

Relax with Dado Australia

Soak your troubles away in your DADOquartz bath

IMAGINE a spacious tree house constructed in a riverine forest with rosewood, thatch, stacking doors and an open-plan ensuite bathroom boasting an enormous stone bath where you can also expect to see wild dogs, rhinos, antelopes and more than 340 species of birds. It's in Jaci's Tree Lodge, situated in the malaria-free Madikwe Game Reserve in Africa, where you can find such a place.

"At Jaci's Tree Lodge, we have taken the utmost care to create an environment in which you can relax and put your feet up

amid all the luxury you would expect of a world-class game lodge," says owner Jaci. This world-class lodge is focused on guests who love class and style.

The bathtub chosen for Jaci's lodge is the Acanthus, manufactured from DADOquartz. The quality and the special allure of DADOquartz made it a natural choice for a luxurious experience. The stylish matt finish on the DADOquartz only adds to its stunning appearance and its minimalist design. The Acanthus bath is big enough for two. It has a wide rim for

comfort and is the perfect place to rest a glass of wine while you relax and its exceptional heat retention, which will allow an extended warm soak.

DADOquartz is engineered stone with special scratch, mildew and mould resistance; excellent heat retention; colour stability; zero water absorbency; UV resistance; and high thermal shock resistance. This is achieved through tight quality assurance throughout the entire manufacturing process including materials selection, casting and finishing. DADOquartz products carry a 25-year warranty.

Even if you're not able to visit Jaci's Tree Lodge, you could enjoy some of its splendour in your own bathroom. Get the water running and pour yourself a glass of wine — take the time to relax and read a book in one of DADO Australia's stone baths.
