## INTRODUCING: THE WRAP UP AC WORKS® Monthly Newsletter

“In today’s busy world we don’t regularly have time to check our inboxes like we used to. Knowing this, we decided to make some changes to our blog and the way we communicate with our readers.”

### FEATURED PRODUCT

The PD4GF-010 is a power distribution panel with four built-in NEMA 5-15/20R GFCI outlets and one NEMA L14-30R outlet that connects to your generator or industrial power supply outlet via a NEMA L14-30P plug.

The power distribution panel is capable of a “daisy-chain” connection and has power status indicator lights. Visit ACWORKS.com to learn more. (Continued on page 2)

### TIPS FROM TONY

There is a distinct difference between a NEMA L14-30 and NEMA L14-20 generator outlet. The grounding pin for each has a slight “hook.” For the L1420, that hook goes outward. For the L1430, that hook goes inward.

### COUPON CODE CORNER

Enjoy 20% off all of our HVAC products today through February 3, 2020. All AC WORKS® products with a NEMA 5-20R, NEMA 6-20R, or a NEMA 6-30R are included. Use Coupon Code: **Heater20** during checkout to save.

You have probably noticed the past few weeks you haven’t received a copy of AC WORKS® Connector blog. In today’s busy world, we don’t regularly have time to check our inboxes like we used to.

Knowing this, we decided to make some changes to our blog and the way we communicate with our readers.

On the last day of each month, we will now be sending you the WRAP UP, our monthly newsletter. This publication will bring you industry, product, and company news.

Readers will find a behind-the-scenes look at our company. We provide you with sales reminders, all new product releases, tradeshow or other industry events, and even “Tips From Tony”, our most knowledgeable Sales Engineer. You never know what you may find in the next issue of the WRAP UP, so make sure you watch for your copy in your inbox on the last day of every month.

## FEATURED PRODUCTS

(Cont. Page 1) This AC WORKS® brand flexible adapter S1430CB620, is a heavy-duty household adapter cable.

This adapter allows you to create an HVAC or Electric Vehicle T-blade outlet using a 30 Amp 125/250 Volt 4-prong dryer outlet as your power source.

Learn more about this and the rest of our protective power adapter collection at [www.ACWORKS.com](http://www.ACWORKS.com).

## EMPLOYEE RECOMMENDATIONS

Black Husky Brewing company reached out to us in the fall of 2019 looking for a power solution. We offered them an option and it was greatly appreciated.

After we learned about the brewery and its location, we decided we want to give their product a try.

*“Each of the beers produced is associated with the dogs in the kennel as a tribute to the loyalty and companionship that define each of them.”*

Loyalty is very important to us here at AC Connectors. We are loyal to our customers, suppliers, and our partners. We want to put our stamp of approval on the the Black Husky brand. We suggest you give their product a try.

## INDUSTRY NEWS

### Tesla Charging Updates

AC Connectors, offers safe and effective Tesla charging options

Tesla has removed the 14-50P plug from its standard new vehicle package included with every purchase. The 14-50P plug is compatible with the Gen II Mobile Connector. The level one adapter still comes standard with every Tesla vehicle purchase however this offers a very slow trickle charge.

We have had customer complaints saying our adapters do not work with the Gen II Mobile Connector because the 14-50P adapter does not come with the vehicle purchase any longer. We have created a solution by offering a new product, the G2EV1450PT. The NEMA 14-50 adapter works in conjunction with various AC WORKS® adapters to form any combination you need to power your Tesla.

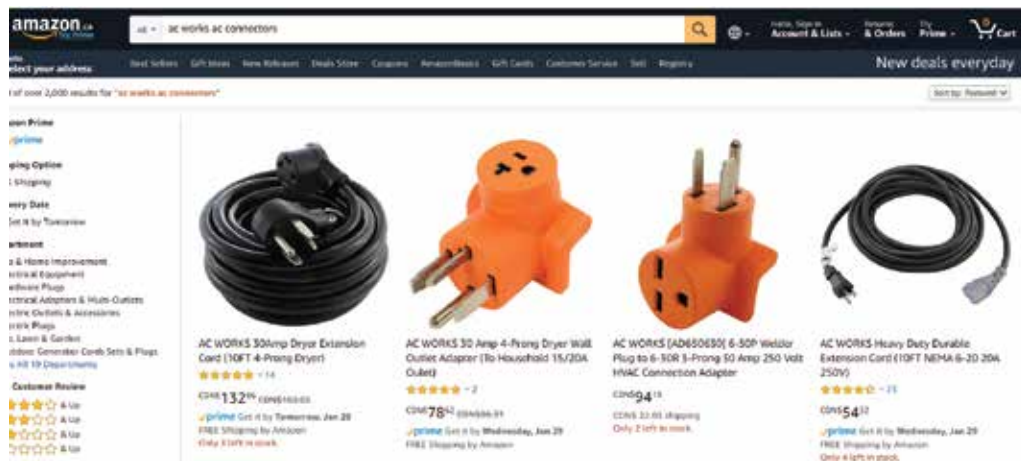

The new adapter also comes installed with a chip that pre-sets your charging limits to either 24 or 32 Amps, depending on the adapter you purchase. You can select the option that is best suited for your vehicle and charging needs. You will also find this new flexible adapter included with both the EVKIT01 and EVKIT02 if you are looking to save by purchasing a bundle.

## IMPORTANT NEWS FROM AC WORKS®

### ATTN: CANADIAN CUSTOMERS

You won't want to miss this...

Canada customers may now order select items from our Canada Amazon storefront. Select items are in the Canada Amazon fulfillment center. We have added 50 of our most popular items for now and will continue to grow the inventory in this location as needed. Watch for more on this, to come soon.

## RESOURCES

Product Sheet Downloads

Outlet Solutions

AC WORKS® Connector Blog

Library of Topics and YouTube Videos

@Steamdrycarpetcleaning

@ProsserRV

Both SteamDry and ProsserRV have used our products already this year and are repeat customers.

Checkout SteamDry if you are looking for Restoration or Carpet Cleaning needs and ProsserRV for the rental or purchase of an RV or trailer for the upcoming season.

Let both businesses know you found them in the AC Connectors WRAP UP newsletter.

Don't forget to follow them on social media.

## BEHIND THE SCENES

Focus on Facebook for live updates on what is going on behind the scenes.

Watch for IGTV videos to start rolling out this year with content about products, uses, and more behind the scenes information.

## FREQUENT FEATURE

When looking at the NEMA configurations for our adapters, remember to flip them to match with your plug or connector.

The NEMA configurations are drawn as if you are looking straight at the plug or the receptacle.

When you plug in your equipment, the plug going into the outlet faces away from you.

This gets confused quite often.

## UPCOMING SHOWS

*tradeshow, expo, and event news*

### **HIMSS20: Orlando, FL March 10-12, 2020**

The HIMSS Global Health Conference & Exhibition brings together nearly 45,000 health information and technology professionals, clinicians, executives and market suppliers from around the world.

### **EWPT 2020: Milwaukee, WI May 13-14, 2020**

The only event where the industry meets as a whole to present and access new technologies, innovative products and services, as well as solutions for challenging wire problems. By bringing together buyers and manufacturers, this Expo presents the ideal venue to find new opportunities and generate new business.

### **Milwaukee RV Show: West Allis, WI Feb 27- Mar 1, 2020**

Displays and sales of a wide range of recreational vehicles including pop-up campers, travel trailers, 5th wheels and motorhomes. Also, many campgrounds are ready to take reservations and miscellaneous products and accessories for sale that relate to the RV lifestyle. Find some of our products displayed in the Prosser RV booth.

## 2019 WRAP UP

### *Moving into 2020 with AC WORKS®*

We are already a month into 2020 and there are already so many changes taking place. With a new decade brings change. Previously we worked weekly on blog topics and videos to connect frequently asked topics to our subscribers. We have chosen to reach out to you monthly via The WRAP UP newsletter you read today.

We are working to add more industry tradeshow events to our list for 2020, including the **Electrical Wire Processing Technology Expo** in May. We have been connecting with customers from RSNA and working on new projects to help secure their medical power requirements, and are excited to work with a few new companies on marketing materials to help bring you more tips of the trade.

As we continue to move through the new year, our main goal is to provide our customers with the most up-to-date information in a quickly changing world. Providing you with new and exciting opportunities in the electric vehicle world is high on our priority list as we move into spring. New products are in development as well and we are excited to bring you more information on those when they arrive in our warehouse.

As always, thank you for being a valuable **AC WORKS®** customer.

## IMPORTANT DATES TO REMEMBER

### **February 2020**

February 14th *Valentine's Day*  
February 17th *Presidents Day*

### **March 2020**

March 8th *Daylight Savings*
