VSNG10

SOLENOID OPERATED DIRECTIONAL VALVES

DESCRIPTION

These valves are supplied with a ZINC-NICKEL PLATING making them the perfect choice for mobile and environmental applications that require better protection.

Direct acting, subplate mounted directional control valve, with mounting surface according to NFPA D05 ISO 4401-05. The valve body is made with high strength cast iron with internal passages designed to minimize pressure drop.

OPERATIONS

The valve can be supplied for valve functions requiring 2 positions or 3 positions, as well as 3 way or 4 way flow functions.

DIN 43650, AMP junior, DEUTSCH DT04-2P coil connections are available.

Salt spray resistance up to 600h (test according to UNI EN ISO 9227 and UNI EN ISO 10289 tests and standards).

TYPICAL PERFORMANCE SPECIFICATIONS

MAXIMUM OPERATING PRESSURE	P - A - B Ports	4600 psi	320 bar

NOTES:

1. The values indicated in the graphs are relevant to the standard solenoid valve, with D24 coils.
2. Valve performance was tested in a four way circuit (full loop). Performances may be reduced from that shown when used in a three-way circuit (half circuit), i.e. A or B port plugged.
3. The values have been obtained according to ISO 6403 norm with solenoids at rated temperature and supplied with voltage equal to 90% of the nominal voltage. The values have been obtained with filtration according to ISO 4406:1999 class 18/16/13.

SWITCHING TIMES

TIMES (± 10%) [ms]	
ENERGIZING	DE-ENERGIZING
70 - 100	15 - 20

Switching times obtained with 3A solenoid valve. The energizing time is obtained at the time the spool switches over. The de-energizing time is measured at the time the pressure variation occurs on the line.

COIL CONNECTION

K1 - DIN 43650

This solenoid has three terminal posts. Use bi-polar connectors that meet ISO 4400 / DIN 43650 (EN 175301-803). Protection against atmospheric agent: IP 65*
Connectors must be ordered separately.

K2 - AMP JUNIOR

Plug for this type of connector. Protection against atmospheric agent: IP 67*
Connectors are user supplied.

K7 - DEUTSCH DT04 MALE

Protection against atmospheric agent: IP 69*
Connectors are user supplied.

*NOTE: The protection degree is guaranteed only with the connector correctly connected and installed.

ABOUT CONTINENTAL HYDRAULICS

Rugged, durable, high-performance, efficient—the reason Continental Hydraulics' products are used in some of the most challenging applications across the globe. With a commitment to quality customer support and innovative engineering, Continental's pumps, valves, power units, mobile and custom products deliver what the markets demand. Continental has been serving the food production, brick and block, wood products, automotive and machine tool industries since 1962. Learn how our products survive some of the most harsh environments.
