Assistive mobility sheet

People with Parkinson's have asked us for a solution to getting in and out of bed, or turning over, without cumbersome equipment.

Parafricta® ultra-smooth bedding is designed to help prevent skin damage and aid movement in bed. This sheet enables movement with minimal effort due to the low friction Parafricta® fabric, which makes it easier to change positions and slide in and out of bed.

The Parafricta® panel is surrounded with high-quality polycotton, which allows you to gain stability with your feet and pivot on the low friction fabric. Unlike satin or silk, this sheet is breathable, durable and can be washed at most high temperatures (60-70°) without affecting performance.

The Rollz Motion Rhythm rollator has been developed for people with a disrupted gait pattern or who suffer from freezing episodes. It encourages the start of a rhythmic gait pattern with the help of three cues.

The benefits of using Rollz's Parkinson's rollator have been recently showcased in a study conducted by a research group in the Netherlands.

90% of the participants in the study indicated that they benefited from the sound signal and almost half experienced a positive effect from the vibrations. Both cues indicate the walking rhythm and help the user to stay in the personally set walking rhythm. The study indicated that the laser line does not appear to be of added value for every person with Parkinson's, but may help to start moving from a standing position.

"Which cue works best in supporting the gait pattern in a person with Parkinson's depends on the severity of the condition. Because the Rollz Motion Rhythm has three types of cues (frequency and intensity of which can be set via the accompanying app), the rollator can offer help to a large group of people. The Rollz Motion Rhythm has benefitted 80% of participants in this trial", the research shows.

Ebay for Charity, ecards and Give as you Live

Whether you use eBay for buying or selling, eBay for Charity is a simple way to support us.

Selling

If you're selling unwanted items on eBay, you can choose to donate a percentage of your profits to Parkinson's UK. Simply select the 'advanced sell' option when uploading your products, and **Parkinson's Disease Society** as the charity to receive between 10% and 100% of your proceeds.

If you're a UK taxpayer, Gift Aid is automatically added to the amount you donate. For every £1 you give Parkinson's UK, we'll get an extra 25p from HM Revenue and Customs.

Buying

You can also support us by purchasing items that are being sold in aid of Parkinson's UK. Our eBay for Charity page lists all of these items in one convenient place. Shopping has never been easier!

Parkinson's UK e-cards

Sending an e-card to raise money for Parkinson's UK couldn't be simpler:

3. Choose the card you would like to send.
4. Fill in who the card is from and your message.
5. Select your donation amount.
6. Make your payment and your card will wing its way to your recipient.

Your regular online shop could raise money for people affected by Parkinson's without costing you an extra penny!

Simply sign up to the Give as you Live scheme and for every online purchase you make from one of the thousands of shops listed, we'll receive a donation.

About Give as you Live

Give as you Live is a shopping and price comparison website. Every time a sale is generated through Give as you Live, retailers

pay commission. At least 50% of this is passed on to Parkinson's UK. The Give as you Live site lists each amount that the charity will receive.

All of the big stores are included – Tesco, John Lewis and M&S, to name but a few – so take a look online to see who is taking part.

Start shopping

Book a holiday, do your food shopping or download music and raise anything up to 5% of the value of your transaction for Parkinson's UK.
