## **INDICATIONS**

This product is used as an aid to maintain cognitive health, memory and alertness. This is based on traditional use only.

## **CONTRA-INDICATIONS**

Do not use this medicine if you are hypersensitive (allergic) to any of the ingredients in the formulation. Use under medical supervision in children. Avoid use if you are suffering from seizures or epilepsy.

## **WARNINGS AND SPECIAL PRECAUTIONS**

If you suffer from any serious ailments or conditions; or if you are taking any other medication, please check with your healthcare provider before taking this medicine.

- There is a possible cross-sensitivity in people allergic to urushiol (an allergen found in plants such as mango, poison ivy or cashews).
- This medicine might slow blood clotting and should be used cautiously with any other blood thinning medication. Discontinue use two weeks prior to any scheduled surgery.
- People suffering from hypertension or diabetes should use this medicine under medical supervision.
- This medicine might cause dizziness and sedation. It may affect your ability to drive and use machines. Please exercise care when driving or operating machinery until you know how it affects you.
- Porphyria: Safety has not been established.

Nutritional supplementation should not replace a balanced diet. Do not exceed the recommended dose without consulting a healthcare provider.

## **PREGNANCY AND LACTATION**

If you are pregnant or breastfeeding, please consult your doctor, pharmacist or other healthcare provider for advice before taking this medicine.

## **INTERACTIONS**

If you are taking other medicines regularly, including complementary or traditional medicines, or start taking any additional medicines while taking this medicine, consult your healthcare provider for advice. If you are taking herbs and supplements that may increase the risk of bleeding (such as garlic), anticoagulant or antiplatelet medication (such as aspirin, warfarin, heparin or clopidogrel) and/or non-steroidal anti-inflammatory medications (such as ibuprofen or naproxen), please check with your healthcare provider before taking this medicine. Do not use this medicine if you are taking MAOI's (monoamine oxidase inhibitor drugs). *Ginkgo biloba* may interfere with the way the body processes certain drugs using the liver's 'cytochrome P450' enzyme system. As a result, the levels of these drugs may be altered in the blood, and may cause decreased in efficacy or potentially serious adverse reactions. Anyone using other medications is advised to consult with their healthcare provider about possible interactions before taking this medicine.

## **DOSAGE AND DIRECTIONS FOR USE**

Adults: Take one capsule daily with a meal, or as directed by your healthcare provider.

## **SIDE EFFECTS**

Side effects may include stomach upset, seizure, headache, dizziness, sedation, constipation, irregular heartbeat and allergic reactions. Not all side effects reported for this medicine are included in this leaflet. Should your general health worsen or if you experience any untoward effects while taking this medicine, discontinue use immediately and consult your doctor, pharmacist or other healthcare provider for advice.

## **KNOWN SYMPTOMS OF OVERDOSAGE AND PARTICULARS OF ITS TREATMENT**

In case of an overdose, or if an overdose is suspected, contact your healthcare provider immediately. Treatment is symptomatic and supportive.
