

CARBON~ TAIL

COMB

SECTION PLACE PRIMP

\$4.50

This narrow tooth comb from VERNON FRANÇOIS® has been designed with precision and performance in mind. It's anti-static and heat resistant – a perfect partner for styling hair; particularly useful for braiding. Use the tail end to help place sections of hair into accurate position for up-dos and for sectioning the hair during styling. Made from a very strong and durable carbon and plastic mix, with a matt black finish.
