## JIMMY'S HILL – SEMAPHORE CODE CRACKING ACTIVITY

Jimmy's Hill (Mt Forestier) is the highest point on Bangor. It had a semaphore station on top back in 1840 for helping to send messages around Van Diemen's Land. Use the semaphore alphabet below to crack the message. Can you create your own semaphore message for others to crack? Hint: look carefully, many letters look the same. Eg. W, X, & Z all look very similar, but are different.
