My nails after 3 days. The results are real!! So much stronger then before. They used to be so short & brittle. Now longer & stronger. My ring finger nail used to be so uneven due to a previous nail infection as I almost lost the whole nail. Now you can't even tell it ever had an infection.

## ABOUT NAIL-AID SAPHIRE STRENGTH MEGA GROWTH

Nail-aid Sapphire Strength Mega Growth Use alone: Apply 2 coats over dry, clean nails. Let each coat dry before applying another coat. Use with nail color: Apply as base & top coat. For best results, apply another coat every 3 days. Remove easily with nail polish remover. The results I've achieved using this product are amazing. My nails used to be short, brittle. Now they are long & strong!!
