Pairing instructions for a mobile device:

Turn on the device you wish to pair to your headphones and go to the Bluetooth setting.

Turn the headphones on by holding down the "Home" button for 3 seconds and ensure that Bluetooth is enabled on your device.

Find "U Headphones" on your device list and click on it to pair.

Once your headphones are paired to a specific device, they will remain paired and automatically recognize each other whenever they turned on and within range.

Pairing instructions for a computer:

Turn on the computer you wish to pair to your headphones and go to the Bluetooth software installed on your computer.

Select the "search Bluetooth devices" function and find "U Headphones" on your device list.

Use the right click on your mouse to select "pairing", then select "connect with audio device" with the same operation.

If your computer does not include a Bluetooth function, a Bluetooth adapter will be necessary.

You can now use the U Headphones to listen to music, watch videos, and make video calls on your device.

4

Charging instructions

Make sure the headphones are charged for at least 6 hours before the initial use.

To charge the headphones insert one terminal of your charger to a USB port and the other terminal to the headphones themselves.

While charging the headphones you will see a red LED light indicator.

When the charging is complete, the light will change from red to blue.

Please note:

If the headphones are not in use for over 12 months, you will need to charge them again before use.
