sleek & portable wireless keyboard

Typing on the go!

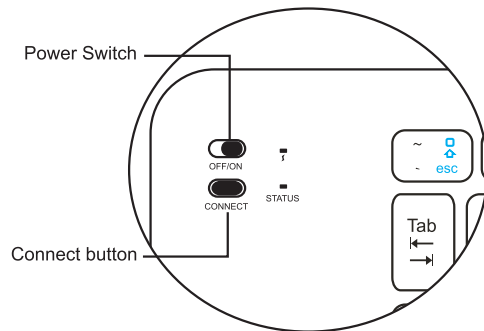

Pairs with Bluetooth® devices

fashionit®

Prepare your keyboard to connect:

1. Turn on the keyboard via ON/OFF button.
*A blue status light will turn on briefly. It will turn off to save power a few seconds later.
2. Press the connect button, and the blue status light will turn on and begin to flash.
3. Now the keyboard is ready to be connected.
4. Go to 'Settings' on your device -> Bluetooth -> choose 'TYPE keyboard' on your list.
5. Review the next page for instruction on how to connect with your specific device.

For windows supported devices:

1. Click the windows start icon on the bottom left corner of your screen.
2. Go to the settings gear icon.
3. Select the devices icon and make sure the Bluetooth tab is switched to 'ON'.
4. Select 'Add a Bluetooth device'.
5. Find TYPE keyboard on your list and click to connect.

For smartphone and tablet devices:

1. Go to the settings icon on your home page.
2. Select Bluetooth and make sure the tab is switched to 'ON'.
3. Find TYPE keyboard on your list and click to connect.

For Mac:

Click on the Apple icon and select 'System Preference' from the drop down. Click on Bluetooth and look for TYPE, then choose to 'Pair'.

Pairing your device with TYPE and other audio products:

Your device can connect to TYPE keyboard and pair with most audio devices (speakers/headphones) simultaneously.
