification with the Medallion™ Series Door/Window Access Transmitter. It connects by wire to two magnetic contact bars mounted on the door or window and its frame. When the door or window is opened and the bars lose magnetic contact, the transmitter broadcasts a signal to any Medallion™ Series Receiver, alerting you to the event. Easily installed, it operates on two AA batteries.

- > Signals when a monitored door or window is opened
- > Works with all Medallion™ Series 418 MHz Receivers
- > Features Silent Call million-code technology for interference-free performance in apartments, condominiums, dormitories, hotels and public housing; also ideal for use in single-family homes
- > Magnetic bars mount on a door or window and its frame
- > Connects the bars to the transmitter with a 24-inch wire
- > Operates on two (2) AA batteries (included)
- > Includes a low-battery indicator light
- > Features the Silent Call 5-Year Limited Warranty

Medallion™ Series TransMATTer™ Transmitter (MAT-MC) \$120.99

Alert yourself to movement through a doorway or at a bedside. To receive notifications, place the Medallion™ Series TransMATTer™ Transmitter under a doormat or bedside rug. Weight activated, it sends a wireless signal to any Medallion™ Series Receiver when a person enters or exits a room, or when someone such as a child, elderly person or patient gets out of bed and steps on the mat. As a result, the battery-operated transmitter is ideal for use not only in homes, but also in hospitals, nursing facilities and even noisy business settings.

- > Signals when someone steps on a mat at doorway or bedside
- > Works with all Medallion™ Series 418 MHz Receivers
- > Features Silent Call million-code technology for interference-free performance in apartments, condominiums, dormitories, hotels and public housing; also ideal for use in single-family homes
- > Connects the mat to the transmitter with a 10-foot cord
- > Operates on two (2) AA batteries (included)
- > Includes a low-battery indicator light

"With hearing loss, I rely on Silent Call for alerts to doorbells, phone calls and more."

> Features the Silent Call 5-Year Limited Warranty

Medallion™ Series Bed Mat Transmitter (BM4-MC) \$173.99

Monitor the bedtime movements of a family member or patient with the Medallion™ Series Bed Mat Transmitter. You place the pressure-activated mat on any firm mattress and the nearby transmitter will signal any Medallion™ Series Receiver when the person whose movements you are monitoring gets up, off the mat and out of bed. The mat connects to a bedside-positioned, battery-operated transmitter via a 10-foot cord.

- > Signals when someone gets out of bed
- > Works with all Medallion™ Series 418 MHz Receivers
- > Features Silent Call million-code technology for interference-free performance in apartments, condominiums, dormitories, hotels and public housing; also ideal for use in single-family homes
- > Connects mat and transmitter with a 10-foot cord
- > Includes a waterproof mat cover
- > Operates on two (2) AA batteries (included)
- > Features the Silent Call 5-Year Limited Warranty

Medallion™ Series Weather Alert Transmitter (WT-MC) \$91.99

Storms approaching? Become aware of potential emergencies with the Medallion™ Series Weather Alert Transmitter. It works with any compatible weather alert radio and transmits a wireless signal to any Medallion™ Series Receiver when the NWS (National Weather Service) broadcasts a warning. Offering a simple, plug-in connection to the radio, the transmitter is powered by two AA batteries.

- > Alerts you to NWS (National Weather Service) warnings
- > Works with all Medallion™ Series 418 MHz Receivers
- > Features Silent Call million-code technology for interference-free performance in apartments, condominiums, dormitories, hotels and public housing; also ideal for use in single-family homes
- > Plugs into any compatible weather alert radio
- > Operates on two (2) AA batteries (included)
- > Includes a low-battery indicator light
- > Features the Silent Call 5-Year Limited Warranty

Enhance the functionality and convenience of your Medallion™ Series products.

Bed Vibrator with Pin Jack (VIB-PJ) \$33.99

Wake up to household events that occur while you are sleeping or napping with the Bed Vibrator with Pin Jack. Place it under your mattress pad near your pillow; a simple pin jack offers easy connection to a variety of Signature Series Receivers, Legacy Series Receivers and Medallion™ Series Receivers, as well as the Sleep/Alert Charger (SACHr3). With them, you gain continual 24-hour notifications to events and emergencies.

- > Shakes you awake when signaled by a Signature Series Receiver, Legacy Series Receiver or Medallion™ Series Receiver
- > Connects easily with a simple pin jack
- > Features the Silent Call 5-Year Limited Warranty

Over the many years that I have been doing business with Silent Call, the staff has taken care of my daughter Roberta's equipment needs and gone above and beyond my expectations.

Whenever I call to check on the status of a repair or you call to update or explain the situation, your response is always quick with good information and details, which is so important to Roberta, and I feel a genuine interest in our well-being.

Every day without communication seems an eternity to someone totally deaf and blind, and as Roberta says, 'Boring, boring.' Thank you for keeping her connected to our family and the world around her.

Our entire family appreciates the care and attention you have given us."

– Faye Matheny

Signature Series (418 MHz) Overview

Technically advanced and highly capable, Signature Series receivers, transmitters and accessories operate at 418 MHz for extended-range, wireless convenience of up to 800 feet, depending on product combination.* Choose from the products featured here. Or, for convenience, begin with a kit (shown on our website at silentcall.com) and then augment it with selected receivers, transmitters and accessories.

*Normal stated coverage between the transmitter and receiver is clear line of sight. Coverage can be affected by concrete-reinforced walls, TV transmitters, computers, mobile phones and other factors..

418 MHz Receivers | Notifying you to events by
strobe lights, vibrations or both.

Signature Series Sidekick II™ 418 MHz Receiver with Strobe Light (SK2-SS) \$269.99

Monitor events and threats throughout your home, office, dorm or hotel room. The Signature Series Sidekick II™ Receiver with Strobe Light works with all Signature Series Transmitters to alert you to sounds, phone calls, doorbells, fire alarms, carbon monoxide threats, weather alerts and more. When a signal is received, it notifies you with a flashing strobe light and identifies the specific event with any of six colored lights and icons. It plugs into any standard 110-volt electrical outlet and includes a Backup Battery Pack (BU-10).

- > Alerts you to sounds, phone calls, doorbells, fire alarms, carbon monoxide threats, weather alerts and more
- > Notifies you with a flashing strobe light
- > Identifies specific events with any of six colored lights and icons
- > Works with all Signature Series 418 MHz Transmitters
- > Supervises up to three Signature Series Smoke Detectors or Fire Transmitters
- > Operates on your end table, night stand or other flat surface
- > Connects directly to telephones (with telephone cable, included)
- > Plugs into any standard 110-volt electrical outlet
- > Includes a digital clock with alarm
- > Features a Backup Battery Pack (BU-10) (included)
- > Activates the (optional) Bed Vibrator (VIB-PJ)
- > Features the Silent Call 5-Year Limited Warranty

Signature Series Body-Worn Communicator 418 MHz Receiver (BWR412-SS) \$239.99

Around the home, dorm, office or even outside on a patio, alert yourself to doorbells, fire alarms and other events with the Signature Series Body-Worn Communicator Receiver. Complete with Leather Pouch (LP-12), people who are deaf or hard of hearing can wear it on their belt or waistband or place it in a pocket. When a signal is received from any Signature Series Transmitter, it pulses with vibrations in a unique pattern and displays a distinctive LED icon to indicate which event is causing the transmission. At night, it recharges in the USB Charging Set (USB-12).

- > Alerts you to sounds, phone calls, doorbells, fire alarms, carbon monoxide threats, weather alerts and more
- > Notifies you to the type of alert with distinctive pulse patterns
- > Also identifies specific events with individual LED icons
- > Works with all Signature Series 418 MHz Transmitters
- > Clips to your belt or waistband, or fits in a pocket
- > Includes a Leather Pouch (LP-12)
- > Recharges from a USB Charging Set (USB-12) (included) which plugs into any standard 110-volt outlet
- > Features the Silent Call 5-Year Limited Warranty

Signature Series Vibra-Call™ 3 Body-Worn 418 MHz Receiver (VC4003-SS) \$259.99

Specially designed for people who are deaf-blind and require a body-worn receiver for maximum freedom around the home, the Signature Series Vibra-Call™ 3 Body-Worn Receiver works with all Signature Series Transmitters to alert you to events and emergencies. Complete with its own Leather Pouch (LP-12), you clip it to your belt or waistband, or place it in a pocket. A series of distinct vibration patterns distinguish between doorbells and phone calls, among other notifications. You can wear it throughout your home or office, and also outdoors such as on your patio. It recharges overnight in a Charger/Docking Station.

- > Alerts you to phone calls, doorbells, sounds, weather alerts, fire, smoke and more
- > Notifies you to the type of alert with distinctive pulse patterns
- > Works with all Signature Series 418 MHz Transmitters
- > Clips to your belt or waistband, or fits in a pocket
- > Includes a Leather Pouch (LP-12)
- > Recharges from a Charger/Docking Station (included) which plugs into any standard 110-volt outlet
- > Activates a Bed Vibrator (VIB-PJ) (included)
- > Features the Silent Call 5-Year Limited Warranty

“My Body-Worn Receiver lets us play in the yard.”

Signature Series Wireless Smoke Detector 418 MHz with Transmitter (SD4-SS) \$119.99

Gain instant notification in the event of smoke and potentially fire with the Signature Series Wireless Smoke Detector with Transmitter. When the photocell detector senses the presence of smoke, the built-in transmitter broadcasts a signal to any Signature Series Receiver. Easy to install in any room, it is powered by a long-life, 3-volt lithium battery for 24-hour protection.

- > Senses smoke with a photocell detector
- > Signals with its built-in transmitter
- > Works with any Signature Series 418 MHz Receiver
- > Operates on a long-life, 3-volt lithium battery (included)
- > Features the combination Silent Call 3- and 5-Year Limited Warranty

Signature Series Wireless Carbon Monoxide Detector with Transmitter (CO5-SS) \$165.99

When dangerous levels of odorless and invisible carbon monoxide (CO) gas build up, gain an alert with the Signature Series Wireless Carbon Monoxide Detector with Transmitter which signals any Signature Series Receiver. Easy to install in any room, it is powered by a long-life, 3-volt lithium battery for round-the-clock, 24-hour protection.

- > Signals when dangerous levels of carbon monoxide (CO) gas are detected
- > Works with all Signature Series 418 MHz Transmitters
- > Features the Silent Call 3- and 5-Year Limited Warranty

Signature Series Carbon Monoxide 418 MHz Transmitter – Voltage Input (CO4-SS) \$79.99

Warn yourself when carbon monoxide (CO) reaches dangerous levels with the Signature Series Carbon Monoxide Transmitter – Voltage Input. Built for wiring into a home or building fire alarm system, it broadcasts a wireless signal to any Signature Series Receiver when the panel is activated. It operates on power supplied by the fire panel. Installation by a licensed electrician or fire alarm company is recommended.

- > Signals when dangerous levels of carbon monoxide (CO) are detected
- > Works with any Signature Series 418 MHz Receiver
- > Activates through a home or building fire alarm system by wired connection
- > Operates on 12-24 volts supplied by the fire panel
- > Features the Silent Call 5-Year Limited Warranty

Signature Series Carbon Monoxide 418 MHz Transmitter – Contact Input (CO3-SS) \$79.99

Become aware of dangerous levels of carbon monoxide (CO) with the Signature Series Carbon Monoxide Transmitter – Contact Input. It alerts you by sending a wireless signal to any Signature Series Receiver. Panel activated and designed to be wired into a home or building fire alarm system using a dry-contact relay, it operates on two AA batteries. Installation by a licensed electrician or fire alarm company is recommended.

- > Signals when dangerous levels of carbon monoxide (CO) are detected
- > Works with any Signature Series 418 MHz Receiver
- > Connects to a home or building fire alarm system with a dry-contact relay
- > Operates on two (2) AA batteries (included)
- > Features the Silent Call 5-Year Limited Warranty

Signature Series Fire Alarm 418 MHz Transmitter – Contact Input (FA3-SS) \$79.99

Alert yourself to the danger of fire with the Signature Series Fire Alarm Transmitter – Contact Input. It sends a wireless signal to any Signature Series Receiver when a fire alarm is activated. Designed to be wired to a home or building fire alarm system by dry-contact relay, installation by a licensed electrician or fire alarm company is recommended.

- > Signals when a home or building fire alarm is activated
- > Works with any Signature Series 418 MHz Receiver
- > Connects to a home or building fire alarm system by dry-contact relay
- > Operates on two (2) AA batteries (included)
- > Features the Silent Call 5-Year Limited Warranty

Signature Series Fire Alarm 418 MHz Transmitter – Voltage Input (FA4-SS) \$78.99

Get a timely warning when a fire alarm activates with the Signature Series Fire Alarm Transmitter – Voltage Input. Designed to be wired to a home or building fire alarm system, it broadcasts a signal to any Signature Series Receiver when the fire alarm is activated. Operating on current supplied through the fire panel, it requires no batteries. Installation by a licensed electrician or fire alarm company is recommended.

- > Signals when a home or building fire alarm is activated
- > Works with any Signature Series 418 MHz Receiver
- > Activates through a home or building fire alarm system by wired connection
- > Operates on 12-24 volts supplied by the fire panel
- > Features the Silent Call 5-Year Limited Warranty

Signature Series Telephone/TTY/VCO 418 MHz Transmitter (TEL-SS) \$79.99

Receive notifications of incoming phone calls from family members, friends and neighbors. The Signature Series Telephone/TTY/VCO Transmitter alerts you to voice, TTY or VCO phone calls by sending a signal to any Silent Call Signature Series Receiver. Easy to install, it connects in seconds to the phone jack of any standard analog phone line. It is powered by two AA batteries.

- > Signals incoming telephone, TTY or VCO calls
- > Works with any Signature Series 418 MHz Receiver
- > Connects to the phone jack of any standard analog phone line
- > Operates on two (2) AA batteries (included)
- > Features the Silent Call 5-Year Limited Warranty

Signature Series Wireless Doorbell 418 MHz Transmitter (DB4-SS) \$74.99

Gain an alert when a visitor arrives at your door. When a neighbor, letter carrier or someone else presses the button on the Signature Series Wireless Doorbell Transmitter, it transmits a signal to any Signature Series Sidekick II™ Receiver. Battery operated and not intended for wiring to existing doorbell circuitry, it is ideal for homes without doorbells, or for side doors or back doors where doorbells have not been installed. Combines the doorbell button and transmitter in one compact, easy-to-install unit.

- > Signals when a visitor pushes the doorbell button
- > Works with Signature Series Sidekick II™ 418 MHz Receivers
- > Combines the doorbell button and transmitter in one compact unit
- > Mounts easily with two (2) small screws (included)
- > Operates on one (1) 12-volt battery (included)
- > Features the Silent Call 5-Year Limited Warranty

Signature Series Clip-On Doorbell 418 MHz Transmitter (DBWBRKT-SS) \$79.99

A handy solution, the Signature Series Clip-On Doorbell Transmitter attaches to doors where no permanent doorbell is installed. Featuring a built-in button, this battery-operated device easily clips over the edge of any standard wooden door. When its doorbell button is pressed by a family member, friend, letter carrier or other person, the transmitter signals any Signature Series Receiver. Move this clip-on doorbell/transmitter from entryway to entryway easily; it's readily portable.

- > Signals when a visitor pushes the doorbell button
- > Works with any Signature Series 418 MHz Receiver
- > Combines the doorbell button and transmitter in one portable unit
- > Clips over any standard wooden door
- > Operates on one (1) 12-volt battery (included)
- > Features the Silent Call 5-Year Limited Warranty

Signature Series Doorbell 418 MHz Transmitter (DB1-SS) \$89.99

Become aware when someone is at your door. When a visitor presses the doorbell button, the Signature Series Doorbell Transmitter broadcasts a signal to any Silent Call Signature Series Receiver. Wired to your existing doorbell, it is activated by the same current that operates the doorbell chime. Easy to install and powered by the doorbell's electrical circuit, there are no batteries to replace.

- > Signals when a visitor pushes the doorbell button
- > Works with any Signature Series 418 MHz Receiver
- > Connects to the doorbell wiring; installs easily
- > Operates on the doorbell electrical circuit; no batteries are required
- > Features the Silent Call 5-Year Limited Warranty

Signature Series Doorbell 418 MHz Transmitter with Button (DB2-SS) \$79.99

Receive a notification when visitors come calling. The Signature Series Doorbell Transmitter with Button alerts you to the arrival of a family member, friend or delivery person at your door. It sends a signal to any Signature Series Receiver when they press the doorbell button. Supplied with a doorbell button for mounting at your entranceway, it is intended for installation where there is no existing wired doorbell. It operates on two AA batteries.

- > Signals when a visitor pushes the doorbell button
- > Works with any Signature Series 418 MHz Receiver
- > Installs easily in applications where there is no existing wired doorbell
- > Operates on two (2) AA batteries
- > Features the Silent Call 5-Year Limited Warranty

**Signature Series Digital Doorbell 418 MHz Transmitter (DB41-SS) \$79.99**

Designed for use with the latest digital doorbell systems, the Signature Series Digital Doorbell Transmitter is wired to the doorbell circuitry and is activated by the same signal that operates the doorbell chime. It then notifies any Signature Series Receiver to let you know a family member, friend, neighbor, or delivery person is at your door.

- > Attaches to the latest digital doorbell systems
- > Activates by the same signal that operates the doorbell chime
- > Works with any Signature Series 418 MHz Receiver
- > Operates on two (2) AA batteries (included)
- > Features the Silent Call 5-Year Limited Warranty

**Signature Series Sound Monitor 418 MHz Transmitter (SM5-SS) \$79.99**

Alert yourself to a baby's cry, door buzzer, alarm clock or oven timer. Whatever the noise, the Signature Series Sound Monitor Transmitter will notify you of it. When a sound is detected, it broadcasts a signal to any Signature Series Receiver. A delay circuit prevents activation by brief noises such as a slamming door, and a sensitivity control lets you adjust the sound threshold at which it activates. Fully portable, it operates on two AA batteries.

- > Signals when cries, alarms and timers are sounded
- > Works with any Signature Series 418 MHz Receiver
- > Lets you adjust the sound threshold at which it activates
- > Includes a delay circuit to prevent activation by brief noises
- > Monitors sounds in any room; fully portable
- > Operates on two (2) AA batteries (included)
- > Features the Silent Call 5-Year Limited Warranty

**Signature Series Door/Window Access 418 MHz Transmitter (DW3-SS) \$89.99**

Become aware when someone opens your door or window. The Signature Series Door/Window Access 418 MHz Transmitter connects by a 24-inch wire to two magnetic contact bars mounted on the door or window and its frame. When the door or window is opened and the bars lose magnetic contact, the transmitter broadcasts a signal to any Signature Series Receiver. Easily installed, it operates on two AA batteries.

- > Signals when a door or window is opened
- > Works with any Signature Series 418 MHz Receiver
- > Magnetic contact bars mount on a door or window and its frame
- > Operates on two (2) AA batteries (included)
- > Features the Silent Call 5-Year Limited Warranty

**Signature Series TransMATTER™ 418 MHz Transmitter (MAT4-SS) \$129.99**

Alert yourself to movement in a doorway or when someone gets out of bed. Place the pressure-activated Signature Series TransMATTER™ Transmitter under a doormat or on the floor next to the bed. The mat connects to the transmitter with a 10-foot cord. Signature Series Receivers are signaled if someone enters or exits a room, or when a child, elderly individual or patient gets out of bed. As a result, it is ideal for use not only in the home but also in hospitals, nursing facilities and even in noisy business settings.

- > Signals when someone crosses a threshold or gets out of bed
- > Works with any Signature Series 418 MHz Receiver
- > Operates on two (2) AA batteries (included)
- > Mat connects to the transmitter with a 10-foot cord (included)
- > Features the Silent Call 5-Year Limited Warranty

"Our carbon monoxide transmitter keeps me alerted."

**Signature Series Bed Mat 418 MHz Transmitter
(BM418-SS) \$139.99**

Receive a notification when a loved one or patient gets out of bed with the Signature Series Bed Mat Transmitter. Pressure-activated, it sends a signal to any Signature Series Receiver when the person laying on the mat gets out of bed. Battery operated and complete with a waterproof cover, it works best when placed on top of a firm mattress.

- > Signals when someone gets out of bed
- > Works with any Signature Series 418 MHz Receiver
- > Operates on two (2) AA batteries (included)
- > Includes a waterproof cover
- > Features the Silent Call 5-Year Limited Warranty

**Signature Series Weather Alert 418 MHz Transmitter
(WT-SS) \$79.99**

Receive a warning when severe weather alerts are issued and become aware of potential emergencies with the Signature Series Weather Alert Transmitter. It plugs into any compatible weather alert radio and transmits a wireless signal to any Silent Call Signature Series Receiver. Offering a simple, plug-in connection, it is powered by two AA batteries.

- > Alerts you to weather warnings
- > Works with any Signature Series 418 MHz Receiver
- > Plugs into any compatible weather alert radio
- > Operates on two (2) AA batteries (included)
- > Features the Silent Call 5-Year Limited Warranty

**Accessories**

Great ways to enhance the performance or functionality of Signature Series products.

Bed Vibrator with Pin Jack (VIB-PJ) \$33.99

Wake up to household events that occur while you are sleeping or napping with the Bed Vibrator with Pin Jack. Place it under your mattress pad near your pillow; a simple pin jack offers easy connection to a variety of Signature Series Receivers, Legacy Series Receivers and Medallion™ Series Mini Receiver, as well as the Sleep/Alert Charger (SACHGR3). With them, you gain continual 24-hour notifications to events and emergencies.

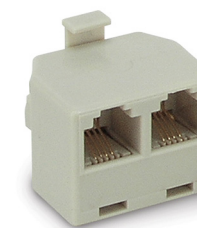

- > Shakes you awake when signaled by a Signature Series Receiver, Legacy Series Receiver or Medallion™ Series Mini Receiver
- > Connects easily with a simple pin jack
- > Features the Silent Call 5-Year Limited Warranty

**Dual-Plug Phone Jack (DP-2) \$1.50**

Connect a transmitter and your telephone to a single phone jack with the Dual-Plug Phone Jack. Use it with the Signature Series Telephone/TTY/VCO Transmitter (TEL-SS) or Legacy Series Telephone/TTY/VCO Transmitter (TEL1002-1).

- > Connects a transmitter and your telephone to a single phone jack

**Backup Battery Pack (BU-10) \$37.00**

Assure yourself of power in case of an electrical failure with the Backup Battery Pack. It works with the LampLighter Signaler (LLS-04), Legacy Series Sidekick II™ Receiver (SK09214-2) and Signature Series Sidekick II™ Receiver with Strobe Light (SK2-SS).

“With a Bed
Vibrator, I can sleep
without worry.”

Protective Rubber Skins/3-Pack (SKINS) \$19.95

A convenient three-pack in different colors, the skins work with the Signature Series Body-Worn Communicator Receiver (BWR412-SS) and Signature Series Vibra-Call™ 3 Body-Worn Receiver (VC4003-SS).

Leather Pouch (LP-12) \$19.95

Carry your portable Signature Series Receiver from location to location with the Leather Pouch. It works with the Signature Series Body-Worn Communicator Receiver (BWR412-SS) and Signature Series Vibra-Call™ 3 Body-Worn Receiver (VC4003-SS).

> Includes a belt clip

USB Charging Set (USB-12) \$24.95

The USB Charging Set works from any standard 110-volt electrical outlet or your car's cigarette lighter and recharges the Signature Series Body-Worn Communicator Receiver (BWR412-SS) and the Signature Series Vibra-Call™ 3 Body-Worn Receiver (VC4003-SS).

> Plugs into any standard 110-volt electrical outlet or car cigarette lighter

Legacy Series (318 MHz) Overview

Our original choice for performance and value, Legacy Series kits, transmitters, receivers and accessories are fully compatible with one another and operate at 318 MHz, offering up to 500-foot coverage of wireless convenience.*

*Normal stated coverage between the transmitter and receiver is clear line of sight. Coverage can be affected by concrete-reinforced walls, TV transmitters, computers, mobile phones and other factors. Range is determined by which receiver is used.

318 MHz
Kits

Designed for safety, convenience
and performance.

Legacy Series Sidekick® Basic 318 MHz Kit "D" (SK-KIT-3D) \$229.97

A convenient way to extend the capabilities of your Legacy Series System, the Legacy Series Sidekick® Basic Kit "D" combines three key products. At the kit's core is the Legacy Series Sidekick® Receiver with Strobe Light (SK09214). Positioned on an end table or nightstand, the flashing strobe alerts you to signals from the Legacy Series Doorbell Transmitter – Wireless (DB1003-4) and Legacy Series Telephone/TTY/VCO Transmitter (TEL1002-1), among other transmitters now at work in your system.

- > Works with all other Legacy Series 318 MHz Transmitters, Receivers and Accessories
- > Features the Silent Call 5-Year Limited Warranty

In the box

- > Legacy Series Sidekick® 318 MHz Receiver with Strobe Light (SK09214)
- > Legacy Series Doorbell 318 MHz Transmitter – Wireless (DB1003-4)
- > Legacy Series Telephone/TTY/VCO 318 MHz Transmitter (TEL1002-1)

Legacy Series Sidekick® Deluxe 318 MHz Kit "D" (SK-KIT-4D) \$329.96

Add to the performance of your Legacy Series System with the Legacy Series Sidekick® Deluxe Kit "D". Comprised of four components, the kit features the Legacy Series Sidekick® Receiver with Strobe Light (SK09214) that notifies you to signals it receives from the Legacy Series Doorbell Transmitter – Wireless (DB1003-4), Legacy Series Telephone/TTY/VCO Transmitter (TEL1002-1) and Legacy Series Smoke Detector with Transmitter (1008-4), among any other transmitters that are a part of your system.

- > Works with all other Legacy Series 318 MHz Transmitters, Receivers and Accessories
- > Features the Silent Call 3- and 5-Year Limited Warranty

In the box

- > Legacy Series Sidekick® 318 MHz Receiver with Strobe Light (SK09214)
- > Legacy Series Doorbell 318 MHz Transmitter – Wireless (DB1003-4)
- > Legacy Series Telephone/TTY/VCO 318 MHz Transmitter (TEL1002-1)
- > Legacy Series Smoke Detector 318 MHz with Transmitter (1008-4)

Legacy Series Shake-Up 318 MHz Kit with Bed Vibrator (SU-12V) \$199.98

A potentially life-saving addition to your current Legacy Series System, the Legacy Series Shake-Up Kit with Bed Vibrator works in your home, office, dorm or hotel room. It features the Legacy Series Shake-Up Receiver with Vibrator (SU5001-V). Inserted between your mattress and box spring, the vibrator awakens you to the potential danger – even while you are sleeping and when your hearing aid is removed. The kit includes the Legacy Series Smoke Detector with Transmitter (1008-4) that emits an audible alarm and also transmits an alert to the receiver.

- > Works with Legacy Series Fire Alarm Transmitters and Smoke Detectors
- > Features the Silent Call 3 and 5-Year Limited Warranty

In the box

- > Legacy Series Shake-Up 318 MHz Receiver with Vibrator (SU5001-V)
- > Legacy Series Smoke Detector 318 MHz with Transmitter (1008-4)

Legacy Series Sidekick® Smoke Detector 318 MHz Kit (SU-24SK) \$229.98

Add an extra measure of safety and performance to your Legacy Series System by supplementing it with the Legacy Series Sidekick® Smoke Detector Kit. It features the Legacy Series Sidekick® Receiver with Strobe Light (SK09214) that flashes a strobe light when signaled by the Legacy Series Smoke Detector with Transmitter (1008-4), which is also included with the kit. Add an optional Bed Vibrator (VIB-PJ) that plugs into the receiver to gain round-the-clock, 24-hour notifications to smoke. With it, you will also receive overnight alerts when notified by any other Legacy Series Transmitter in your home, office, dorm or hotel room.

- > Works with all other Legacy Series 318 MHz Transmitters, Receivers and Accessories
- > Works with the optional Bed Vibrator (VIB-PJ)
- > Features the Silent Call 3-and 5-Year Limited Warranty

In the box

- > Legacy Series Sidekick® 318 MHz Receiver with Strobe Light (SK09214)
- > Legacy Series Smoke Detector 318 MHz with Transmitter (1008-4)

“A Sidekick Basic Kit was a great way to get started.”

318 MHz Receivers | Alerts you to events by vibrating signals or flashing strobe lights.

Legacy Series Sidekick II™ 318 MHz Receiver with Strobe Light (SK09214-2W) \$249.99

Place this flashing alerting device on an end table or nightstand to monitor events and threats in your home, office, dorm or hotel room. The Legacy Series Sidekick II™ Receiver with Strobe Light works with all Legacy Series Transmitters. When a transmitter signal is received, the receiver flashes the strobe light and activates colored LED lamps to help you distinguish between sounds, phone calls, doorbells, smoke and other occurrences. When using the optional Bed Vibrator (VIB-PJ), it will also vibrate in a specific pattern to identify which signal was received. It also includes a digital clock with alarm and includes a Backup Battery Pack.

- > Alerts you to sounds, phone calls, doorbells, fire alarms, carbon monoxide threats, weather alerts, and more
- > Notifies you with a flashing strobe light
- > Identifies with colored LED lamps
- > Works with all Legacy Series 318 MHz Transmitters
- > Includes a digital clock with alarm
- > Features a Backup Battery Pack (BU-10) (Included)
- > Plugs into any standard 110-volt electrical outlet
- > Activates the (optional) Bed Vibrator (VIB-PJ)
- > Features the Silent Call 5-Year Limited Warranty

Legacy Series Sidekick® 318 MHz Receiver with Strobe Light (SK09214) \$129.99

The flashing strobe on this alerting device notifies you of everyday events as well as potential threats in your home, office, hotel or dorm room. The Legacy Series Sidekick® Receiver with Strobe Light works with all Legacy Series Transmitters. A series of distinctive LED lamps on the front panel help you distinguish between alerts for sounds, phone calls, doorbells, fire alarms, carbon monoxide threats, weather alerts and more. The receiver operates on power from any standard 110-volt electrical outlet.

- > Alerts you to sounds, phone calls, doorbells, fire alarms, carbon monoxide threats, weather alerts and more
- > Notifies you with a flashing strobe light
- > Identifies specific events with distinctive colored LED lamps
- > Works with all Legacy Series 318 MHz Transmitters
- > Plugs into any standard 110-volt electrical outlet
- > Activates the (optional) Bed Vibrator (VIB-PJ)
- > Features the Silent Call 5-Year Limited Warranty

Legacy Series Sidekick® 318 MHz Receiver without Strobe Light (SK09214-B) \$69.99

For overnight notifications when sleeping and with your hearing aid removed, team this alerting device with a Bed Vibrator (VIB-PJ). Once awake, distinctive LEDs on the front panel of the Legacy Series Sidekick® Receiver will help you distinguish between sounds, phone calls, doorbells, smoke alarms and other occurrences. The receiver plugs into any standard 110-volt electrical outlet. (Note: This receiver is not equipped with a strobe light.)

- > Alerts you to sounds, phone calls, doorbells, fire alarms, carbon monoxide threats, weather alerts and more
- > Notifies you with LED lamps, or a Bed Vibrator (VIB-PJ) (not included)
- > Identifies specific events with distinctive, colored LED lamps
- > Works with all Legacy Series 318 MHz Transmitters
- > Plugs into any standard 110-volt electrical outlet
- > Features the Silent Call 5-Year Limited Warranty

Legacy Series Shake-Up 318 MHz Receiver with Vibrator (SU5001-V) \$99.99

Shake up to an alert to smoke or fire when sleeping with your hearing aid removed. The Legacy Series Shake-Up Receiver with Vibrator works with single or multiple Legacy Series Smoke or Fire Transmitters. When a transmitter signals a warning, the receiver activates a bed vibrator to awaken you and alert you to the potential danger. Position the bed vibrator between your mattress and box spring and place the receiver on your nightstand; it plugs into any standard 110-volt electrical outlet.

- > Alerts you to fire or smoke
- > Notifies you with a bed vibrator
- > Works with single or multiple Legacy Series 318 MHz Smoke or Fire Transmitters
- > Plugs into any standard 110-volt electrical outlet
- > Features the Silent Call 5-Year Limited Warranty

Legacy Series LampLighter 318 MHz Signaler (LLS-04) \$99.99

Any table lamp becomes an alerting device to events or emergencies when you plug it into the Legacy Series LampLighter Signaler which, in turn, plugs into any standard 110-volt electrical outlet. When the signaler receives a notification from any Legacy Series Transmitter, the table lamp flashes a distinctive warning pattern to help you distinguish between sounds, phone calls, doorbells, fire alarms, carbon monoxide threats and weather alerts. Identifies signal with colored LED's.

- > Alerts you to sounds, phone calls, doorbells, fire alarms, carbon monoxide threats, weather alerts and more
- > Notifies you by activating a table lamp
- > Identifies specific events with unique flash patterns
- > Identifies signal with colored LED's
- > Works with all Legacy Series 318 MHz Transmitters
- > Plugs into any standard 110-volt electrical outlet
- > Activates the (optional) Bed Vibrator (VIB-PJ)
- > Features the Silent Call 5-Year Limited Warranty

Legacy Series Good Vibrations™ 318 MHz Receiver (GV1097-2) \$119.99

Place it in your pocket or clip it to your belt or waistband as you move from room to room or even outside such as on a patio. When the Legacy Series Good Vibrations™ Receiver receives a signal from any Legacy Series Transmitter, the receiver vibrates an alert. Different pulse patterns help you distinguish between sounds, phone calls, doorbells, smoke and other occurrences. Colored LED lamps also identify different events.

- > Alerts you to sounds, phone calls, doorbells, fire alarms, carbon monoxide threats, weather alerts and more
- > Notifies you with vibrations
- > Identifies specific events with unique pulse patterns and colored LED lamps
- > Works with all Legacy Series 318 MHz Transmitters
- > Operates on one (1) 9-volt rechargeable battery (included)
- > Recharges from a Sleep Alert Charger (SA-CHGR3) or Battery Charger (BATCHGR) (not included)
- > Features the Silent Call 5-Year Limited Warranty

Legacy Series Vibra-Call™ 318 MHz Receiver (VC4002-2) \$109.99

Specially designed for people who are deaf-blind and require a body-worn receiver for maximum freedom around the home, the Legacy Series Vibra-Call™ Receiver clips to your belt or waistband, or fits in your pocket. It works with all Legacy Series Transmitters to alert you to events and emergencies. A series of distinct vibration patterns distinguish between sounds, phone calls, doorbells and fire alarms, among other events. You can even wear this receiver outdoors such as on a patio.

- > Alerts you to sounds, phone calls, doorbells, fire alarms, carbon monoxide threats, weather alerts and more
- > Notifies you with vibrations
- > Identifies specific events with distinctive pulse patterns
- > Works with all Legacy Series 318 MHz Transmitters
- > Clips to your belt or waistband, or fits in a pocket
- > Operates on one (1) 9-volt rechargeable battery (included)
- > Recharges from a Sleep Alert Charger (SA-CHGR3) or Battery Charger (BATCHGR) (not included)
- > Features the Silent Call 5-Year Limited Warranty

“There’s no missing my Sidekick’s flashing strobe alert.”

318 MHz Transmitters | Notifying you to everyday events and emergencies.

Legacy Series Wireless Smoke Detector 318 MHz with Transmitter (1008-4) \$99.99

Where there is smoke there is danger. Gain instant notification with the Legacy Series Wireless Smoke Detector with Transmitter. Mount it anywhere in your home, office, dorm or hotel. When dangerous levels of smoke are detected, the built-in transmitter broadcasts a signal to any Legacy Series Receiver. Easy to install in any room, the detector/transmitter is powered by a long-life, 3-volt lithium battery for round-the-clock, 24-hour protection.

- > Senses smoke with a photocell detector
- > Signals with its built-in transmitter
- > Works with any Legacy Series 318 MHz Receiver
- > Operates on a long-life, 3-volt lithium battery (included)
- > Features the combination Silent Call 3- and 5-Year Limited Warranty

Legacy Series Carbon Monoxide 318 MHz Transmitter – Contact Input (CO1004-3) \$54.99

Panel activated and designed to be wired into a home or building fire alarm system, the Legacy Series Carbon Monoxide Transmitter – Contact Input alerts you to the danger of colorless, odorless and toxic carbon monoxide (CO) gas by sending a wireless signal to most Silent Call Legacy Series Receivers. The transmitter operates on two AAA batteries. Installation by a licensed electrician or fire alarm company is recommended.

- > Signals when dangerous levels of carbon monoxide (CO) gas are detected
- > Works with most Legacy Series 318 MHz Receivers
- > Connects to a home or building fire alarm system with a dry-contact input
- > Operates on two (2) AAA batteries (included)
- > Features the Silent Call 5-Year Limited Warranty

Legacy Series Carbon Monoxide 318 MHz Transmitter – Voltage Input (CO1004-4) \$49.99

You will be warned of dangerous levels of carbon monoxide (CO) – an odorless, colorless and toxic gas – with the Legacy Series Carbon Monoxide Transmitter – Voltage Input. Designed for wiring into a home or building fire alarm system, it broadcasts a wireless signal to most Legacy Series Receivers when the panel is activated. The transmitter is powered by 12-24 volts supplied by the fire panel. Installation by a licensed electrician or fire alarm company is recommended.

- > Signals when dangerous levels of carbon monoxide (CO) gas are detected
- > Works with most Legacy Series 318 MHz Receivers
- > Activates through a home or building fire alarm system by wired connection
- > Operates on 12-24 volts supplied by the fire panel
- > Features the Silent Call 5-Year Limited Warranty

Legacy Series Fire Alarm 318 MHz Transmitter – Voltage Input (FA1004-4) \$49.99

Receive an instant alert when a fire alarm activates with the Legacy Series Fire Alarm Transmitter – Voltage Input. Designed to be wired to a home or building fire alarm system, it broadcasts a signal to any Legacy Series Receiver when the alarm is activated. Powered by 12-24 volts supplied through the fire panel, the transmitter requires no batteries. Installation by a licensed electrician or fire alarm company is recommended.

- > Signals when a home or building fire alarm is activated
- > Works with any Legacy Series 318 MHz Receiver
- > Activates through a home or building fire alarm system by wired connection
- > Operates on 12-24 volts supplied by the fire panel
- > Features the Silent Call 5-Year Limited Warranty

Legacy Series Fire Alarm 318 MHz Transmitter – Contact Input (FA1004-3) \$54.99

When fire threatens, gain an immediate warning with the Legacy Series Fire Alarm Transmitter – Contact Input. It broadcasts a wireless signal to any Legacy Series Receiver when a fire panel is activated. Designed to be wired to a home or building fire alarm system by a dry-contact input, installation of the transmitter by a licensed electrician or fire alarm company is recommended.

- > Signals when a home or building fire alarm is activated
- > Works with any Legacy Series 318 MHz Receiver
- > Connects to a home or building fire alarm system by contact relay
- > Operates on two (2) AAA batteries (included)
- > Features the Silent Call 5-Year Limited Warranty

Legacy Series Telephone/TTY/VCO 318 MHz Transmitter (TEL1002-1) \$49.99

Be alerted to phone calls from your family, friends and neighbors. The Legacy Series Telephone/TTY/VCO Transmitter notifies you to incoming voice, TTY or VCO phone calls by sending a signal to most Legacy Series Receivers. Easy to install, the transmitter connects in seconds to the phone jack of any standard analog phone line. It is powered by two AAA batteries.

- > Signals incoming telephone, TTY or VCO calls
- > Works with most Legacy Series 318 MHz Receivers
- > Connects to the phone jack of any standard analog phone line
- > Operates on two (2) AAA batteries (included)
- > Features the Silent Call 5-Year Limited Warranty

Legacy Series Doorbell 318 MHz Transmitter – Wireless (DB1003-4) \$49.99

Get an instant notification when someone comes to your home with the Legacy Series Doorbell Transmitter – Wireless. Combining the doorbell button and transmitter in one compact, easy-to-install unit that you attach by screws to the door frame, it transmits a signal to most Legacy Series Receivers. Battery operated and not intended for wiring to existing doorbell circuitry, the unit is ideal for homes without doorbells, or for side doors or back doors where doorbells have not been installed.

- > Signals when a visitor pushes the doorbell button
- > Works with most Legacy Series 318 MHz Receivers
- > Combines the doorbell button and transmitter in one compact unit
- > Mounts easily with two (2) small screws (included)
- > Operates on one (1) 12-volt battery (included)
- > Features the Silent Call 5-Year Limited Warranty

Legacy Series Clip-On Doorbell 318 MHz Transmitter (DBWBRKT) \$49.99

For doors where no permanent doorbell is installed, attach the Legacy Series Clip-On Doorbell Transmitter. Battery operated and complete with its own built-in button, the unit clips over the edge of any standard wooden door. When its doorbell button is pressed, the transmitter signals most Legacy Series Receivers. With it, you will be alerted when family members, neighbors or delivery people arrive at your home. Fully portable, you can move this clip-on doorbell transmitter from door to door easily.

- > Signals when a visitor pushes the doorbell button
- > Works with most Legacy Series 318 MHz Receivers
- > Combines the doorbell button and transmitter in one portable unit
- > Clips over any standard wooden door
- > Operates on one (1) 12-volt battery (included)
- > Features the Silent Call 5-Year Limited Warranty

Legacy Series Doorbell 318 MHz Transmitter with Button (DB1003-2) \$59.99

Install this button-and-transmitter system where there is no existing wired doorbell. Combining an easily mountable button that connects by wire to a battery-operated transmitter, the Legacy Series Doorbell Transmitter with Button alerts you to the arrival of family members, friends or delivery people. It broadcasts a signal to most Legacy Series Receivers when visitors press the doorbell button.

- > Signals when a visitor pushes the doorbell button
- > Works with most Legacy Series 318 MHz Receivers
- > Installs easily in applications where there is no existing wired doorbell
- > Button connects by wire to the transmitter
- > Operates on two (2) AAA batteries (included)
- > Features the Silent Call 5-Year Limited Warranty

Legacy Series Doorbell 318 MHz Transmitter (DB1003-1) \$49.99

When a visitor presses the button, you gain an instant alert with the Legacy Series Doorbell Transmitter. It broadcasts a signal to most Legacy Series Receivers. Wired to your existing doorbell, the transmitter is activated by the same current that sounds the chime. Easy to install and powered by the doorbell's electrical circuit, there are no batteries to replace.

- > Signals when a visitor pushes the doorbell button
- > Works with most Legacy Series 318 MHz Receivers
- > Connects to the existing doorbell wiring
- > Operates on the doorbell electrical circuit; no batteries are required
- > Features the Silent Call 5-Year Limited Warranty

Legacy Series Sound Monitor 318 MHz Transmitter (SM1005-5) \$49.99

You will be alerted to an infant's cry, alarm clock, door buzzer or other noise with the Legacy Series Sound Monitor Transmitter. When a loud sound is detected, it sends a signal to most Legacy Series Receivers. A delay circuit prevents activation by brief noises such as a slamming door, and a sensitivity control allows you to adjust the sound threshold at which it activates. Fully portable, the monitor/transmitter operates on two AAA batteries.

- > Signals when cries, alarms and timers are sounded
- > Works with most Legacy Series 318 MHz Receivers
- > Lets you adjust the sound threshold at which it activates
- > Includes a delay circuit to prevent activation by brief noises
- > Monitors sounds in any room; fully portable
- > Operates on two (2) AAA batteries (included)
- > Features the Silent Call 5-Year Limited Warranty

Legacy Series Door/Window Access 318 MHz Transmitter (DW1003-3) \$69.99

Gain an alert when someone opens your door or window with the Legacy Series Door/Window Access Transmitter. It features two magnetic contact bars you mount on the door or window and its frame. When the door or window is opened and the bars lose magnetic contact, the transmitter broadcasts a signal to most Legacy Series Receivers, notifying you of the event. Easily installed, it operates on two AAA batteries.

- > Signals when a door or window is opened
- > Works with most Legacy Series 318 MHz Receivers
- > Magnetic bars mount on a door or window and its frame
- > Operates on two (2) AAA batteries (included)
- > Features the Silent Call 5-Year Limited Warranty

Legacy Series TransMATter™ 318 MHz Transmitter (MAT1004-1) \$136.99

Place the mat under a rug or doormat. Pressure-activated, the Legacy Series TransMATter™ Transmitter with attached mat signals most Legacy Series Receivers if an elderly person or child gets out of bed, or when someone enters or exits a room. In addition to household applications, the TransMATter™ is also useful for monitoring patients in hospitals and nursing facilities, and even activity in noisy business settings.

- > Signals when someone crosses a threshold or gets out of bed
- > Works with most Legacy Series 318 MHz Receivers
- > Mat connects to the transmitter with a 10-foot cord
- > Operates on two (2) AAA batteries (included)
- > Features the Silent Call 5-Year Limited Warranty

Legacy Series Bed Mat with 318 MHz Transmitter (BM318-1) \$139.99

Gain an alert when a loved one or patient gets out of bed with the Legacy Series Bed Mat with Transmitter. Place the pressure-activated mat on a firm mattress in any bedroom in your home and position the transmitter nearby. Connected to the mat by a 10-foot cord and battery operated, the transmitter signals most Legacy Series Receivers so you will know when the person whose movements you are monitoring may be ready to roam. The mat includes a waterproof cover.

- > Signals when someone gets out of bed
- > Works with most Legacy Series 318 MHz Receivers
- > Operates on two (2) AAA batteries (included)
- > Mat connects to the transmitter with a 10-foot cord
- > Includes a waterproof cover
- > Features the Silent Call 5-Year Limited Warranty

Legacy Series Pendant Pager 318 MHz Transmitter (PP1004-2) \$29.99

Let others in your home know that you are looking for them with the Legacy Series Pendant Pager Transmitter. Portable, compact and easy to use, you simply press a button on the pager to signal most Legacy Series Receivers. It operates on a 12-volt battery.

- > Signals when you push its button
- > Works with most Legacy Series 318 MHz Receivers
- > Operates on one (1) 12-volt battery (included)
- > Features the Silent Call 5-Year Limited Warranty

Weather Alert Transmitter (X67-T) \$64.00

Become aware of severe weather conditions through notifications broadcast from the Weather Alert Transmitter. It plugs into a Weather Radio (WX-67) so that when an incoming alert is received, a warning is sent to most Legacy Series Receivers. Note: If using more than one alerting device at a time with a Weather Radio, the Dual Connector (DC-01) is required.

- > Activates most Legacy Series Receivers, which notify you of the threat
- > Alerts you to weather warnings received by the Weather Radio (WX-67)
- > Plugs into a compatible Weather Radio (WX-67)
- > Operates on two (2) AA batteries (included)
- > Features the Silent Call 5-Year Limited Warranty

“Our TransMATter alerts us when Duke is at the door.”

Accessories | Add to the convenience and functionality of your Legacy Series 318 MHz System.

Battery Charger (BATCHGR) \$17.50

Keep your receiver's batteries fully charged and operational with the Battery Charger. It works with the Legacy Series Good Vibrations™ Receiver (GV1097-2) and the Legacy Series Vibra-Call™ Receiver (VC4002-2). It is also a replacement power supply for the SK2-SS and the SK09214-2 (purchased in 2014 or before). Easy to use, it features a pin jack for insertion into the receiver and operates from any standard 110-volt electrical outlet.

- > Recharges the batteries in the:
 - Legacy Series Good Vibrations™ 318 MHz Receiver (GV1097-2)
 - Legacy Series Vibra-Call™ 318 MHz Receiver (VC4002-2)
- > Includes a pin jack for insertion into the receiver
- > Plugs into any standard 110-volt electrical outlet
- > Features the Silent Call 5-Year Limited Warranty

Weather Radio (WX-67) \$35.00

Alert yourself to oncoming severe weather with the Weather Radio. It features three warning lights – statement, watch or warning – that indicate the level of threat. It also features an LCD readout that identifies the specific weather warning such as a tornado watch. A receptacle accepts plug-in jacks for optional accessories such as the Weather Alert Transmitter (X67-T), Weather Alert Vibrator (X67-V) or Weather Alert Strobe Light (X67-S). Radio models vary by availability.

- > Indicates the level of threat with three alerting lights – statement, watch or warning
- > Identifies the specific weather warning with an LCD readout
- > Accepts plug-in jacks for optional Weather Alert accessories
- > Plugs into any standard 110-volt electrical outlet

Weather Alert Strobe Light (X67-S) \$79.50

A bright flashing light notifies you to inclement weather when you plug the Weather Alert Strobe Light into a compatible Weather Radio (WX-67) and an incoming warning signal is received. Note: If using more than one alerting device at a time with a Weather Radio, the Dual Connector (DC-01) is required.

- > Alerts you to weather warnings by flashing a bright warning
- > Plugs into a compatible Weather Radio (WX-67)
- > Plugs into any standard 110-volt electrical outlet
- > Features the Silent Call 5-Year Limited Warranty

Weather Alert Vibrator (X67-V) \$47.50

A gentle vibration under your pillow alerts you to severe weather while sleeping when you plug the Weather Alert Vibrator into a compatible Weather Radio (WX-67) and an incoming warning signal is received. Note: If using more than one alerting device at a time with Weather Radio, the Dual Connector (DC-01) is required.

- > Vibrates a warning when placed under your pillow
- > Alerts you to weather warnings received by a compatible Weather Alert Radio
- > Plugs into a compatible Weather Radio (WX-67)
- > Operates on a 9-volt battery
- > Features the Silent Call 5-Year Limited Warranty

Bed Vibrator with Pin Jack (VIB-PJ) \$33.99

Wake up to household events that occur while you are sleeping or napping with the Bed Vibrator with Pin Jack. Place it under your mattress pad near your pillow; a simple pin jack offers easy connection to a variety of Signature Series Receivers, Legacy Series Receivers and Medallion™ Series Receivers, as well as the Sleep/Alert Charger (SACHgr3). With them, you gain continual 24-hour notifications to events and emergencies.

- > Shakes you awake when signaled by a Signature Series Receiver, Legacy Series Receiver or Medallion™ Series Mini Receiver
- > Connects easily with a simple pin jack
- > Features the Silent Call 5-Year Limited Warranty

Bed Vibrator with Transformer (VIB-T) \$43.00

Receive a vibrating wake-up from your alarm clock with the Bed Vibrator with Transformer. Ideal for heavy sleepers, it is compatible with any alarm clock that has a two-prong plug for plugging in a table lamp.

- > Shakes you awake when signaled by an alarm clock
- > Works with any alarm clock with a two-prong plug for plugging in a table lamp
- > Connects easily with a two-prong plug
- > Features the Silent Call 5-Year Limited Warranty

Clip-On Door Bracket (BRKT) \$8.50

Attach the Legacy Series Clip-On Doorbell Transmitter (DBWBRKT) to any door with the Clip-On Door Bracket. (Note: This is an added bracket or a replacement to the one supplied with the transmitter.)

- > Clips on doors
- > Works with the Legacy Series Clip-On Doorbell 318 MHz Transmitter (DBWBRKT)
- > Features the Silent Call 5-Year Limited Warranty

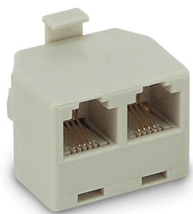

Dual Connector for Weather Alert Systems (DC-01) \$3.25

Plug in any two Silent Call accessories to any Weather Radio (WX-67) with the Dual Connector for Weather Alert Systems.

> Connect up to two accessories to the Weather Radio (WX-67)

Dual-Plug Phone Jack (DP-2) \$1.50

Connect a transmitter and your telephone to a single phone jack with the Dual-Plug Phone Jack. Use it with the Signature Series Telephone/TTY/VCO Transmitter (TEL-SS) or Legacy Series Telephone/TTY/VCO Transmitter (TEL1002-1).

> Connects a transmitter and your telephone to a single phone jack

Rechargeable 9-Volt Battery (RECHGBAT) \$15.00

Gain optimum performance and reliability for your Legacy Series Receivers with the Rechargeable 9-Volt Battery. Offering long life and sure output, this nickel metal hydride battery works with the Legacy Series Good Vibrations™ Receiver (GV1097-2), Legacy Series Vibra-Call™ Receiver (VC4002-2) and Legacy Series Omni Page Receiver (OP1097-2). Note: Battery brands may differ based on availability.

- > Powers the:
 - Legacy Series Good Vibrations™ 318 MHz Receiver (GV1097-2)
 - Legacy Series Vibra-Call™ 318 MHz Receiver (VC4002-2)
 - Legacy Series Omni Page 318 MHz Receiver (OP1097-2)
- > Offers the performance and reliability of nickel metal hydride battery construction
- > Delivers a true 9 volts

Sleep Alert Charger (SACHGR3) \$109.99

Activate an optional bed vibrator or strobe light while sleeping with the Sleep Alert Charger. For continuous 24-hour notification, it works as it recharges the battery in the Legacy Series Good Vibrations™ Receiver and the Legacy Series Vibra-Call™ Receiver.

- > Recharges the batteries in the:
 - Legacy Series Good Vibrations™ 318 MHz Receiver (GV1097-2)
 - Legacy Series Vibra-Call™ 318 MHz Receiver (VC4002-2)
- > Plugs into any standard 110-volt electrical outlet
- > Activates optional bed vibrators or strobe lights
- > Features the Silent Call 5-Year Limited Warranty

Backup Battery Pack (BU-10) \$37.00

Assure yourself of power in case of an electrical failure with the Backup Battery Pack. It works with the LampLighter Signaler (LLS-04), Legacy Series Sidekick II™ Receiver (SK09214-2) and Signature Series Sidekick II™ Receiver with Strobe Light (SK2-SS).

QUESTIONS & ANSWERS

Not sure of who benefits from Silent Call products, how they work, where to begin with a new system, or how to upgrade an existing one? Start here.

Who are Silent Call products for?

Silent Call products are designed for people who are hard of hearing, deaf, deaf-blind, heavy sleepers, or wear a hearing aid.

How do you benefit from Silent Call products?

By alerting people who are hard of hearing to doorbells and phone calls as well as fire, smoke and more, Silent Call helps you enjoy a lifestyle that's more fully engaged with family and neighbors, and safer, too.

What types of events do Silent Call products alert you to?

With our systems, you outfit your home with as many wireless Silent Call transmitters as desired. Positioned at the front door, in the kitchen, by the furnace or in the bedroom, they alert you to everyday events as well as potential threats. For example, our bed and floor mat transmitters let you know when someone gets out of bed or passes through a doorway.

When a doorbell rings or other event occurs, what happens?

Silent Call transmitters broadcast a wireless signal to Silent Call receivers, which then flash a strobe light and/or vibrate to notify you to the event. What's more, many of our receivers help you distinguish between a doorbell and phone call, for example, with a specific colored light or icon, or a distinctive vibration pattern.

Most people place Silent Call receivers throughout their homes on end tables and nightstands. You can wear other body-worn Silent Call receivers on your waist, in your pocket or on your belt. These are specially designed for people who are deaf-blind and are also useful to others if you are working in the garden or enjoying your patio.

What's the best way to get started?

For convenience and cost savings, we recommend you begin with a Silent Call kit, which typically includes a receiver and two or more transmitters. You can then add-on as many other transmitters and receivers as you need to fully equip your home. If you live in an apartment or condominium, you might want to consider our new Medallion™ Series.

What advantages do new Silent Call Medallion™ Series products bring to users?

They feature our advanced, million-code technology which offers broad coverage without interference from other systems. As a result, they're your best choice for use in apartments, condominiums, hotels and dormitories. Of course, they deliver excellent performance in houses, too.

What if I need to upgrade an existing system?

We've named our original 318 MHz products the Silent Call Legacy Series. And in this catalog, you'll see a full line of kits, transmitters, receivers and accessories to upgrade or augment your current system.

I also see accessories listed. What are they?

Accessories such as replacement batteries, battery chargers, replacement cases, bed vibrators and more are designed to enhance the performance or convenience of Silent Call products.

What if I have additional questions?

Call us at 800-572-7227 for more information, or ask your Silent Call distributor.
