

# Ford Fiesta Mk VI ST - Zetec 'S' Stainless Steel Sports Grille Mesh Upper

**Kit Contents: -**

- 1 off Mesh Grille
- 4 off Plastic Rivets

**Tools Required**

- 5.2mm Drill
- Flat Screwdriver

**Grille Fitting Instructions**

1. Open Bonnet.
2. Line up the new mesh grille keeping it as central as possible, hook the lower fixings through the existing grille.
3. Lift the bonnet release so that the grille can sit back and the deflector plate sits down on the top surface of the existing grille.
4. Holding the grille firmly in place and making sure it is central. Drill through the upper brackets and the existing plastic.
5. Fit the plastic rivets into position and push the pins down until they are flush. (If you take off the small pin first they are easier to push down)
6. With a flat screw driver push down the wire hooks inside the grille to make sure they are held in tightly.
7. The grille is now complete.
