The image displays a collection of words connected by thin black lines, forming a network. The words are arranged in a roughly vertical column on the left side, with other words scattered to the right. Lines connect words that are adjacent in the list or those that appear to be related in a specific context. For example, 'she' is connected to 'was', 'was' to 'something', 'always' to 'home', 'home' to 'at', 'was' to 'with', 'good' to 'but', 'he's' to 'the', 'the' to 'never', 'never' to 'got', 'babies' to 'for', 'for' to 'develop', 'to' to 'long', 'to' to 'her', '&' to 'a', 'chance' to 'something', 'something' to 'head', and 'head' to 'enough'. There are also several lines that do not connect to any other words, such as 'he', 'done', 'develop', 'her', and 'enough'.

## ROUND 8

*after Mona Mansour*
