Our Growing Company

How AC WORKS® has Grown

The company started with one room in the home of our owner, and a dream of becoming the best in the industry. In just a few short years we have grown into a large warehouse space in the United States and are also shipping from a warehouse in Canada.

We work hard taking customer requests, concerns, and listening to their connection problems in search of new product solutions. Every new product is one step closer to our goal and more importantly helps you, the customer, find the solution you need.

As we have grown our product line with both common and new, never before seen, products we need more space to fit all of those products. When well established, our business moved out of the home it started in and into a small warehouse in Franklin, WI. and before long we grow too large for that space.

Once again we moved into a much larger warehouse space in Oak Creek, WI. a five minute drive down the street. We have worked the last two years filling this warehouse with all of your AC WORKS® brand favorites. Now we are adding square footage to this location and could not be more excited about where the business is going.

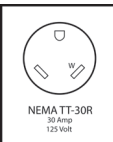

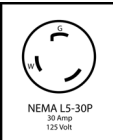

Tony had a dream and with the help of our amazing team we get all the products you need out the door, fast and efficiently. We continue to grow and work toward the common goal of customer solutions that keep the power going.

We could not grow and become a well respected part of the power industry without you, our customer. We appreciate you and will always work to bring you the solutions you need.

If you have any questions or concerns about a power connection solution you have been trying to figure out call, email, text, or message us and we will help bring you the solution you have been looking for.

Thank you to our loyal customers.

RVL530TT Compact Adapter

FEATURED PRODUCTS

This AC WORKS® brand RV adapter [RVL530TT] is very durable with a compact design. It is a NEMA L5-30P to NEMA TT-30R. The NEMA L5-30P is a 30 Amp, 125 Volt, 3-prong locking male plug. The NEMA TT-30R is a 30 Amp, 125 Volt, straight-blade female.

With the new product design, we added a power indicator light going around the entire product so you will always know when you are receiving power.

(Continued on page 2)

TIPS FROM TONY

Always check your outlet ratings. Outlets can have a variety of different voltage and amperage outputs and it is important to check these. Most outlets have 125V, 125/250V, or 250V printed on them. If you have a 125V outlet, it can only provide 125V. If it lists both, it can provide both, and if it lists 250V, it can only put out 250V.

FEATURED PRODUCTS

(Cont. Page 1)

AC WORKS® brand generator protective power strip cords [L1430CBF520-025] are very durable. The cord is 25-feet in length and is a NEMA L14-30P to **four** NEMA 5-15/20R household outlets. The NEMA L14-30P is a 30A, 125/250V generator locking plug. The NEMA 5-15/20R is a 20A, 125V, T-blade household female connector.

The cable is an STW, 10/4, 30A copper wire with a 600 Volt anti-cold weather jacket that stays flexible in extreme temperatures. The cord is super durable and typically used with generators, construction, and industrial equipment. Each pair of outlets, red and green, is protected by its own 24A circuit breaker.

24A Per Pair of Outlets

EMPLOYEE RECOMMENDATIONS

As the growth occurs within our company St. John's Properties has been there to guide us and walk us through every step of the way.

They have been extremely helpful and accomodating for our expansion. They understand our needs and work hard to meet them.

They went above and beyond to get us a forklift ramp for our warehouse. We highly recommend them for commercial space.

IMPORTANT NEWS FROM ACWORKS®

We're Hiring a Warehouse Assistant

Do you have warehouse experience? Do you know someone who does? Take a look at this Warehouse Assistant position with competitive pay and opportunities.

Warehouse Assistant

We are looking for an organized and motivated Warehouse Assistant with the willingness to learn new processes and procedures. Responsibilities include helping with shipments, inventory tracking, organizing stock, cleaning, and is comfortable with helping other departments as needed. The ideal candidate is a motivated and quick learner who is comfortable working on their feet, focused, and experienced in warehouse logistics.

This position will start part-time at 20+ hours per week, with a probationary period of 90 days. Once it is determined to be a good fit for both parties the position will increase to full-time. Must be a legal U.S. resident.

Requirements

Valid drivers license and reliable vehicle.
Able to work independently.
Pays attention to detail, monitoring the quality of inventory.
Physically able to lift boxes weighing up to 50lbs.
Physically able to stand, sit, move, squat, walk, and climb during the course of the shift.
Willingness to learn the basics of electrical engineering.
Highly organized and able to store items efficiently.
MUST follow all health and safety procedure and regulations as dictated by the organization and the state.
Candidates must be 18 years or older with the ability to understand and adhere to all safety guidelines and regulations.

Benefits

On-the-job training and skill development
Competitive wages
401(k) savings plan for full-time employees after one year
Weekends off
Holiday Pay Opportunities
Vacation Day Opportunities
Quarterly Company Meals

Find the full job description on our website blog.

Please respond to marketing@acconnectors.com with your resume and cover letter for consideration.

BEHIND THE SCENES

Garage Installation

The AC WORKS® residential products are perfect for use in your yard, garden, home, garage, etc. In this case, we installed the ASOU515RL-WC in my garage to power an above ground swimming pool pump this summer during quarantine. The possibilities for use are endless.

FREQUENT FEATURE

During the historical and unknown times we are living through, things seem to be changing with every week, day, and even sometimes hours.

Keep in mind the hard work our parcel carriers are doing for us right now and be patient with them while waiting for your deliveries.

Our deliveries seem to be arriving quickly but keep this in mind while waiting for your shipment.

E-mail your questions to info@acconnectors.com

UPCOMING SHOWS

tradeshow, expo, and event news

HIMSS21: Las Vegas, NV | August 9-13, 2021

We are scheduled to attend HIMSS21 in Las Vegas, Nevada at the Sands Expo. You will find us in booth #8307. See you next summer in Vegas.

EWPT 2021: Milwaukee, WI | May 12-13, 2021

The Wisconsin Center District and Expo Productions Inc. has announced the Electrical Wire Processing Technology Expo dates for 2021. See you May 12-13, 2021 for EWPT. *Our booth space for the 2021 EWPT show has changed. Find us in booth #1916 next spring.*

COVID-19 Coronavirus Statement

As all communities work diligently to best address COVID-19 (coronavirus), we want to maintain as safe an environment as possible. We will continue to operate as normal as possible during this challenging period and ask that staff and customers join us in observing best practice keeping as safe as possible.

NEW PRODUCT RELEASE
