

The Switch with least tolerance

Gold Pink Switch

Being a switch with lightest operating force, the TTC Gold Pink switch brings comfort and smoothness to long time typing & gaming.

- Switch type: linear
 - Cover: transparent cover
 - Base: light golden
 - Button: Girly Pink
 - Contact poles: unipolar contact
 - Contact material: gold alloy
 - Operating force: 37 ± 5 gf
 - Pre-travel: 2.0 ± 0.3 mm
 - Total travel: $4.0-0.3$ mm
 - Duration: 100 million key strokes
 - Switching voltage: 2~12V DC
 - Switching current: 10 μ A~10mA DC
 - Contact resistance: 500m Ω Max
 - Insulation resistance: 100M Ω Min
 - Operating temperature range: -25 $^{\circ}$ C to + 70 $^{\circ}$ C (-13 $^{\circ}$ F~158 $^{\circ}$ F)
- Straight up and down linear switch, lighter than ordinary red switch;
 - Smooth operation and smooth input experience
 - The tolerance of ± 5 grams force is just 1/3 of the ordinary switch (± 15 grams force), which makes the feedback of each key stroke consistently;
 - Built with quality elastic material and double gold contact structure, the service life is up to 100 million strikes, which is twice that of ordinary mechanical switches.
 - Patented TTC dual wall structure, beautiful and exquisite, elegant, dust-proof effect is 3 times that of ordinary switches
 - Dual wall structure, helps switch stay stable
