

# **Digital Vacuum Gauge** with Bluetooth<sup>®</sup>

testo 552 - For evacuating refrigeration/air conditioning systems and heat pumps

Highly accurate and reliable measurement results
Measurement data monitoring via testo Smart Probes App
Measurement data dispatch via testo Smart Probes App
Measurement of the evaporation temperature of $H_2O$
Optical alarm when a limit value is exceeded
Extremely robust and water/dirt resistant (IP 42)

testo 552 is a digital vacuum gauge for the evacuation of refrigeration systems and heat pumps. It measures even the smallest absolute pressures, and delivers highly accurate information about a system's status of dehumidification (removal of foreign matter, incl. oils, foreign gases, etc.).

Via a Bluetooth interface, the testo 552 connects with the testo Smart Probes App on your smartphone or tablet. This allows you to monitor the absolute pressure reached during the evacuation conveniently and wirelessly. In addition to this, the measurement results can be quickly documented in the App and sent by e-mail.

Its robust construction makes it ideal for everyday use, protected against dirt and water.

Accessories

manifold testo 570

Connection cable with MiniDin plug

for connecting testo 552 to the digital

### testo Smart Probes App

The App turns your smartphone/tablet into the display of the testo 552. The operation of the measuring instrument as well as the display of the measurement values take place by Bluetooth via the Smart Probes App on your smartphone or tablet – independently of the measurement location. In addition to this, you can use the App to create measurement reports, add photos and comments, and send them by e-mail. For iOS and Android.

Order no.

0554 5520

Storage temperature	-20 to +50 °C
Operating temperature	-10 to +50 °C
Dimensions	250 x 165 x 55 mm
Weight	Approx. 500 g
Protection class	IP42
Battery type	2 AA batteries
Battery life	50 hrs (without Bluetooth/backlighting)
Connection	2 x 1/4" SAE (7/16" UNF) 1 x mini - DIN (connection to testo 570)
Measurement value sensor	Pirani sensor
Parameters	mmHg, Torr, mbar, hPa, micron, inH <sub>2</sub> 0, inHg, Pa
Measurement rate	0.5 s
Warranty	2 years
Compatability App connection	requires iOS 8.3 or newer / Android 4.3 or newer
	requires mobile end device with Bluetooth 4.0
