COVER STORY

Power Solutions by AC WORKS®

AC Connectors has several power solution products by AC WORKS®. Many are not aware of the options we have for household power. Our residential power line helps you to power kitchen and household appliances, yard tools, electric dryers, ranges, vehicles, and more.

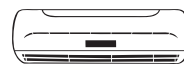

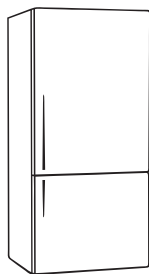

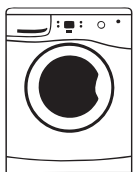

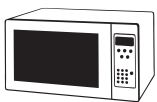

With our electric vehicle collection, you can power a Tesla and other electric vehicles using AC WORKS® adapters, flexible adapters, and extension cords.

We offer marine shore, food truck, and RV connections, most popular during the spring and summer months. Welder and Industrial products are available for construction and similar projects.

Emergency, generator, and HVAC power solutions are some of our most popular products. We always process orders for emergency power as soon as possible.

Whether you need to extend your power, change your available power source, or get electricity on the go, we have options for you. If you need a solution and cannot find it, reach out to our customer service department. We are always available to help.

NEW PRODUCTS

L530TT

This AC WORKS® brand extension cord [L530TT] is very durable. The extension cord comes in 10, 25, and 50 feet in length. It is a NEMA L5-30P to a NEMA TT-30R. This 3-prong locking to straight-blade extension cord is heavy-duty and is used to get 30A, 125V power from a generator. It is used for RVs, food trucks, and emergency power. The cord is flexible and durable as well as weather and water-resistant. Included with your purchase is a 5-year limited warranty.

- SOOW 10/3, 600 Volt Rubber Jacket with a 30 Amp Copper Wire
- NEMA L5-30P to NEMA TT-30R
- NEMA L5-30P, 30 Amp, 125 Volt, Locking Male Plug
- NEMA TT-30R, 30 Amp, 125 Volt, RV/ Trailer Female Receptacle
- Stays Flexible in Cold Weather

TIPS FROM TONY

When purchasing an item on our webstore, please make sure to select **Ship** or **Pickup** in the **Delivery Method** section. It must be selected before you provide your payment method. If you live close to Oak Creek, WI, take advantage of the pickup option. If you are not within driving distance of our store you want to choose **Ship**. Choosing **Pickup** when you need it shipped slows down the shipping process.

FEATURED PRODUCTS

E620CB620

This AC WORKS® brand protective extender is heavy-duty. The NEMA 6-20P is a 20 Amp, 3-prong, straight-blade plug. The NEMA 6-15/20R is a 15/20 Amp, T-blade, 250 Volt female connector. The cable is an STW, 12/3, anti-cold weather cable staying flexible in extreme temperatures. The cord is super durable and typically used with construction and/or industrial equipment.

E520CB520

This AC WORKS® brand outlet extender with 20A breaker is a heavy-duty. The NEMA 5-20P is a 20 Amp, 125 Volt elbow shaped, 90-degree plug. The NEMA 5-15/20R is a 15/20 Amp, T-blade female connector. The cable is an STW, 12/3, anti-cold weather cable staying flexible in extreme temps. The cord helps protect an overload to your electrical breaker panel, making sure your machine doesn't use more electricity than it should be.

CUSTOMER FAVORITES

ASIN515P-WC

This AC WORKS® brand NEMA 5-15 inlet is a heavy-duty power input connection device. It is used for an industrial and commercial grade flange inlet. This inlet works with 18 to 12 AWG (American Wire Gauge) copper wire and is commonly used for boats, RV's, small trailers, and cabins.

AC WORKS® NEWS

Mark Downs and Discounts

As you may remember we started creating new designs for the barrel adapters. As they have been rolling out into production we have been marking down the old style. Save on compact adapters by purchasing the old style (while supplies last).

Visit our website's promotional page to find out more about our discounts and coupons. We are running a BOGO discount on the E520CB520 and the E620CB620 flexible adapters.

We also post our discounts and sales on our Facebook page.

the WRAP UP

BEHIND THE SCENES

Recently, we have had a high demand for custom OEM products. With still persistent supply chain issues, we have been looking into options to get products made quicker and give us more control over the entire process. We are investing in our own tooling for frequently sought after OEM products. This will make the lead time far more predictable, while helping with the overall price of the products.

Inventory levels on our end will also be more manageable. If there is a custom power solution you require in a very large quantity, for a long term project, please let us know!

UPCOMING SHOWS

Tradeshow, Expo, and Event News

EWLTE 2022: Milwaukee, WI | See you next year.

The Wisconsin Center District and Expo Productions Inc. has announced the Electrical Wire Processing Technology Expo, *See you in 2023, thank you for coming this year.*

HIMSS23: Chicago, IL | See you in Chicago.

We will see you at HIMSS23 in Chicago, Illinois. *We will see you next year in Chicago at the McCormick Place.*

Tradeshow

How was EWLTE this year?

After a few canceled events due to the COVID-19 pandemic, we finally set up our booth for the EWLTE show in Milwaukee this year.

EWLTE stands for Electrical Wire Processing Technology Expo and is held in downtown Milwaukee at the Wisconsin Center, each year.

This was our first time exhibiting at the expo. We gathered many leads and have started working on projects related to the show already. One of the major leads we acquired is Toro.

Many companies were looking for locking C13 connectors, C14 to C13 jumper cables, and many are looking for American-made items hoping to avoid tariffs. We get a lot of wiring devices and custom items from Taiwan, thus avoiding tariffs and supply chain backlog.

We have already secured our time for next year and look forward to sharing new and exciting items with you then.
