Did you know that writing by hand can make you smarter? It can also improve your memory, recall, and can increase your overall happiness? Check out our Osprey Pens 2020 Case study on “Save Cursive” from being blocked on Instagram 2020 open source instructional materials. This video is brief preview for A-G instructionals. The 2020 instructional manual will be released at undisclosed date and will enable a basic handwriting cursive script instructions from a-z. The project is designed to be open source and free for any school. Our project contains handwritten instructional materials as well as video demos to show how letters are formed by different nibs we provide through csr. Join us today and let’s save cursive handwriting as an idea at schools. Credit from CSR Back 2 School(Dan Kowitz, Jessica Rotich, Faye Kwan with Abhi Rao CEO for Osprey Pens Redwood Highschool Free CSR Outreach Cursive instructional in California 2018 aka “Avengers”).
