AM/FM
Stereo Headset Radio

We hope you enjoy your AM/FM Stereo Headset Radio from RadioShack. This lightweight headset radio has a built-in antenna with adjustable headband and bass enhancement. Please read this user's guide before using your headset radio.

Package Contents

- Headset Radio
- User's Guide

Install Batteries

Slide open the battery door and insert two AAA batteries (not supplied) matching the polarity symbols (+ and -) marked inside.

Battery Notes:

- When the sound weakens, replace the batteries.
- Dispose of old batteries promptly and properly. Do not burn or bury batteries.
- Use only fresh batteries of the required size and recommended type. Do not mix old and new batteries, different types of batteries (alkaline, or rechargeable), or rechargeable batteries of different capacities.
- If you do not plan to use your headset for a week or more, remove the batteries. Batteries can leak chemicals that can damage electronic parts.

2

BASS BOOST OFF/ON

Switch to **ON** to enhance bass frequencies.

3

Using the Radio

1. Slide **POWER OFF/ON** to **ON** to turn on the radio. The last tuned station plays.
2. Slide **AM/FM** to select a band.
3. Turn **TUNING** to find a station.
4. Adjust the sound controls **VOL** and **BASS BOOST OFF/ ON**.

Listening Safely

Do not wear headphones, earphones, or earbuds while operating a motor vehicle or riding a bicycle. This can create a traffic hazard and could be illegal in some areas. To protect your hearing:

- Do not listen at extremely high volume levels. Extended high volume listening can lead to permanent hearing loss.
- Set the volume to its lowest level, then turn on your audio device and adjust the volume to a comfortable listening level.
- Avoid increasing the volume. Your ears will adapt to the volume level, so a level that does not cause discomfort might still damage your hearing.

Caring for your headset

- Keep the headset dry. If it gets wet, wipe it dry immediately.
- Handle the headset carefully. Do not drop it.
- Use and store the headset only in room temperature environments.

4

- Keep the headset away from dust and dirt, and wipe it with a damp cloth occasionally to keep it looking new.

Specifications

Power	2 × AAA batteries
Output power.....	10 mW (10% THD)
Frequency range	FM: 88 - 108 MHz
.....	AM: 520 -1720 kHz
Weight (without batteries).....	3.5 oz (99 g)

FCC Information

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

5

If you cannot eliminate the interference, the FCC requires that you stop using your equipment. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
