

MagPower Instructions

Upon opening the MagPower charger, it is important to plug it into a power source to charge.

1. Use the Type-C cable included with the packaging to plug the MagPower into a power source.
2. Wait until the light indicator shows a full charge. You should see 4 white lights on the bottom right-hand side of the product.
3. Once the product is fully charged, turn it on using the power button on the right.
4. Click once to power on the device. There will be a light indicator on the bottom right-hand side of the product that will show the charging status. Now that your MagPower is fully charged it is ready to use to power your phone.
5. Place the product on the back of your phone and secure it in the center using the magnet. You will see a solid blue light indicating that it is charging. *Please note that there might be a 2-3 second delay between the time the MagPower is placed on the device and when the charging begins.
6. As the MagPower transfers charge to your phone, the 4 white lights will begin to fade.
7. Once the white lights are completely gone, it is time to charge the MagPower again. (refer to steps 1-3)
8. To charge your device directly via the USB output, please use a supported USB charging cable.

MagPower Kickstand

The MagPower is equipped with a stand for a convenient way to watch videos while your device is charging.

To use the built in foldable stand, simply pull on the tab on the top right of the MagPower and fold it down to the specified area.

MagPower

USER MANUAL

MagPower Illustration

- ① Power button
- ② Stand
- ③ USB-C Input/Output
- ④ USB output interface
- ⑤ Battery indicator
- ⑥ Wireless charging pad

Product Features

- 15W wireless output, unlimited fast charging with magnets.
- New 3-in-1 power bank, magnetic charging, foldable stand.
- 22.5W/PD 20w Direct fast Charging, high efficiency charging.
- LED indicator, showing real-time power.
- High-quality polymer lithium battery.

Packing List

- MagPower charger X 1
- Warranty Card/Certificate X 1
- Manual X 1
- Type C Charging Cable X 1

Notes for Use

1. There will be a short delay when you apply the MagPower onto your device before it begins to charge.
2. Ensure that your phone is compatible with MagSafe charging.
3. Ensure that your case will not interfere with the MagSafe charging.
4. Ensure that the MagPower is turned on and the blue light is solid (refer to step 5 on previous section).
5. If you would like to use the MagPower as a power bank, use a supported USB charging cable that is compatible with your device.

Product Specifications

Rated Energy	22.2Wh
Battery Capacity	10,000mAh
Battery Type	Polymer lithium battery
Maximum Direct Charge via USB	22.5W / PD20W
Wireless Charging Power	5W/7.5W/10W/15W Max
Output USB	5V \Rightarrow 4.53A/9V \Rightarrow 2A/12V \Rightarrow 1.5A Max
Output Type C	5V \Rightarrow 3A/9V \Rightarrow 2.2A/12V \Rightarrow 1.5A Max
USB+Type C simultaneous output	5V \Rightarrow 3A
Input Type C	5V \Rightarrow 3A / 9V \Rightarrow 2A Max
Executive Standard	GB/T 35590-2017
