

High Oil Pressure Gauges Conversion Kit

SHIFTWORKS® conversion gauges are designed to fit the EXISTING openings in the back of the dash. They are simple to install and instructions are included.

Super Sport Gauges Conversion
1966-67 Chevelle & Nova

#S505-HOP, S505-VHOP & S507-VHOP

Same old gauges but with a new oil pressure mechanism. Midrange for the HOP series is 60 pounds, versus the normal 30 pounds oil pressure gauge. The upper scale of the HOP series oil pressure gauge is 100 pounds.

These gauges are designed to fit the EXISTING openings in the back of the dash and include ALL fittings necessary to hook up the gauges including the Temperature sending device and the mechanical Oil Pressure line and fitting. They are made in the USA.

Standard SHIFTWORKS® Oil Pressure Gauge

Normal Gauge 10 pounds

Normal gauge 30 pounds

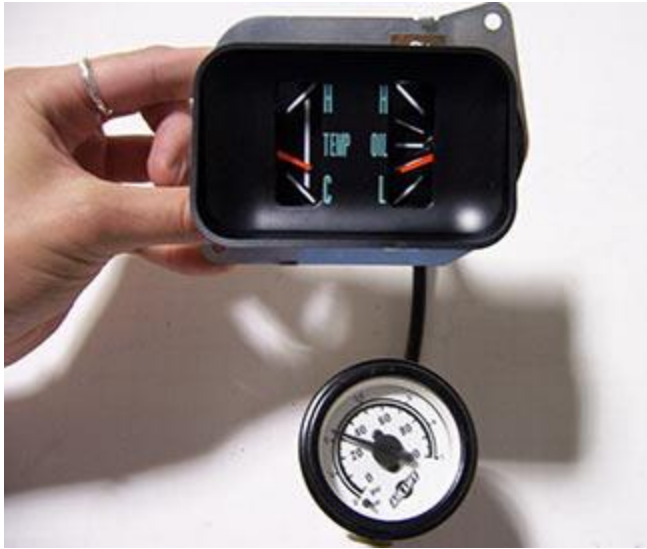

Normal gauge 50 pounds

Normal gauge 70 pounds
