BLACK FRIDAY EDITION

COVER STORY

Product Features

It's Black Friday season, and we are sharing all the deals. Before we do that, we want to tell you what our product features are and why to choose one style over another.

Lets's start small with our compact adapters. AC WORKS® compact adapters are a long-lasting alternative to a permanent solution. They feature many benefits like their quick and easy installation, fit into any brand inlet, a solid grip with a heavy-duty design, the power indicator ring light, and the solid grip material. The compact adapter is easy to store in a cramped location.

Another small but unique product offering is the elbow adapter. Elbow adapters, sometimes called 90-degree adapters, are connectors that change the direction of a permanent outlet. They are a convenient accessory often used in tight spaces, relocation, or around obstacles.

Some products have locking prongs, locking adapters require a twist to lock the adapter in place. They use curved metal prongs and lock into and out of place by twisting. Once twisted into place, they prevent accidental unplugging, secure the prongs to avoid water or other hazards touching the prongs, and provide peace of mind that your connections are safe.

Inlet boxes are used to help provide a more permanent but still temporary power solution in an emergency. An inlet box provides quick and easy install for backup power during an emergency power outage. Our inlet boxes feature heavy-duty durable metal construction. It is IMPORTANT to note the installation of your AC WORKS® brand temporary power inlet box and associated wiring must be performed by a licensed electrician in compliance with all applicable codes.

Locking inlet adapters require a twist to lock the adapter in place. This adapter style prevents easy or accidental unplugging of the adapter from the power source. Some inlet boxes provide connection using a threaded ring you twist into place. The threaded ring prevents water or other liquids from entering the power source and causing a surge. A secure connection is essential when using a generator as a power source.

FEATURED PRODUCTS

ASL530PBX

This AC WORKS® brand transfer switch inlet box is durably constructed with heavy-duty thick metal to withstand the elements. This Inlet box contains a NEMA L5-30P, 30 Amp, 125 Volt 3-prong locking plug. Other styles we offer are listed below.

[ASL1420PBX] 20A LOCKING 4-PRONG L14-20

[ASL1430PBX] 30A LOCKING 4-PRONG L14-30

[ASL630PBX] L6-30 30A 250V 3-PRONG

[ASINSS2PBX] 50A LOCKING 4-WIRE CS6375/SS2-50

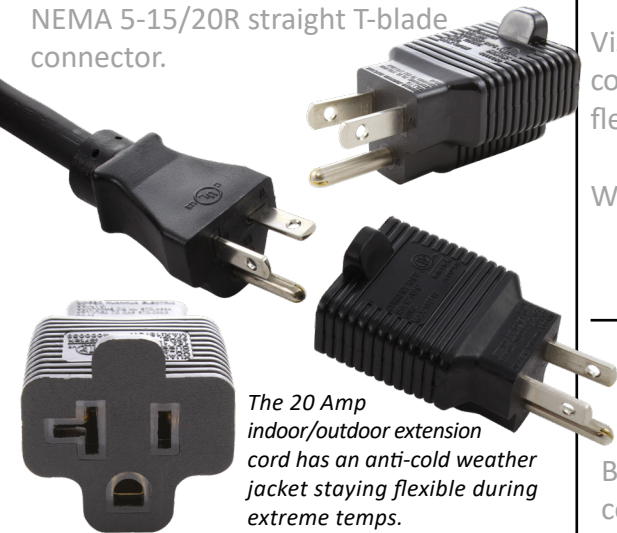

TIPS FROM TONY

Our transfer switch adapter for your inlet box comes with a black plastic threaded ring. It is an added feature for security. Different types of inlet boxes come with or without threads for security. To add this ring to your new adapter, you need a hair dryer or heat gun to heat one side of the adapter. Use the heat to soften the adapter allowing you to slip the ring on or off as needed. Work from one side to the next in a circular pattern. Be careful not to heat the adapter until it smokes, that is too long.

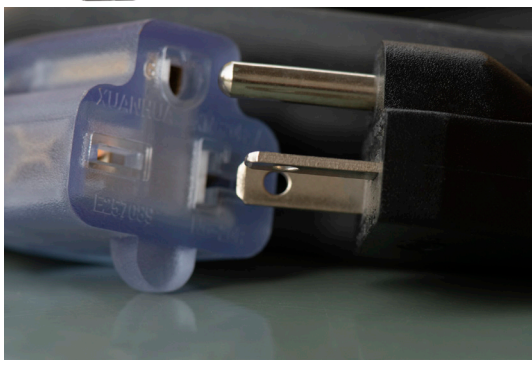

FEATURED PRODUCTS

15/20AEX

This AC WORKS® brand extension cord comes in 10ft, 25ft, and 50ft in length. The cord is an SJTW, 12/3, NEMA 5-15/20, 15/20 Amp indoor/outdoor extension cord. The plug is a NEMA 5-20P with a NEMA 5-15P straight-blade adapter, to a NEMA 5-15/20R straight T-blade connector.

The 20 Amp indoor/outdoor extension cord has an anti-cold weather jacket staying flexible during extreme temps.

CUSTOMER FAVORITES

ADL630620

This AC WORKS® brand locking adapter is very durable with a compact design. It is a NEMA L6-30P to NEMA 6-20R. The NEMA L6-30P is a 30 Amp, 250 Volt, three prong male plug. The NEMA 6-20R is a 20 Amp, 250 Volt, T-blade female connector. The product is heavy-duty, compact, and contains nickel-plated plugs and terminals to prevent rusting.

HVAC and industrial compact adapters provide many solutions.

AC WORKS® NEWS

Mark Downs and Discounts

As you may remember we started creating new designs for the barrel adapters. As they have been rolling out into production we have been marking down the old style. Save on compact adapters by purchasing the old style (while supplies last).

Visit our website's promotional page to find out more about our discounts and coupons. We are running a BOGO discount on the E520CB520 and the E620CB620 flexible adapters.

We also post our discounts and sales on our Facebook page.

Industry News

Black Friday and Cyber Monday

Black Friday sales are starting to show up all over the place. They seem to come earlier and earlier each year. We want to remind you our sales will go live sometime during the week of Thanksgiving, but we will not share when just yet.

Remember to keep your eye on Amazon, Lowes, Home Depot and Newegg as we never know what types of sales might pop up there. Our products are available at many retailers so there are options to get the product you need, quickly, at a great price.

Watch our social media channels for news to come in the next few weeks about discounts and sales for Black Friday. You will see special posts similar to the one below.

BEHIND THE SCENES

BLACK FRIDAY CYBER MONDAY

AC WORKS® brand will be on sale this year for Black Friday and Cyber Monday. You will see some of our favorite products shared throughout the month. Closer to Black Friday you will start to see the deals shared on social media as we get closer to Thanksgiving.

We want to remind you we are closed during many of the upcoming holidays and shipping times will be extended by one day during those closures.

These holidays include Thanksgiving, Black Friday, Christmas Eve and day, and New Year's Eve and day.
