ABOUT US

The rising star of the metal detector industry Nokta Detectors was established in 2003 in Istanbul, Turkey. Since its foundation, Nokta Detectors has been carrying out all its business operations built on principles of innovation, high performance, quality and customer satisfaction and has become a global brand and the preferred choice of many professional detectorists as well as hobbyists worldwide.

With the goal of being a game changer in the industry and a technology leader, Nokta Detectors has expanded its R&D team in 2011 and made significant investments in terms of developing new detection technologies followed by the acquisition of Makro Detectors in December 2014. Today, Nokta Detectors exports Nokta Makro branded detectors to more than 100 countries in 6 continents through its strong distributor and dealer network.

Nokta Makro Detectors invests a big portion of its revenues in R&D activities. In parallel with the principle of advanced engineering, Nokta Makro Detectors has all the necessary technological and quality infrastructure and is an ISO9001 Certified company. Nokta Makro Detectors was also certified as an official R&D Center by the Ministry of Science, Industry and Technology of Turkey in 2017.

Customer satisfaction is the biggest source of motivation for the company. Products in different price categories designed based on customer requests and feedbacks meet the needs of all end-users. They attract worldwide attention not only with their technology and high performance but also with their design and ergonomics.

EXPORTING TO

THE LEGEND

The LEGEND

CHANGING THE GAME FOR MULTI-FREQUENCY...

DO NOT ACCEPT PAYING MORE FOR LESS!

Nokta Makro's first simultaneous multi frequency metal detector The LEGEND is loaded with features that makes it the best multi-purpose detector, adaptable for all types of targets and ground conditions.

This "legendary" metal detector offers exceptional performance in the toughest conditions in its world-praised robust and waterproof design and comes at a price that sets a new standard in the industry.

Its depth and advanced discrimination capability in trashy sites along with its silent and stable operation on the beach and underwater will captivate all land and beach hunters.

The LEGEND is equipped with specifications that are suitable also for gold prospectors to be able detect those small gold nuggets in highly mineralized gold fields.

SMF
• SIMULTANEOUS MULTI FREQUENCY
2 MULTI & 5 SINGLE FREQUENCIES

BUILT-IN CLOCK & TIME TRACKING

4 SEARCH MODES
PARK • FIELD • BEACH
GOLDFIELD

FERROCHECK
DETECT LESS MODERN TRASH!

IP68
WATERPROOF
UP TO
3m./10ft.

Waterproof DD Search Coil & Cover
28 cm / 11" (LG28)

Carbon Fiber Lower Shaft

Shaft retracts down to 63 cm (25") for easy transport and underwater use.

Bluetooth aptX™
Low Latency Headphones

IP68

Fully submersible up to 3 meters (10ft) and protected from total dust ingress.

Advanced Discrimination Settings

- All Metal
- Ferrous Off
- Ground Effect Off
- Custom (Notch Discrimination)

Noise Cancellation & Frequency Shift
Get rid of EMI easily.

Recovery Speed Setting

Enables you to detect smaller targets among trash by adjusting the speed of target response.

60 Target IDs & Harmonic Tones
Accurate Target IDs and harmonic tones with adjustable frequencies allow you to identify targets easily.

Adjustable Threshold

Lets you set the threshold level and frequency in every mode.

4 Custom User Profiles

Save your favorite settings for different locations and/or targets.

Easy Operation

Saves valuable detecting time and makes the device suitable for novice as well as experienced detectorists.

Vibration

The LEGEND will vibrate upon detection of target! Ideal for the hearing impaired users as well as for detection underwater.

Backlit LCD & LED Flashlight

An awesome feature for those night hunts!

Lightweight (1.4kg / 3.0lbs)

Well balanced - Enjoy detecting for extended hours without fatigue.

Long Battery Life

Easily charge it with a USB charger or powerbank. Provides up to 20 hours of use*.

Online Firmware Updates

Stay up-to-date with firmware updates (via USB) and get the most out of your detector.

PACKAGE CONTENTS

Waterproof DD Search Coil & Cover
28 cm / 11" (LG28)

Bluetooth aptX™
Low Latency Headphones

USB Charging & Data Cable

The LEGEND Cap

THE LEGEND PRO PACK ALSO INCLUDES

Waterproof DD Search Coil & Cover
15 cm / 6" (LG15)

Waterproof Replaceable Spare
Battery & Charger

OPTIONAL

Waterproof DD Search Coil & Cover
35 X 31.5 cm / 13.5" x 12.5" (LG35)

GREAT ADD-ONS

Waterproof Headphones
Comfortable design for land and underwater use

6.3mm (1/4") Headphone Adapter
Connect any wired HPs to The LEGEND easily.

Nokta Makro Koss Headphones
with Waterproof Connector

COIN & RELIC DETECTORS

SIMPLEX SERIES

SIMPLEX+

SIMPLY UNRIVALLED

THE FIRST WATERPROOF DETECTOR ON THE MARKET OFFERING EXTREME DEPTH AND HIGH-END FEATURES AT AN ENTRY-LEVEL PRICE!

SIMPLE ENOUGH FOR BEGINNERS, YET IMPRESSIVE ENOUGH FOR **EXPERTS!**

Are you new to metal detecting and simply need an easy to use detector?

You cannot afford a high-end detector but you simply want extreme depth and basic features of a high-end device?

Need a waterproof detector at an affordable price?

If you said yes to one of the above, SIMPLEX+ is the sole choice that covers it all.

We are proud to offer our first entry level detector, the SIMPLEX+, which makes quality metal detecting available and affordable for all users.

SIMPLEX+ is a turn-on & go detector with auto ground balancing! It boasts preset search modes, including a beach mode, in a very easy-to-use, single menu design.

Whether you are searching for coins, artifacts or jewelry on land or underwater, SIMPLEX+ is the most cost-effective yet durable detector featuring a modern and lightweight style.

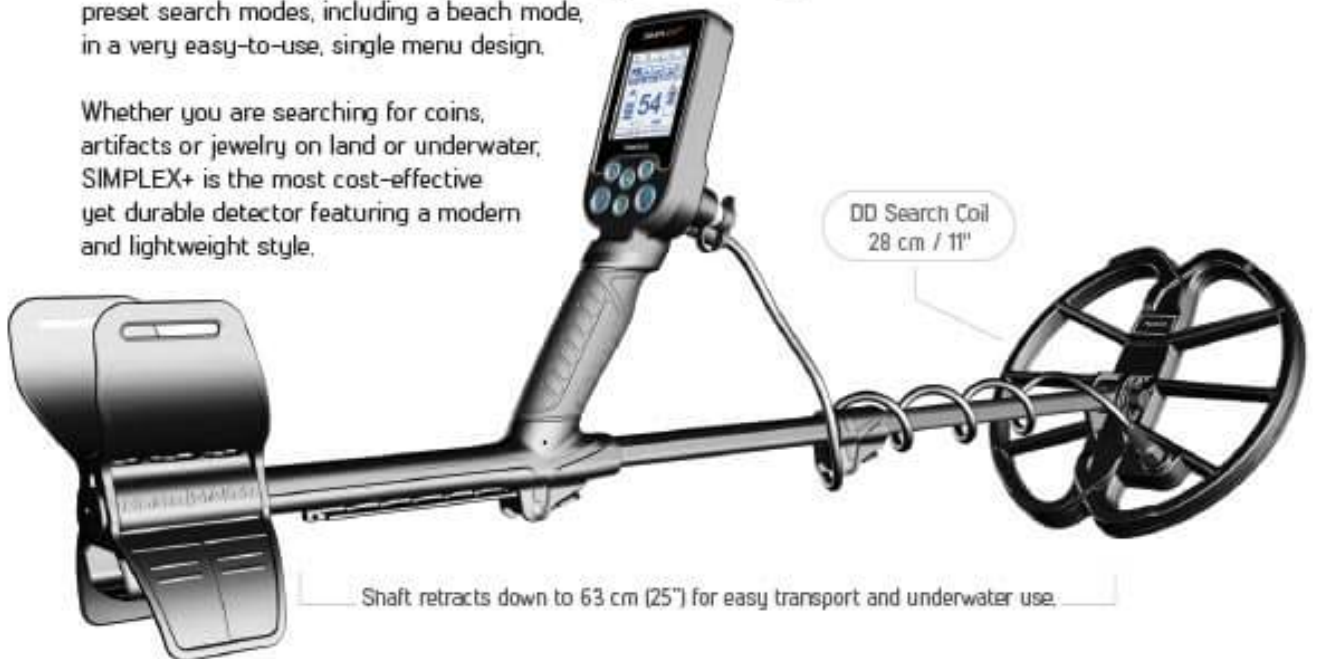

Wireless Audio Ready

Built-in Rechargeable Battery

Lightweight (1.3kg/2.9lbs)

IP68

Fully submersible up to 3 meters (10ft) and protected from total dust ingress.

Search Modes

All Metal / Field / Park 1/ Park 2 / Beach

Iron Volume

Turns off or adjusts the volume of the low iron tone.

Notch Discrimination

Discriminates Target IDs of unwanted metals.

Frequency Shift

Get rid of EMI easily by shifting the frequency in small increments.

Built-in Wireless Module

Compatible with 2.4GHz Nokta Makro Green Edition Wireless Headphones.

Vibration

SIMPLEX+ will vibrate upon detection of target! Ideal for the hearing impaired users as well as for detection underwater.

Fabulous Lighting for Night & Underwater Use

SIMPLEX+ has it all – LCD Backlight, Keypad Backlight and LED Flashlight

Retractable Shaft

Shaft retracts down to 63 cm (25") Great for easy transport, storage as well as diving!

Lightweight (1.3kg / 2.9lbs)

Well balanced – Enjoy detecting for extended hours without fatigue.

Built-in Lipo Battery

Easily charge it with a USB charger (5V 2A) or a USB powerbank.

Online Firmware Updates

Stay up-to-date with firmware updates (via USB on PC) and get the most out of your detector.

COIN & RELIC DETECTORS

 ANFIBIO MULTI

ANFIBIO multi

WHEN DEPTH, SPEED & STURDINESS MATTER...
THE WAY TO GO IS THE ANFIBIO!

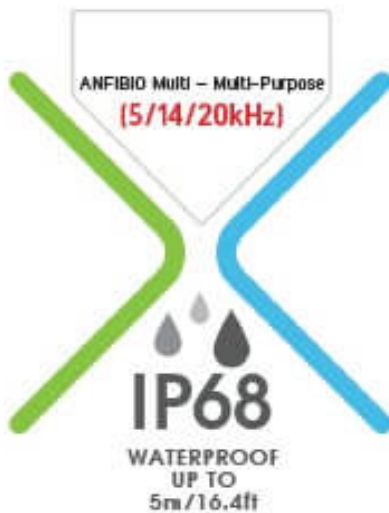

With all its new settings and features, plus 7 optional coils to choose from, the rugged new Anfibio will be your best detecting buddy.

Whether you are at a park, ancient field or beach, searching for coins, relics or jewelry, the Anfibio Multi will deliver superior depth, speed and performance.

No need to get frustrated navigating through multiple screens – The Anfibio's single menu design offers very simple operation and saves valuable detecting time.

Going underwater? Not a problem with the Anfibio, either...

If metal detecting is your passion, the way to go is the Anfibio!

IP68
Fully submersible up to 5 meters (16.4ft) and protected from total dust ingress.

Excellent Discrimination & Unmasking Ability
Save time by detecting the targets you want while spending less time digging.

New Design Coil
The new 28 cm (11") coil offers that extra depth you are looking for!

Advanced Beach Mode
Very stable operation in dry sand, wet sand and underwater.

New E.U.D Function
Extra Underground Depth - Detect certain type of metals masked by ground conditions and/or at fringe depths.

Fast Recovery Speed
Get ready to find out what other metal detectors missed amongst trash and iron!

3 Selectable Target ID Depth Levels
Adjusts the depth level that the detector displays on an ID for a detected target.

Search Modes
9 modes (GEN Delta/2 Tone/3 Tone/4 Tone/5 Tone/99 Tone/Beach/Deep/Cache)

2.4 GHz Wireless Headphones Included*
Enjoy wireless freedom with no latency

Online Firmware Updates
Stay up-to-date with firmware updates (via USB on PC) and get the most out of your detector.

Vibration
Anfibio will vibrate upon detection of target! Ideal for the hearing impaired users as well as for detection underwater.

Keypad Backlight
An awesome feature for those night hunts!

Retractable Shaft
Shaft retracts down to 76cm (30"). Great for easy transport, storage as well as diving!

Built-in Lipo Battery
Easily charge it with a USB charger (5V 2A) or a USB powerbank. Provides up to 19 hours of use**.

COIN & RELIC DETECTORS

ANFIBIO MULTI

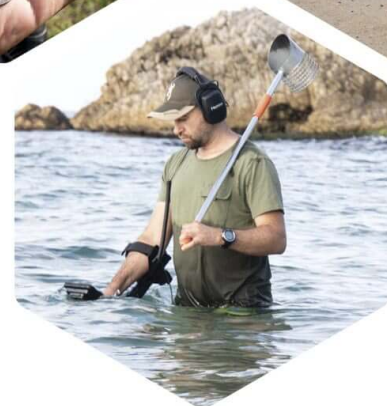

EASY TO USE SINGLE MENU DESIGN

Anfibio Multi - Multi-Purpose
5/14/20kHz

TECHNICAL SPECIFICATIONS

- Operating Principle : VLF
- Operating Frequency: 5kHz/14kHz/20kHz
- Audio Frequencies : 150Hz - 800Hz adjustable
- Search Modes : 9 (GEN, 2 Tone, 3 Tone, 4 Tone, 5 Tone, 99 Tone, Beach, Deep, Cache)
- Audio Tones : 5
- Tone Volume : Yes
- Tone Break : Yes
- Notch Filter : Yes
- Notch Volume : Yes
- Ground Balance : Automatic / Manual / Tracking
- Pinpoint : Yes
- Frequency Shift : Yes
- Vibration : Yes
- Gain Setting : 01-99
- Target ID : 00-99
- Search Coil : Waterproof DD Search Coil 28 cm / 11" (AF28)
- Display : Custom LCD
- Backlight : Yes
- Keypad Backlight : Yes
- Weight : 1.7 kg (3.7lbs.) including the search coil
- Length : 76 cm - 136 cm (30" - 53") adjustable
- Battery : 3700mAh Lithium Polymer
- Warranty : 2 years

PACKAGE CONTENTS

Waterproof DD Search Coil & Cover
28 cm / 11" (AF28)

2.4 GHz Wireless Headphones
(Green Edition)

USB Charging & Data Cable

GREAT ADD-ONS

Waterproof AA Battery Case
Provides the option of using 4 x AA
batteries (batteries not included).

6.3 mm (1/4") Headphone Adapter
Allows land-use headphones to
be used with the Anfibio.

Waterproof Headphones
Comfortable design for land and
underwater use.

7 OPTIONAL COILS TO CHOOSE FROM

Waterproof DD Search Coil & Cover
13 cm / 5" (KR13)

Waterproof Concentric Search Coil
& Cover 18 cm / 7" (KR18C)

Waterproof DD Search Coil
& Cover 19 x 10 cm / 7.5" x 4" (KR19)

Waterproof Concentric Search Coil
& Cover 23 cm / 9" (AF23C)

Waterproof DD Search Coil & Cover
24 x 13 cm / 9.5" x 5" (KR24)

Waterproof DD Search Coil & Cover
35 x 33 cm / 13.5" x 13" (AF35)

Waterproof DD Search Coil & Cover
40 x 35 cm / 15.5" x 14" (KR40)

COIN & RELIC DETECTORS

IMPACT

THE MOST POWERFUL ALL-ROUND METAL DETECTOR EVER MADE!

Tested in 5 continents by more than 30 experts, engineers and users.

Uncover deep hidden treasures with the new IMPACT Multi Frequency Metal Detector by Nokta! The IMPACT combines multiple detectors in one and utilizes cutting edge technology, enabling a unique yet easy - to - use detector experience for new to experienced detectorists.

The IMPACT boasts (12) search modes designed to hunt out different targets such as coins, relics and deep treasure caches. It also operates extremely well in different terrains including (but not limited to) wet beach sand and parks, allowing you to search without any further adjustment if you wish.

Featuring (3) powerful operating frequencies, online firmware update (via PC USB) capability and robust design. If you are looking for depth and advanced discrimination ability, the IMPACT - just like its name - will make a great impact on your future detecting finds.

COIN & RELIC DETECTORS

12 Search Modes: 2 Non-motion Modes (with audio discrimination) 2 All Metal Modes (with audio discrimination) 8 Discrimination Modes – 2 Tone / 3 Tone / 4 Tones / 99 Tones / Deep / Conductive Ground / VLX1 and VLX2

Ground Balance with 3 Options: Automatic, Manual, Tracking

Notch Filter: Discriminates single or multiple Target IDs of unwanted metals by silencing them or producing an iron tone.

Tone Break: Adjusts the break points of the target response tones on the Target ID range.

Iron Audio (Fe Vol.): Turns off or adjusts the volume of the low iron tone.

Audio Tone: Changes the frequency of target and threshold tones (150Hz - 700Hz)

iSAT: Allows for a stable operation of the device by eliminating false signals caused by high mineralization and hot rocks in the all metal and discrimination modes as well as eliminating threshold drifts caused by ground and temperature changes in the static modes.

Magnetic Mineralization Indicator: Shows mineralization intensity of the ground.

Extra features at the push of a button: Audio Boost, ID Normalization, Target ID Depth Level.

Backlight (Bright.)

FD / Save: Easily saves your settings or restores factory defaults.

TECHNICAL SPECIFICATIONS

KIDS DETECTORS

MINI HOARD

MIDI HOARD

KIDS DETECTORS

MINI HOARD & MIDI HOARD

Mini HOARD & Midi HOARD

WORLD'S FIRST WATERPROOF KIDS DETECTOR SERIES!

for the young
treasure hunters
of the future...

Our most loved ones...kids!
Hooked on technology and disconnected
from nature... and we, as parents try to encourage them
to go outside, explore and play and teach them history.
Yet, it seems hopeless at times.

Introducing the world's first
waterproof kids' detector series!
Mini and Midi Hoard

The most fun way to introduce
kids to metal detecting...

Release the
discoverer in your
child... see the
excitement when
they uncover
their treasure...

The hobby they can
enjoy away from the crowds...
...and the only hobby that
can pay back!
Sometimes by putting
a big smile on their
face... or sometimes with
even more!

Share your
hobby with
your kids to
build great family
memories.

Easy to use...
lightweight
and
compact!

Let your kids **DISCOVER** a world full of **ADVENTURE**, **EXPERIENCE** and **EXCITEMENT** of discovery right outside their door!

Impressive build quality combined with child friendly design.

finds, discriminates and pinpoints... just like an adult's detector!

FEATURES

	MINI HOARD	MIDI HOARD
Ideal Age	4-8 yrs.	8-12+ yrs.

DEEP TREASURE DETECTORS

INVENIO SERIES

DEEP TREASURE DETECTORS

INVENIO SERIES

INVENIO

WORLD'S FIRST REAL TIME SMART DETECTOR & IMAGING SYSTEM PROVIDING THE SHAPE, DEPTH, DIMENSIONS AND DISCRIMINATION OF UNDERGROUND METALS AND GROUND ANOMALIES / CAVITIES.

**THE START OF A NEW ERA IN METAL DETECTION!
GO BEYOND BASIC BEEPS AND TARGET ID NUMBERS.**

INVENIO is the first and single revolutionary step taken towards turning a dream into reality in the metal detector industry!

INVENIO represents one of the most dramatic advances in metal detection technology since conventional metal detectors first appeared on the market in the 1930s. While many new features and advancements in technology have been introduced since, Invenio provides the first major step forward in meeting consumer expectations.

While the competition has simply pushed the existing patents and technology forward; none have gone much beyond generating basic beeps and IDs for targets.

On the other hand, users have been expecting a lot more from a detector:

- To discover deeper targets
- To know what type of a metal the detected target is
- To see the real depths of targets
- To see the real shapes of targets
- To determine the dimensions of targets
- To detect ground anomalies / cavities

Nokta Makro Detectors, since its foundation, has been taking steps towards turning this dream of users into reality. After years of extensive Research & Development and advanced engineering studies, Nokta Makro has achieved the development of the world's first Smart Detector & Imaging system – the Invenio. Nokta Makro owns the whole technology and know-how used in the Invenio for which 3 different patents are applied for.

INVENIO is designed as a platform that can be advanced and it is planned to be integrated with all hobby detectors (coin and relic) as well as gold nugget detectors in the future.

Artificial Intelligence

The Artificial Neural Network enables the device to provide superior shape extractions as well as depth indications by utilizing adaptive learning algorithms!

Multi-Purpose

Targets that you can detect with the Invenio: Deep treasures, caches, coins, relics, ground anomalies/cavities such as underground caves, tunnels etc.. In short all you are looking for underground!

Excellent Discrimination and Unmasking Ability

Save time by detecting the targets you want while spending less time digging.

High Performance and Unmatched Depth

Uncover deep treasures other detectors simply cannot detect.

Fast Recovery Speed

Get ready to find out what other metal detectors missed amongst trash and iron!

3 Non-Motion Search Modes

Basic / Expert / Ground Anomaly & Cavity

3 Motion Search Modes

All Metal / Fast / Deep

Archive

You can save all 3D graphs and screenshots and transfer them to your PC if you wish.

17 Languages

English / German / Greek / Turkish / French / Italian / Russian / Arabic / Spanish / Chinese / Persian / Bulgarian / Serbian / Romanian / Dutch / Portuguese / Polish

24GHz Wireless Connection

The Invenio system box and shaft communicate wirelessly. In addition, users who do not prefer wired headphones can purchase the optional 24GHz wireless headphones.

Online Firmware Updates

Stay up-to-date with firmware updates (via USB on PC) and get the most out of your detector.

Vibration

When this feature is active, Invenio will vibrate upon target detection. An essential feature for hearing impaired users and noisy surroundings.

LED Flashlight and Screen Backlight

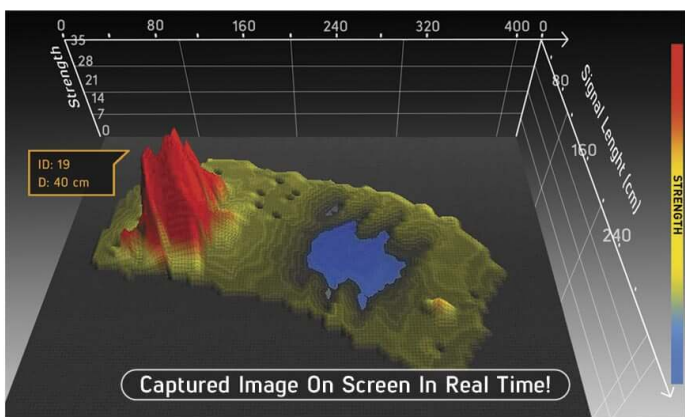

Invenio's screen backlight and the flashlight, which illuminates your scan area, enable you to detect in the dark as well.

DEEP TREASURE DETECTORS

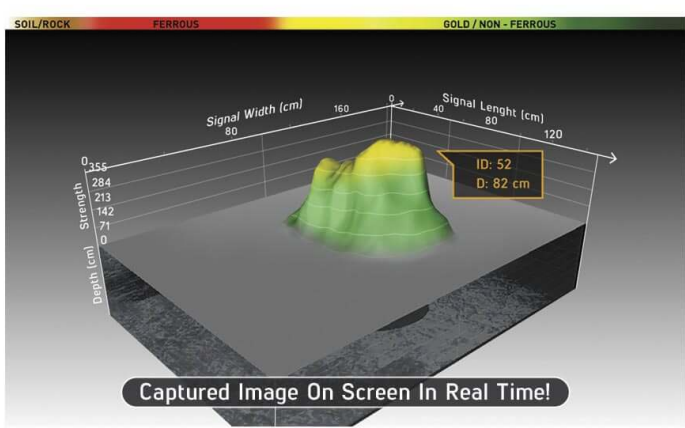

INVENIO SERIES

Underground Cavity And Buried Metals

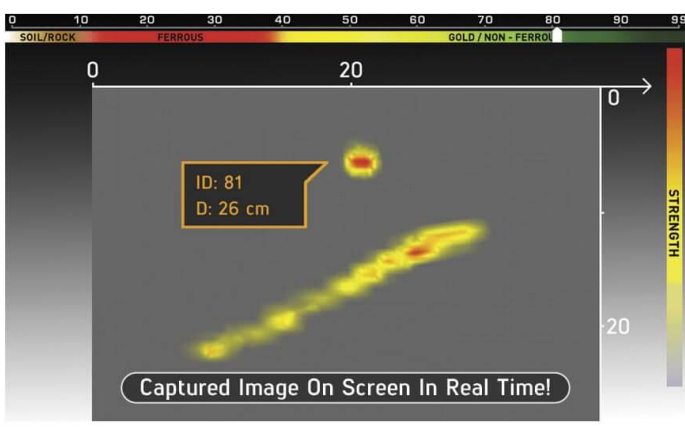

Real Buried Target Underground

Copper Boiler Filled with Gold Coins
Width 50 cm - Height 30 cm

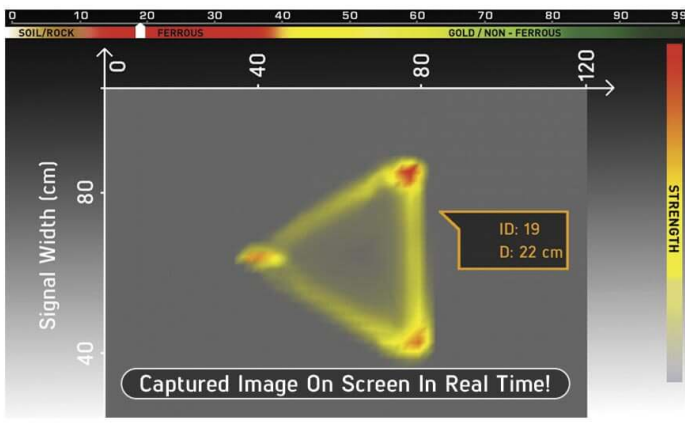

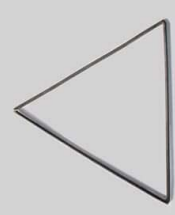

Real Buried Targets Underground

Coin (2.5 cm) &
Ferrous Metal (20 cm nail)

Real Buried Target Underground

Equilateral Triangle Made of
Iron Bars (50 cm each side)

IPTU SENSOR

(Integrated Positional Tracking Unit)

Developed by Nokta & Makro Detectors, the IPTU unit, with the help of the integrated sensors, computes the right-left, forward-back movements of the search coil precisely and determines its location and height above the ground.

With the IPTU sensor, you can follow the start and finish points of the scanned area and view the locations of detected targets. In addition, you can determine the width and the length of the scanned area, the target depth and shape as well as the dimensions with the help of the IPTU sensor.

IDEAL FOR:

- DEEP TREASURE HUNTERS
- ARCHEOLOGISTS
- MUNICIPALITIES
- UTILITY COMPANIES
- CSI & LAW ENFORCEMENT AGENCIES

GOLD DETECTORS

GOLD FINDER 2000
GOLD KRUZER

GOLD DETECTORS

/// GOLD FINDER 2000

**Gold Finder
2000**

**THE EASIEST
GOLD DETECTOR TO USE
DESIGNED FOR THE
TOUGHEST GOLD FIELDS
IN THE WORLD!**

**61kHz
HIGH FREQUENCY**

With its rugged design and simplicity, the Gold Finder 2000 will be your best detecting buddy in the gold fields.

No need to get frustrated with ground balancing or navigating through settings – The Gold Finder 2000 offers a turn-on & go operation and saves valuable detecting time.

Want to detect in the rain? Not a problem with the Gold Finder 2000, either...

Fully Automatic Turn-on & Go Operation
No struggling with ground balancing or settings! Gold Finder 2000 does it all automatically when you turn the detector on.

High Performance & Unmatched Depth
Uncover deep gold nuggets other detectors simply cannot detect.

Advanced Discrimination
Just detect those wanted gold targets and ignore iron.

2.4 GHz Wireless Speaker
Ideal for group hunts as well as for training sessions.

LCD Backlight & LED Flashlight
An awesome feature for those night hunts!

Built-in Lipo Battery
Easily charge it with a USB charger or powerbank.

Retractable Shaft
Shaft retracts down to 76 cm (30"). Great for easy transport and storage.

Online Firmware Updates
Stay up-to-date with firmware updates (via USB on PC) and get the most out of your detector.

GOLD DETECTORS

 GOLD FINDER 2000

TECHNICAL SPECIFICATIONS

Operating Principle	: VLF
Operating Frequency	: 61kHz
Search Modes	: 2
Ground Balance	: Fully Automatic
Pinpoint	: Yes
Frequency Shift	: Yes
Sensitivity Setting	: 8 levels
Search Coil	: Waterproof Concentric Search Coil 26 x 14 cm / 10" x 5.5" (GK26C) Waterproof DD Search Coil 13 cm / 5" (GF13)
Display	: Custom LCD
Backlight	: Yes
Flashlight	: Yes
Weight	: 17 kg (37lbs.) including the search coil
Length	: 76 cm - 136 cm (30" - 53") adjustable
Battery	: 3700mAh Lithium Polymer
Warranty	: 2 years

PACKAGE CONTENTS

Waterproof Concentric Search Coil & Cover 26 x 14 cm / 10" x 5.5" (GK26C)

Waterproof DD Search Coil & Cover 13 cm / 5" (GF13)

Koss Headphones

Wireless Speaker

System Box Carrying Case

USB Charging & Data Cable

6.3mm (1/4") Headphone Adapter

OPTIONAL

Waterproof DD Search Coil & Cover 19 x 10 cm / 7.5" x 4" (GK19)

Waterproof DD Search Coil & Cover 24 x 13 cm / 9.5" x 5" (GK24)

Waterproof DD Search Coil & Cover 40 x 33.5 cm / 15.5" x 14" (GK40)

GREAT ADD-ONS

Waterproof AA Battery Case

2.4 GHz Wireless Headphones & Charging Cable

GOLD DETECTORS

 GOLD KRUGER

Gold
Kruger

THE MOST ADVANCED GOLD AND MICRO JEWELRY DETECTOR

Gold Prospecting at its Best!

Operating at 61kHz high frequency, the Gold Kruger will bring hunted out gold fields back to life by offering the best sensitivity to tiniest nuggets. Apart from its exceptional performance in harsh ground conditions and hot rocks, its robust and waterproof design makes the Gold Kruger the most advanced gold and micro jewelry metal detector on the market.

TECHNICAL SPECIFICATIONS

Operating Principle	: VLF
Operating Frequency	: 61kHz
Audio Frequencies	: 150 Hz - 700Hz adjustable
Search Modes	: 4
Iron Audio	: Yes
Tone Break	: Yes
Notch Filter	: No
Ground Balance	: Automatic / Manual / Tracking
Pinpoint	: Yes
Frequency Shift	: Yes
Vibration	: No

Search Coil	: Waterproof Concentric Search Coil 26 x 14 cm 10" x 5.5" (GK26C) Waterproof DD Search Coil 19 x 10 cm 7.5" x 4" (GK19)
Display	: Custom LCD
Backlight	: Yes
Weight	: 1.4 kg (3 lbs.) including search coil and batteries
Length	: 111 cm - 135.5 cm (44" - 53") adjustable
Battery	: 3700mAh Lithium Polymer
Warranty	: 2 Years

HIGH
FREQUENCY
61kHz

PACKAGE CONTENTS

IP68
Fully submersible up to 5 meters (16.4ft) and protected from total dust ingress.

Excellent Discrimination Ability
Just detect those wanted gold targets and ignore iron.

High Performance and Unmatched Depth
Uncover deep gold nuggets or micro jewelry other detectors simply cannot detect.

NEW! E.U.D Function
Extra Underground Depth - Detect small gold nuggets masked by hot rocks and/or at fringe depths.

4 Search Modes
Gen (All Metal) / Fast / Boost / Micro

2.4 GHz Wireless Headphones Included*
Enjoy wireless freedom with no latency.

Online Firmware Updates
Stay up-to-date with firmware updates (via USB on PC) and get the most out of your detector.

Lightweight (14kg / 3.0lbs)
Enjoy detecting for extended hours without fatigue.

Built-in Lipo Battery
Easily charge it with a USB charger (5V 2A) or a USB powerbank. Provides up to 19 hours of use.

SCUBA DETECTORS & PINPOINTERS

PULSEDIVE SCUBA DETECTOR & POINTER 2-IN-1 SET

PULSEDIVE SCUBA DETECTOR

PULSEDIVE POINTER

NOKTA POINTER

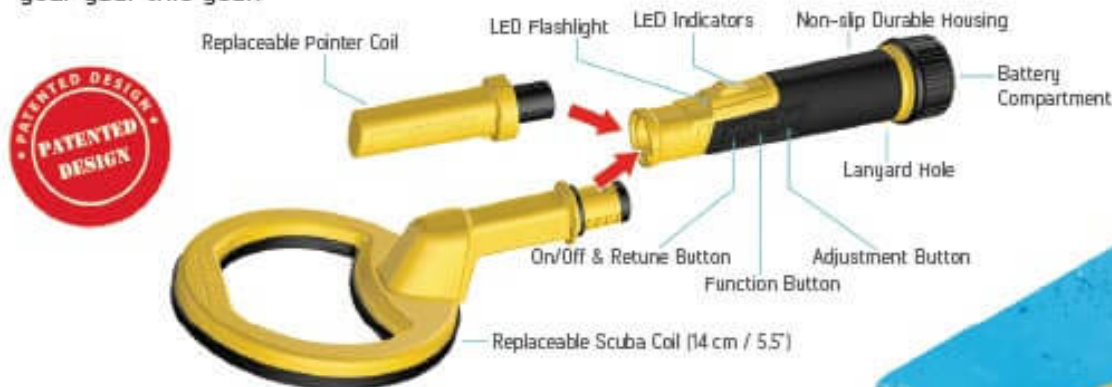

SCUBA DETECTORS & PINPOINTERS

PULSE DIVE SCUBA DETECTOR & POINTER 2-IN-1 SET

THE BEST ADDITION TO YOUR DETECTING GEAR!

Whether you are a professional diver, a vacationer or simply a detectorist who loves to search both on land and underwater, the PulseDive 2-in-1 Set will be the best addition to your gear this year!

TECHNICAL SPECIFICATIONS

Operating Principle	: Pulse Induction
Operating Frequency	: 3kHz
Frequency Shift	: Yes
Waterproof	: Up to 60m (200ft.)
Built-in Wireless Module:	Yes
Detection Modes	: Audio / Vibration / Audio + Vibration / LED
Sensitivity	: 5 levels adjustable
Length	: Scuba Detector: 39 cm (15.3") Pinpointer: 28 cm (11")
Weight	: Scuba Detector: 419 gr (14.8oz) including the coil cover Pinpointer: 286 gr (10oz) including the hard-shell case
Battery	: 1650mAh Lithium Polymer
Charging Time	: ≈2 hours
Warranty	: 2 years

PulseDive Set is available in 2 colors: Black or Yellow. Product shown is the yellow version.

PACKAGE CONTENTS

OPTIONAL COILS

--	--

Patented Design

This innovative design allows for a quick transformation of the device from a Scuba Detector into a Pinpointer and vice versa in a matter of seconds.

IP68

Waterproof up to 60m (200ft.)

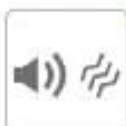

Pulse Induction

This powerful technology allows for very stable operation in saltwater or in any type of soil.

Built-in Wireless Module

Compatible with Nokta Makro 2.4 GHz Green Edition Wireless Headphones.

Detection Alerts & Indicators

1. Audio Only
2. Vibration Only
3. Audio & Vibration

LED Indicator in addition to any of the above

LED Flashlight

Easily see your target at night or when hunting underwater.

Rapid Return

Ensures stable operation of the device with the push of one button.

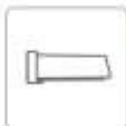

Dive Mode

Provides easier operation under water by locking the keys and preventing them to be pressed by water pressure while deep diving.

Lost Alarm

After 5 minutes of inactivity, the device emits an audible alarm and LED starts flashing.

Replaceable Hard-Shell Case

The replaceable pointer coil comes with a hard-shell protection case to prevent wear of the detection tip.

Nokta Makro Detectors reserves the right to change the design, specifications or accessories without notice and without any obligation or liability whatsoever.

SCUBA DETECTORS & PINPOINTERS

PULSEDIVE

PULSEDIVE SCUBA DETECTOR

LET TREASURE HUNTING BE YOUR NEXT UNDERWATER ADVENTURE!

The PulseDive Scuba Detector gives you the benefits of high end underwater metal detectors at a fraction of the cost and size. Lightweight & rugged with audio, LED light and vibration alerts!

SCUBA DETECTORS & PINPOINTERS

 NOKTA POINTER

Nokta Pointer

THE HARMONY OF EXCELLENT WATERPROOF DESIGN
& PRECISION

TECHNICAL SPECIFICATIONS

Frequency	: 18.2 kHz
Metal Detection	: Audio and / or Vibration Alert
Sensitivity Adjustment	: Manual
Coil Interface Blocking	: Yes
Dimensions	: 24 x 4.8 cm (9.4" x 1.9") including the hard-shell digger case
Detection Tip	: 9.3 cm (3.7")
Weight	: 235 gr (8.3oz) including the battery & hard-shell case
Working Temperature	: -4 °F / +122 °F (-20 °C / +50 °C)
Battery	: 9V Alkaline Battery
Battery Life	: +30 hours
Warranty	: 2 Years

PACKAGE CONTENTS

Waterproof (IP 67)

Use it on land and underwater with ease. Fully waterproof to meet the IP67 rating.

360°

360° Detection Tip

Enables you to locate your target quickly and easily in the hole. Flip it horizontally to scan a larger area.

Sensitivity Control

The +/- buttons adjust the sensitivity to achieve the ultimate performance in any environment and offer improved detection of nuggets and other small targets.

LED Light

Easily see your target at night or when hunting in dark places. The powerful, built-in, LED flashlight illuminates the spot you are searching.

Audio Alert and Vibration Options

3 different target alert options:

1. Audio Only
2. Vibration Only
3. Both Audio and Vibration

Lost Alarm & Auto Shut-Off

After 5 minutes of inactivity, the pinpointer emits an audible alarm and LED starts flashing. After 5 minutes of alarm, the device shuts off automatically to save battery life.

Coil Interference Blocking

When it is off, the coil's magnetic transmission is disconnected. This eliminates the possibility of interference from other metal detectors and prevents the Nokta Pointer from being detected as a target.

Replaceable Hard-Shell Case

Nokta Pointer comes with two hard-shell protection cases to prevent wear of the detection tip. One of them also includes a built-in scraping blade.

SECURITY & TECHNICAL DETECTORS

NMS20

NMS30

ULTRA SCANNER

NMS20

WORLD'S FIRST WATERPROOF HAND-HELD METAL DETECTOR

SAFETY CANNOT BE COMPROMISED, WHETHER
INDOORS OR OUTDOORS!

The new line of Nokta Makro Security Metal Detectors take security to a whole new level by offering advanced detection technologies and ultimate reliability. NMS20 is designed to find all kinds of ferrous and non-ferrous metals.

**NIJ Standard 0602.02 Compliant**

The features of the NMS20 complies with the NIJ standard 0602.02 as well as the new NIJ draft standard 0602.03 and exceeds the NIJ Standard- 0602.02 detection requirements.

**IP67**

Fully submersible and protected from total dust ingress.

**Wide Detection Area**

The NMS20 offers a quicker and more accurate scanning compared to conventional hand-held detectors.

**Adjustable Sensitivity**

Easily adjust the sensitivity according to the target metal size and maximum operating distance.

**Detection Alerts & Indicators**

1. Audio Alarm 2. Vibration Alarm 3. LED Alarm

**Rebar Elimination Feature**

Eliminates the detection of rebar when scanning areas closer to the ground.

**Frequency Shift**

Allows for an interference free operation of multiple detectors simultaneously.

**Long Battery Life**

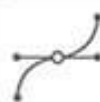

The NMS20 is supplied with two AA rechargeable batteries with a battery life of over 40 hours.

**Auto Stand-by & Shut-down**

Reduces power consumption and saves battery life.

**Universal Charging Station**

Charge the detector conveniently and quickly in its charging station that serves as a stand as well. Comes with a universal charging adapter & plugs.

**Robust & Ergonomic Design**

Features a comfortable hand grip that does not interfere with the detection area. It also boasts an exceptional design that allows the detector to be passed over the inspected area conveniently without getting caught on clothing.

Detection of Radioactive Substances
(Optional)

Headphone Jack
