

WELCOME TO THE TEAM!

It's time to enjoy the walk.

Welcome to TEAM QOD. As fellow golfers, we understand how important it is to have equipment you can rely on. Should you ever need any assistance with your QOD, we will always be happy to give you the service you deserve.

IMPORTANT NOTES

- Please **complete your Product Registration** at QODGOLFUSA.COM/REGISTER **within 30 days** of purchase to validate the manufacturer's warranty.
- You can view and download the **Operating Manual** at QODGOLFUSA.COM/MANUAL
- Please carefully review the other side of this document for additional instructions.

It will take several rounds before you feel comfortable operating the QOD, but once you do, we hope you find the experience as enjoyable as we did when we bought our first QOD.

Thank you for trusting QOD to lead you down the fairway for years to come. Please don't hesitate to contact us anytime.

Enjoy the walk,

MALACHI McGLONE

President, QOD GOLF USA

SAFETY WARNING: The battery and charger are well designed with proper safety measures in place, but as with any lithium-ion battery, please handle with care and use common sense. Do not drop, puncture, or disassemble the battery for any reason. Should the battery be damaged in any way, please do not use and call us immediately for assistance at (800) 774-1088. Please read all safety precautions listed in the operating manual at QODGOLFUSA.COM prior to using your caddy.

QOD GOLF USA ::
enjoy the walk

QUICK START GUIDE

Operating manual is available at QODGOLFUSA.COM/MANUAL

PLEASE READ CAREFULLY

SETTING UP YOUR QOD

- The same three locking mechanisms keep the QOD locked in position while it is upright and when it is folded. Two of these are levers located at the end of each arm. The other is a rotating knob in the center of the spine, which allows you to raise the spine when ready to play, and lower it when finished.
- There are four steps to expanding and collapsing the bottom base of your QOD. These include extending the front wheels forward, widening the front wheels outward, lowering the bottom bag support down and then raising its bracket with bungee extensions upward.
- The easiest way to learn this is to watch the video at QODGOLFUSA.COM/SETUP. We recommend practicing this until it is easily repeatable before heading to the course.

OPERATION

- Handle your QOD with caution and care and it will lead you down the fairway for years to come. Always walk with your hand on the cart or within arm's reach to make stopping, turning, and supporting it on slopes or bumpy terrain more convenient.
- There is no brake on the QOD. You simply stop the cart on a level surface or find an angle to leave the cart parked across the slope.
- Your wheels are pre-aligned to track in a straight line. However, if after using the QOD you need to make an adjustment, please watch the video at QODGOLFUSA.COM/ALIGNMENT

BATTERY

- Please refer to the battery guide inside of its box. Or visit QODGOLFUSA.COM/BATTERY

Battery Power Lights

Green, Yellow, and Red Lights ON =
More than 50% battery power.

Only Yellow and Red Lights ON =
Less than 50% battery power.

Only Red Light ON =
Less than 10% battery power.

Advance Cart

10, 20, or 30 seconds and it
will stop on its own.

Power On/Off

Leave on throughout round.
