CONNECTING WITH OUR AUDIENCE.

Youtube

SHOWCASING OUR VIDEOS.

Australia's #1

The Original

Since 2012 our growing team have been working directly with manufacturers in China, engineers and metal fabricators to develop high quality recreational vehicles. We are now Australia's leading distributors for the off road go kart.

About Us

OUR MISSION

Offer our customers a timeless, safe and customizable vehicle

OUR VISION

Inspire young minds to innovate, build and create something they will enjoy forever

PHILOSOPHY

We had toys growing up but we should have never grown out of it

Always growing.

Today, the kart has become a versatile machine designed to operate on specific conditions and then easily transformed to operate on another.

Young minds

Innovate Create.

We highly value the contribution and innovation from our diverse audience. It is our goal to inspire children and deliver something new, exciting and safe.

Encourage **Tinkers.**

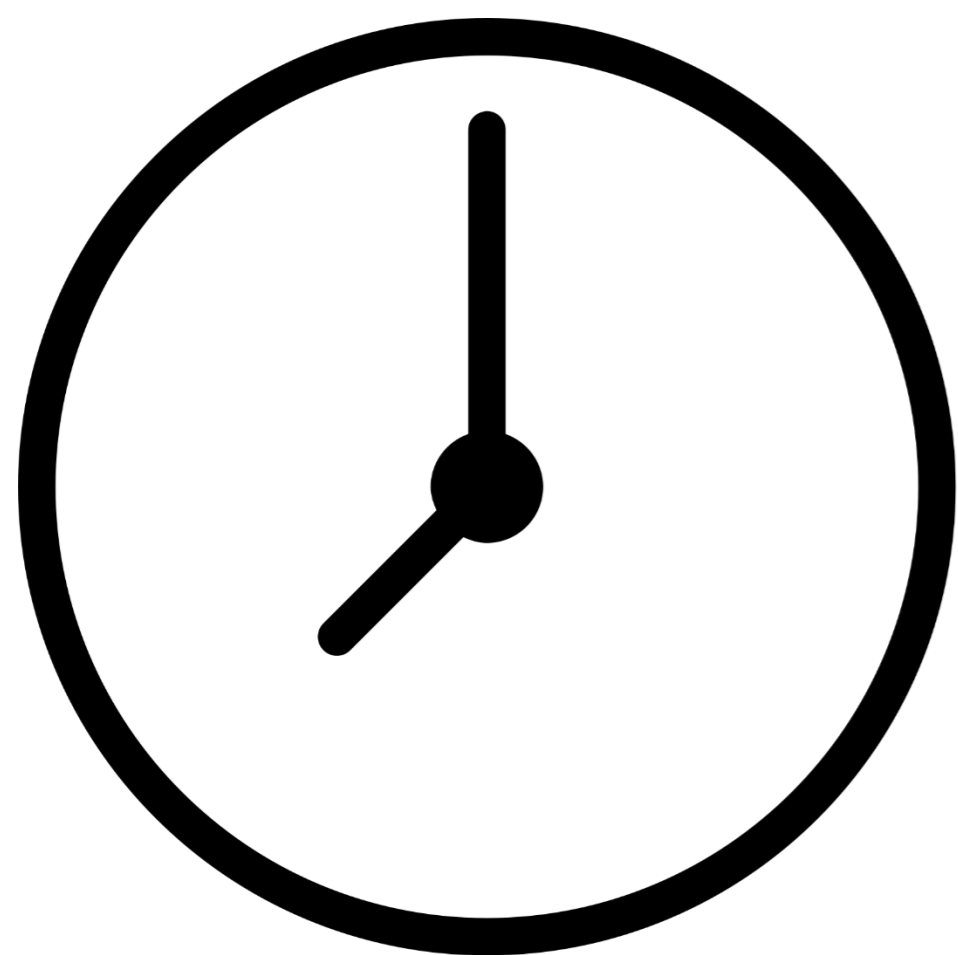

Learn

The go kart only comes in kit form where the user will require to assemble and learn about each component. Our platform offers tips, techniques and instructions how to improve, repair and build the go kart. It is also community driven where all our users can engage with one another and share ideas.

Teach

We believe it's essential for all our users to be educated with the mechanics and maintenance of their vehicle. Our goal is to minimize the complexity of the go kart and progressively introduce new components so the user can continue to learn and build their knowledge.

Timeless.

We believe favorite toys should be timeless. If it brings you joy, keep it close to you. No matter your age, our kart will grow with you. The customisable concept is here to keep you interested and avoid a repeat event of forgotten childhood toys, which could be outgrown, overused, damaged and eventually end up in the bin.

Lets play.

Exclusively with Helmetkarts Australia, our Go karts are crafted and supplied like pieces of Lego. Everything is interchangeable, which means repairs and upgrades are now at your hands. We launch new frames, wheels, engines, you name it.. We'll make it!

The kart.

It was designed to be simple, durable and light weight for the general consumer. However, it was only available in one form. So we stripped it down and got thinking..

1

CONTROLS

How do you want to operate the vehicle?

2

FRONT FRAME

Is the terrain rough or smooth?

3

MIDDLE FRAME

What is your height?

4

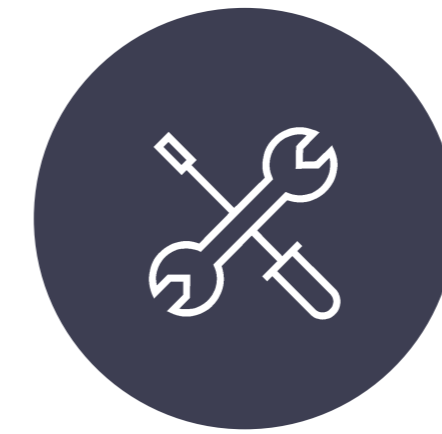

REAR FRAME

How fast do you want to go?

5

WHEELS

What surface will you be driving on?

The breakdown.

Customise

Now that kart is divided into different sections, we can now offer alternative options for different user types and driving conditions.

front

1

middle

2

3

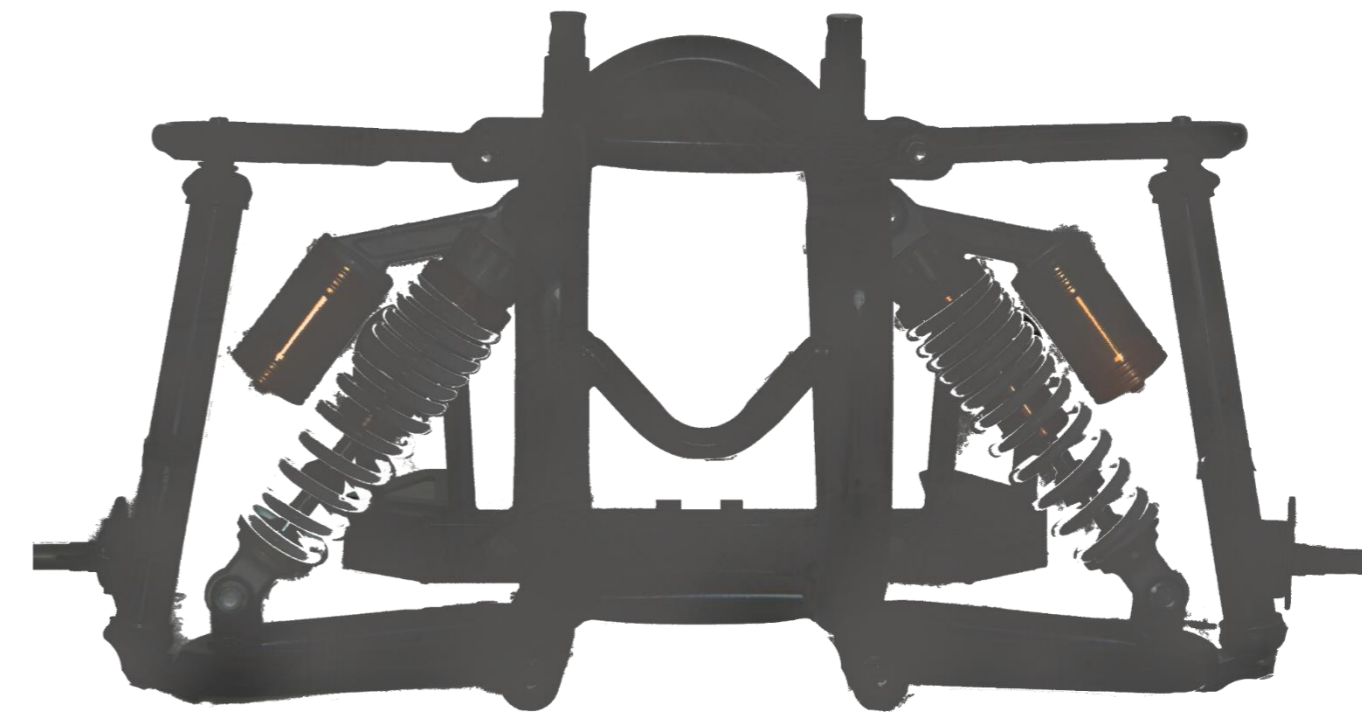

rear

Front frame.

BASIC #B

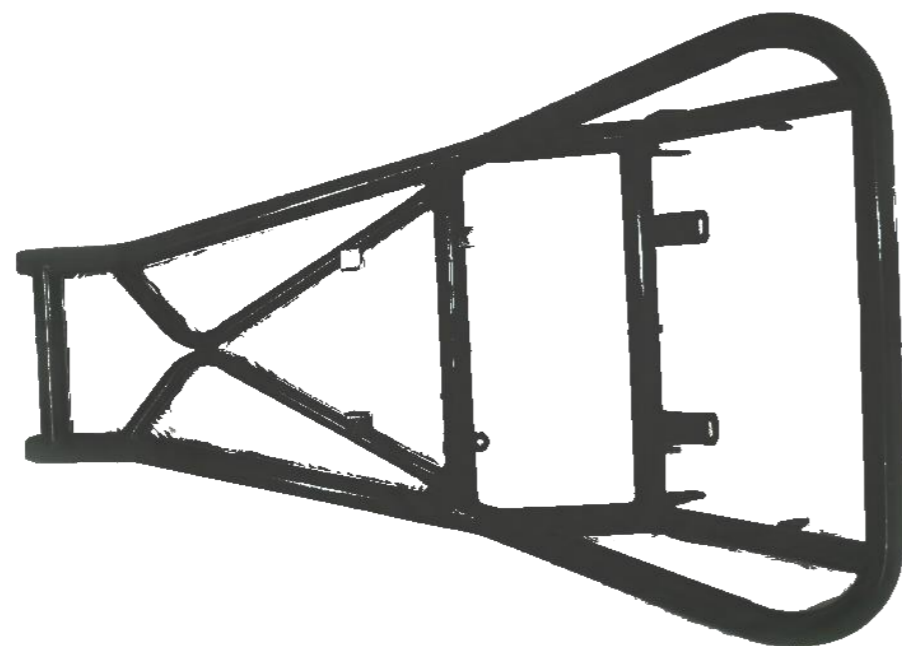

Simple rigid flat chassis designed to be light weight and ideal for flat surfaces. Engineered to have a lower ride height providing best traction for flat road terrains

ADVANCED #A

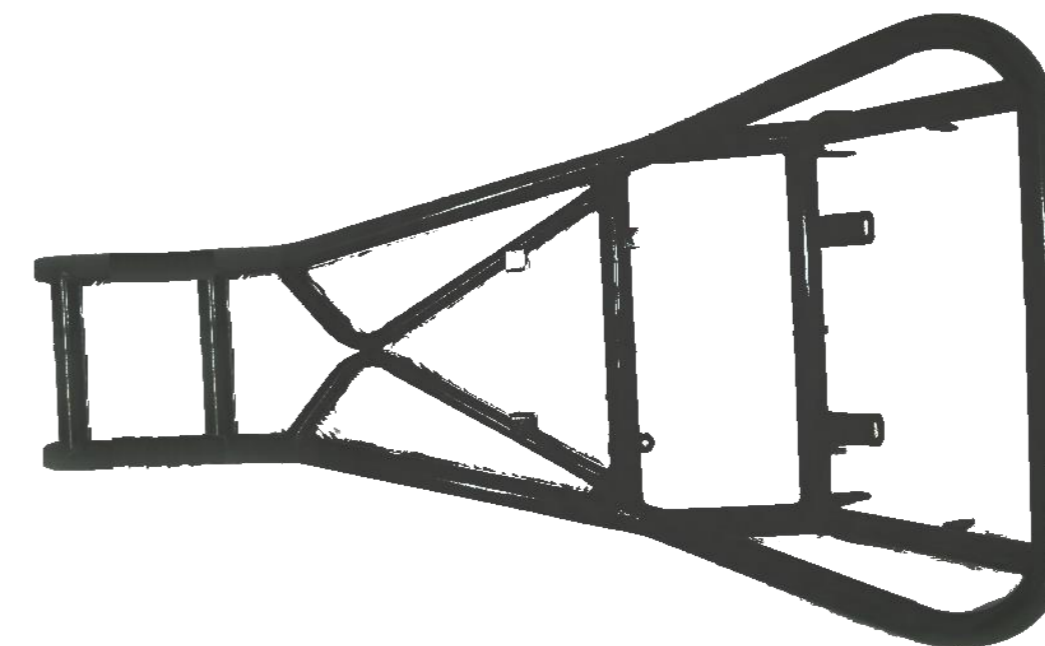

Now equipped with independent front suspension designed for rougher terrains. Front bull bar protects the controls and the user from any accidental collisions

Middle frame.

REGULAR #R

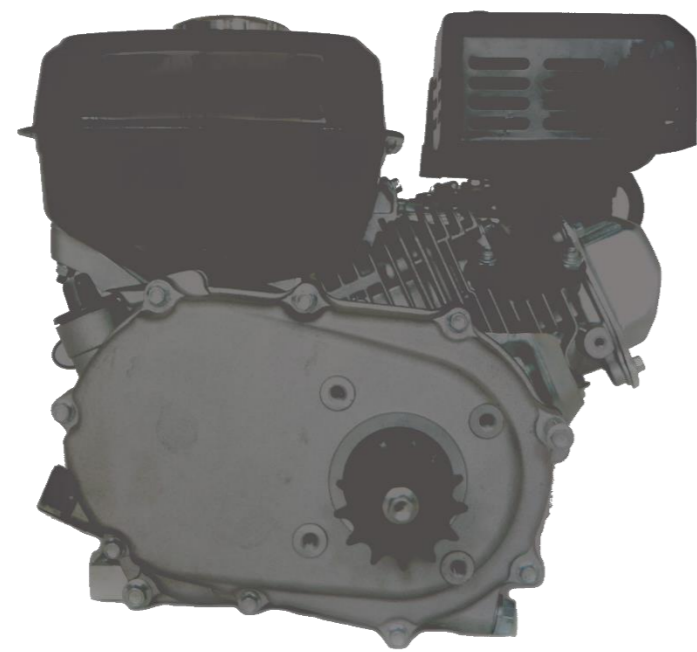

Chassis length 97cm
Fit for users under 170cm

EXTENDED #E

Chassis length 117cm
Fit for users over 170cm

Rear frame.

200cc engine #200

Bore x Stroke (mm) 68 x 54
Max torque (n.m/rpm) 13.2 / 2500
Fuel tank capacity 3.6L
Oil capacity 0.6L
Max speed 45km/h

270cc engine #270

Bore x Stroke (mm) 77 x 58
Max torque (n.m/rpm) 18.5 / 2600
Fuel tank capacity 6.0L
Oil capacity 1.1L
Max speed 60km/h

Controls.

HAND LEVERS #H

Butterfly power grip steering wheel
Hand lever controls

FOOT PEDALS #F

Circle race steering wheel
Foot pedal controls

Wheels.

SUPER SLICKS

#X

16x8.0-7

Basic.

#HBR200K

#H and control power grip steering wheel

#B asic rigid front frame

#R egular middle frame

#2 00cc OHV 6.5HP engine

#K nobby wheels 13"

Advanced.

#HAE270X

#H and control power grip steering wheel

#A dvanced front frame

#E xtended middle frame

#2 70cc OHV 9.0HP engine

#X XL wheels 16"

Power grip.

Hand lever controls #H

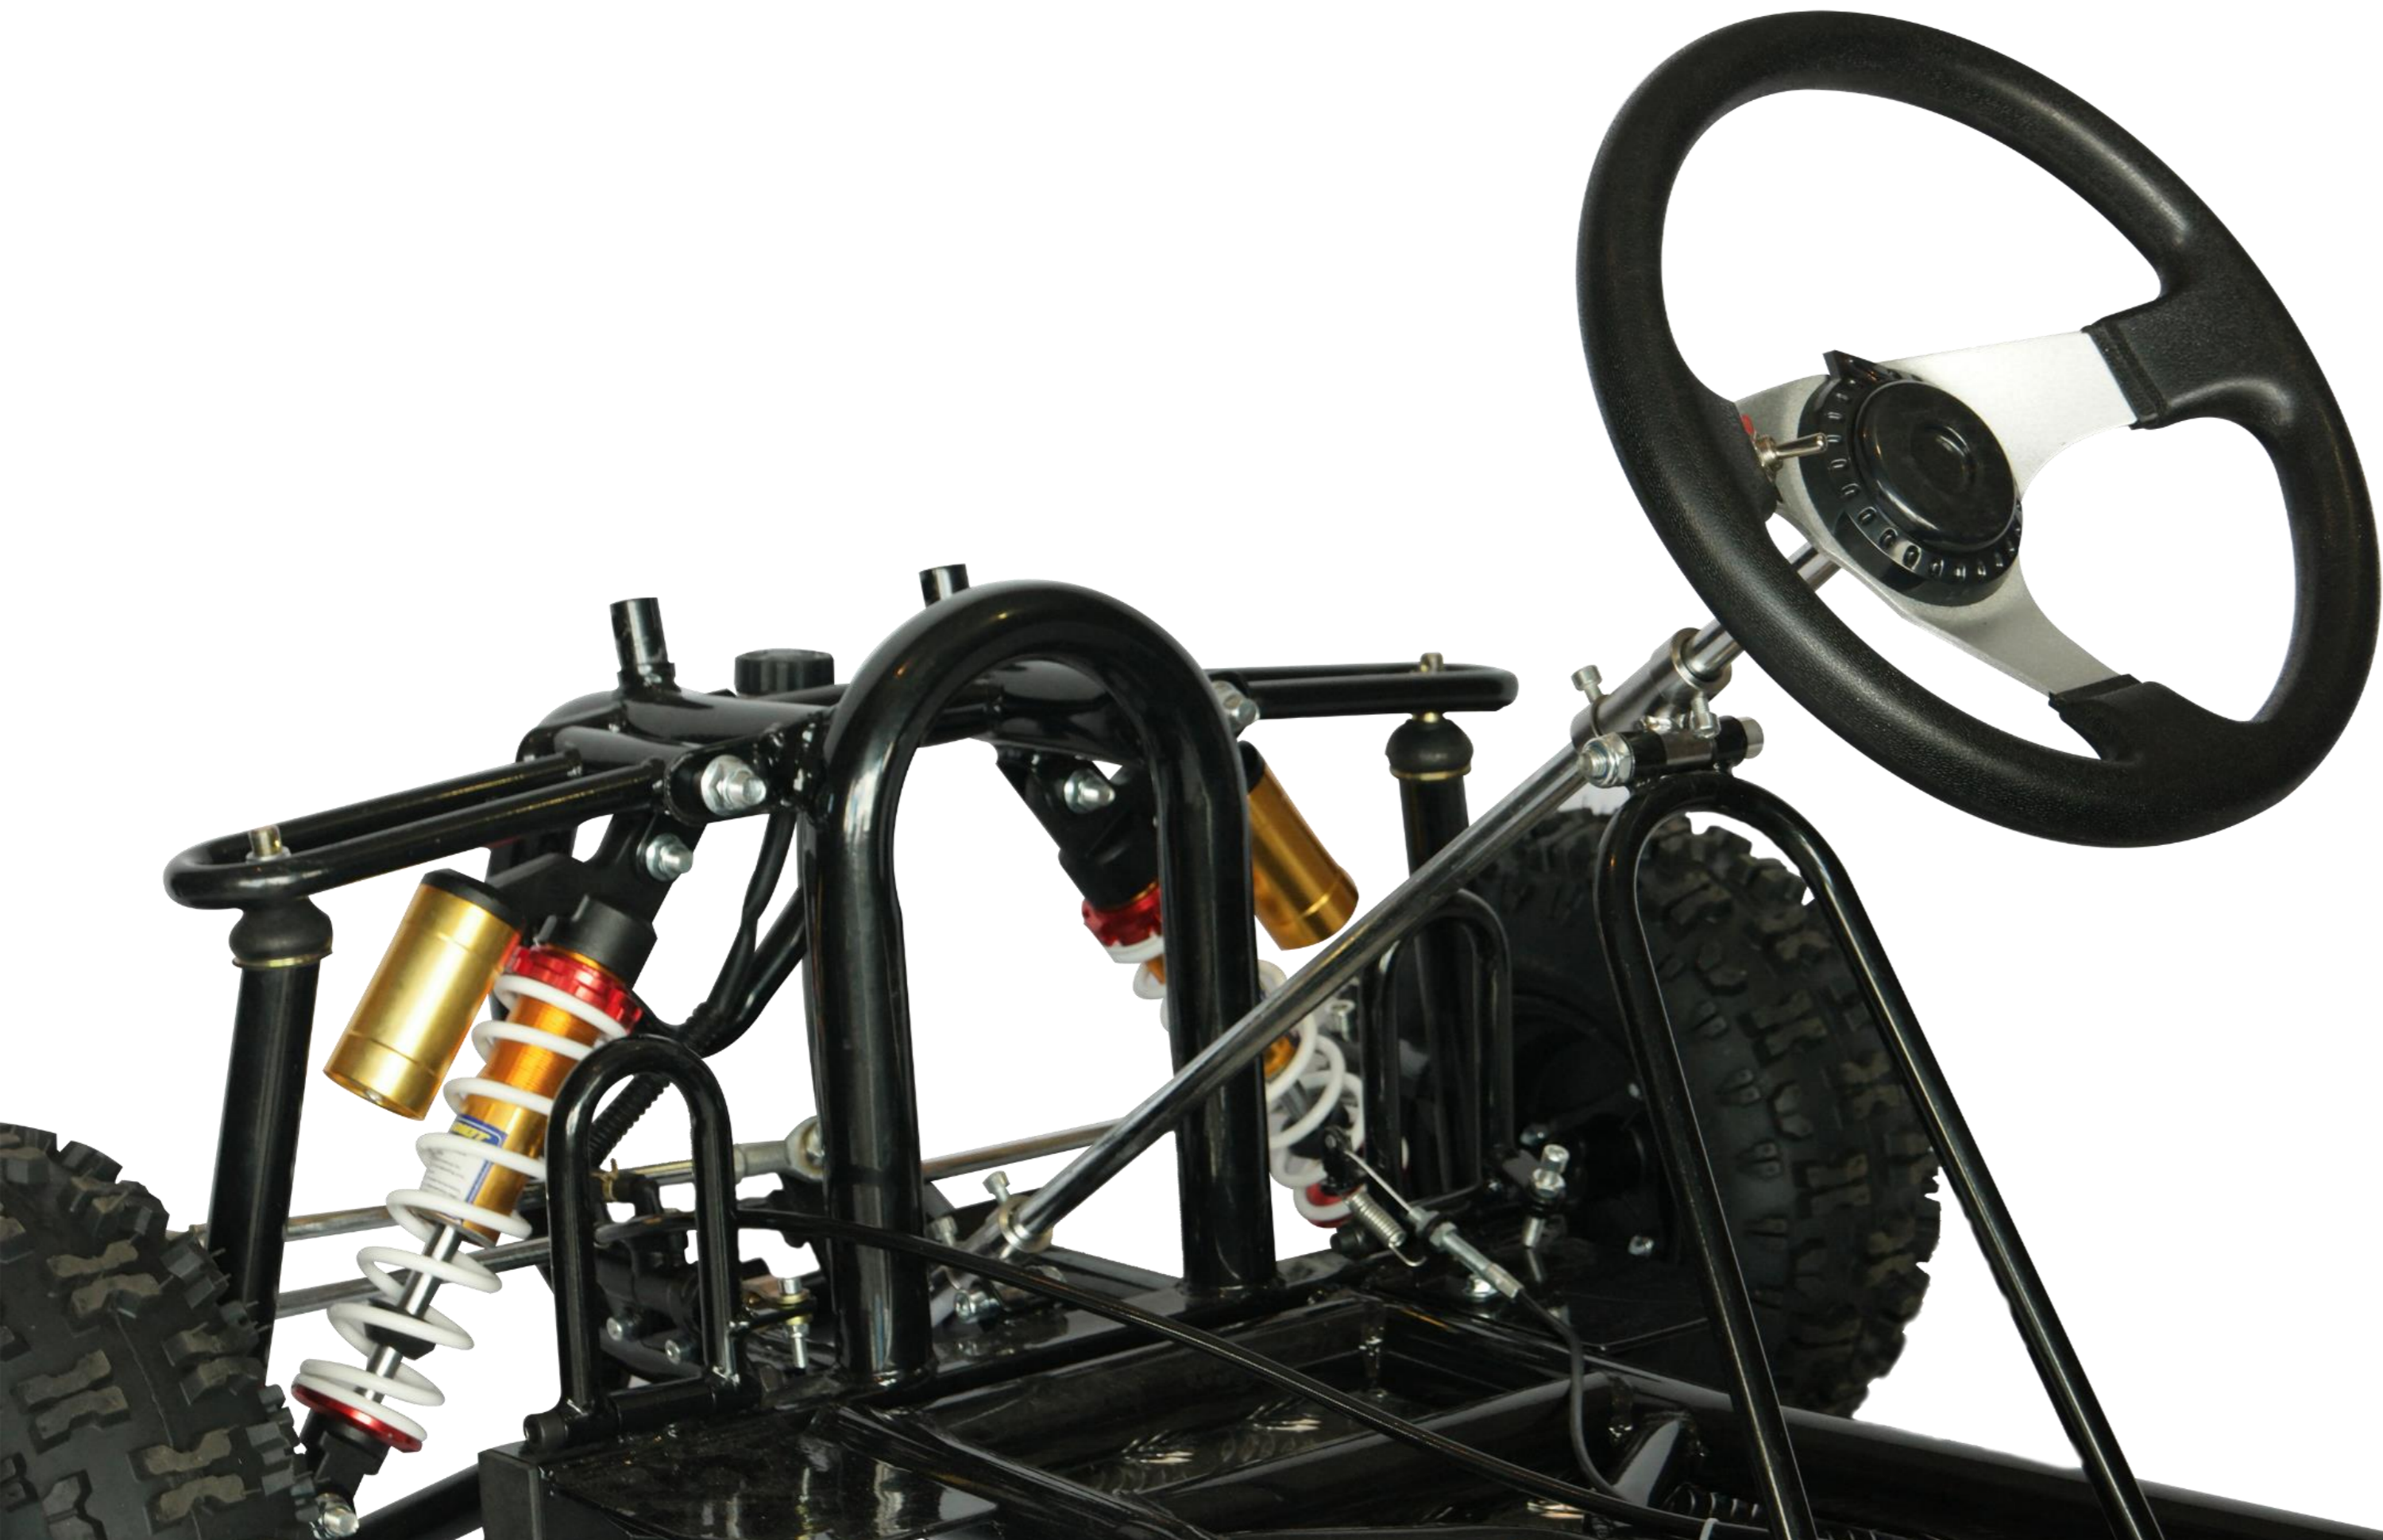

A butterfly steering wheel design equipped with hand lever controls is a simple way to operate the go kart. It provides best comfort for off road conditions and responsive feedback for entry level users.

Traditional.

Foot pedal controls #F

Circle steering wheel and pedals combo designed to replicate the controls of a traditional go kart and give you the experience of driving a real car. Ideal for flat surface driving conditions.

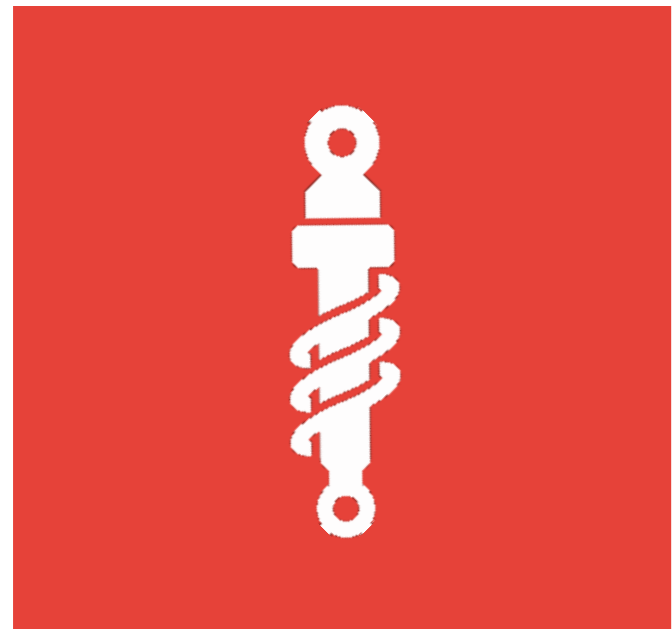

Fit for all.

Middle chassis #R #E

If you're young and starting out, we want the kart to fit you best. Our regular size chassis is good for users up to 170cm. Once you've outgrown or simply want the extra leg room our extended chassis can fit adults comfortably.

Suspension.

Tackle rougher terrains with the independent front suspension.

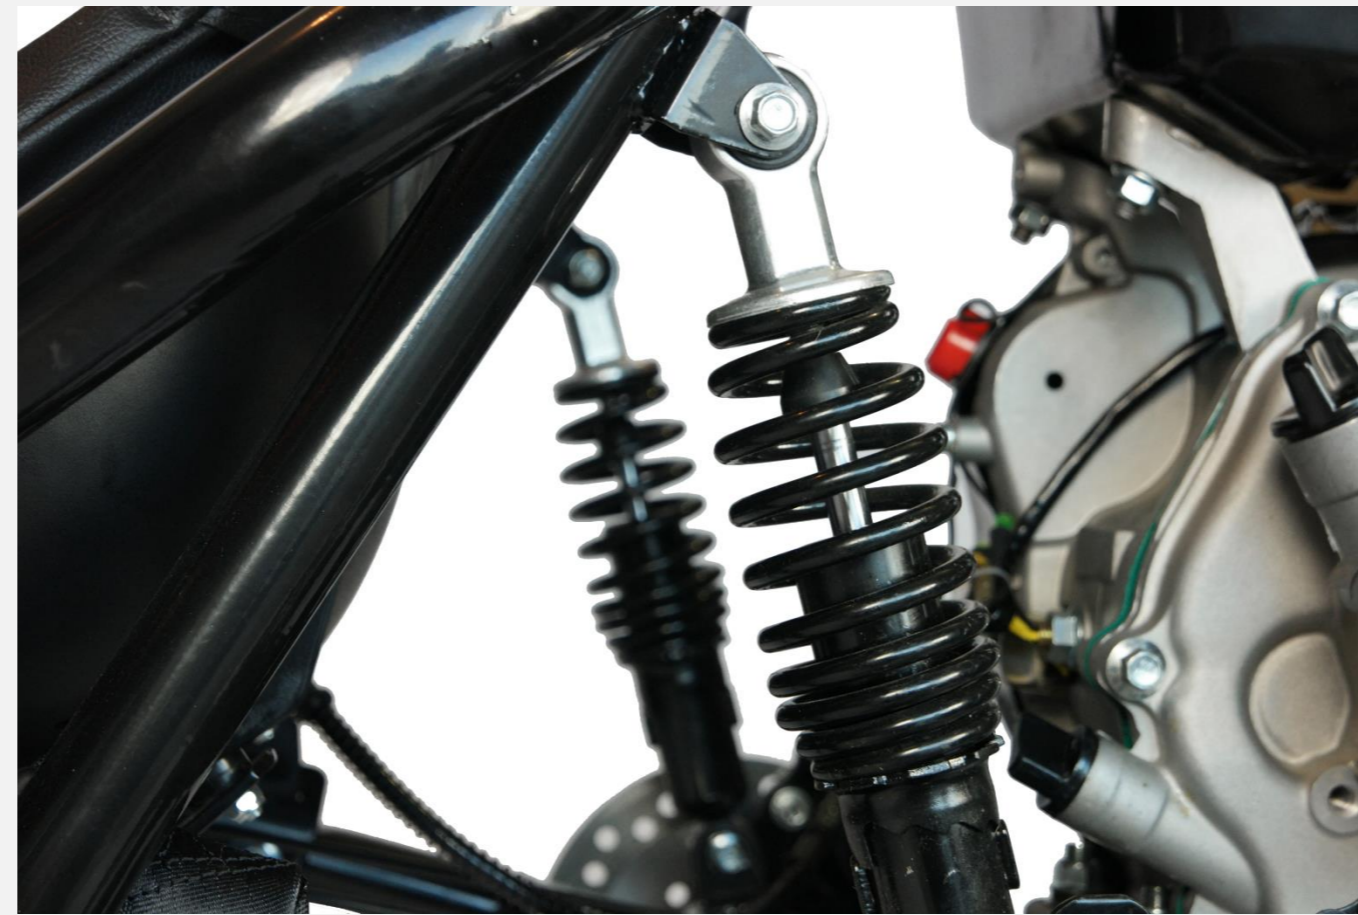

Adjustable dampening for different riding conditions. Improves handling and protects the user and their controls from any accidental collisions.

Highlight. **Features**

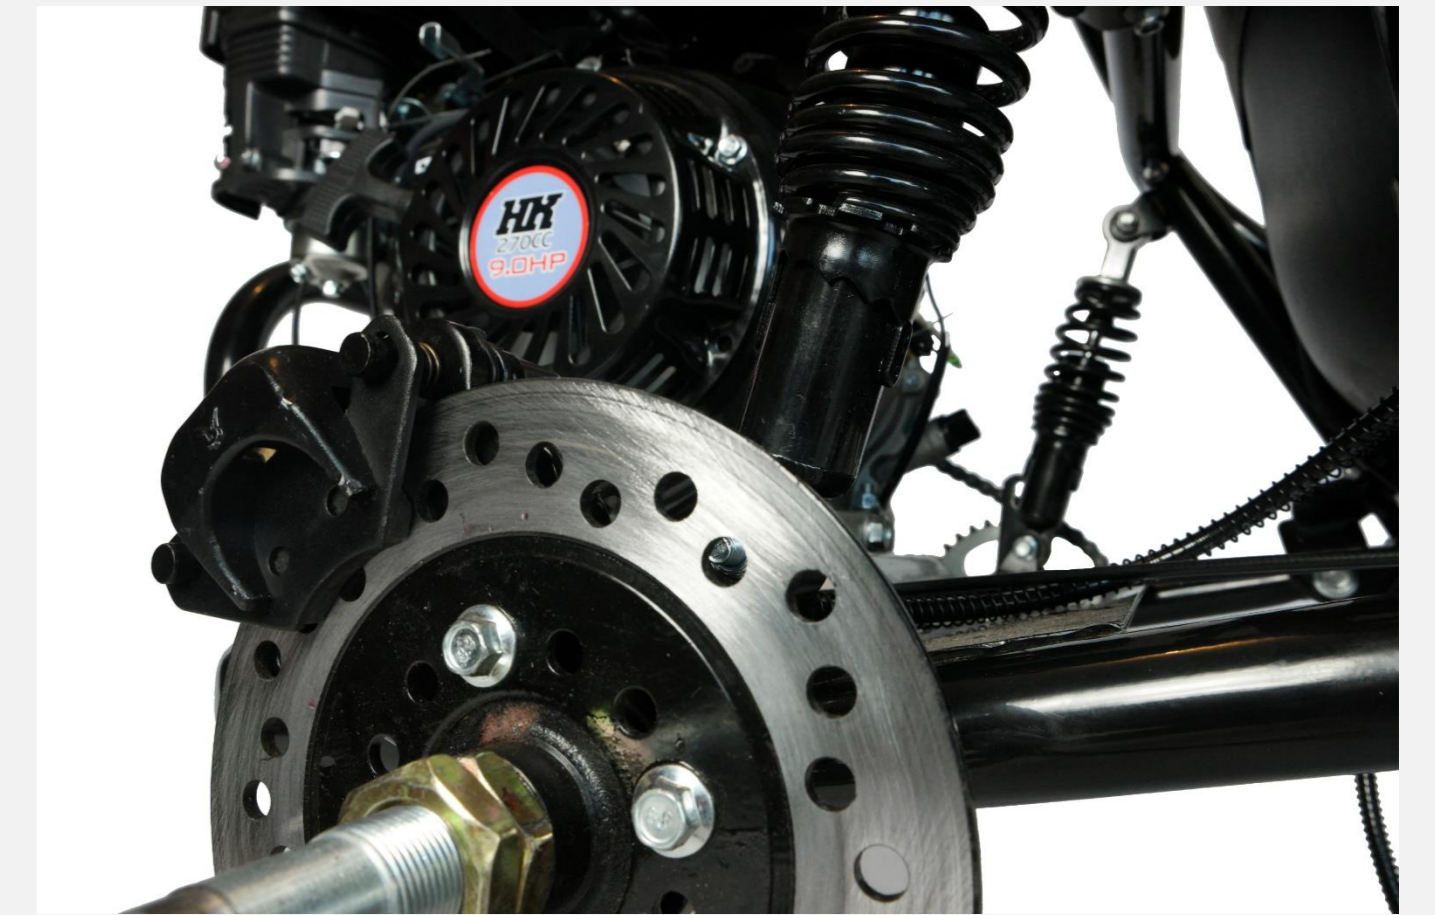

Safety first

3 point safety harness
Padded bucket seat

Smoother ride

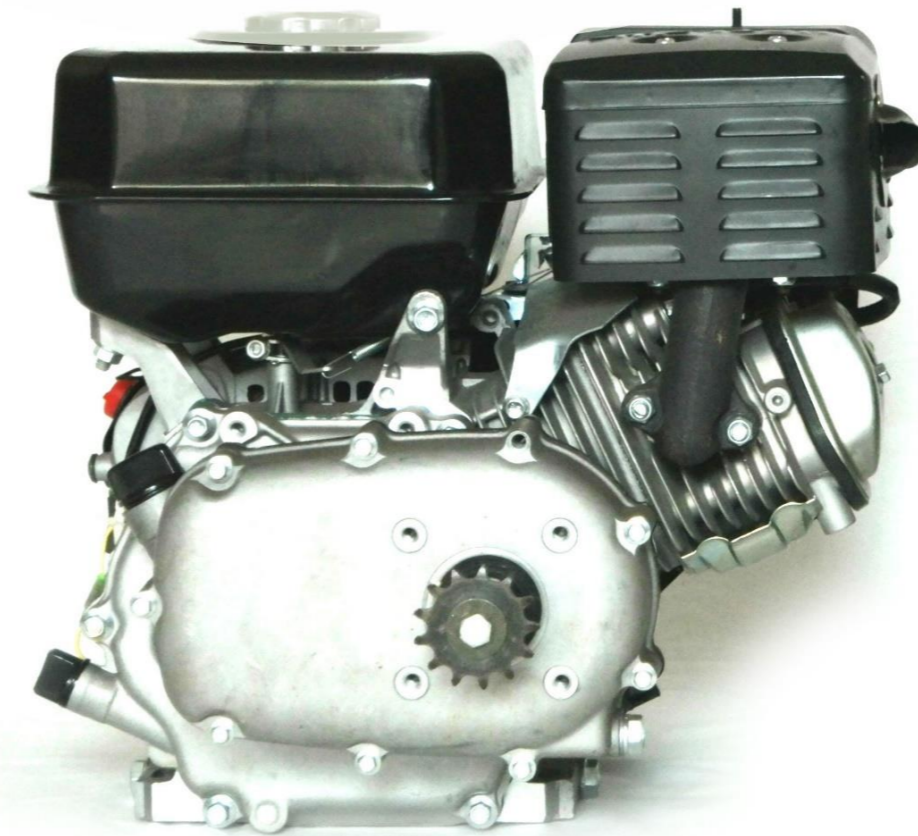

Rear coil suspension
Adjustable ride height

Stop with confidence

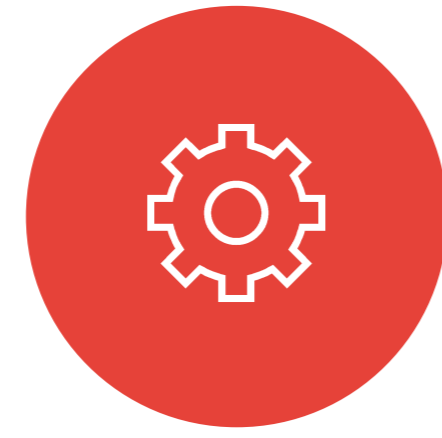

Hydraulic brakes
Ventilated disc

Unrestricted engine.

Not your ordinary stationary engine. Selected only from a reputable source offering highest quality materials, fit and finish. Engineered specifically for go kart racing applications with forged steel crankshaft, rigid crankcase, cast iron cylinder sleeves and helical cut gears to produce best results. Professionally balanced and unrestricted to produce over 5000rpm, it's definitely at the top of its class. Proven reliability from the unique design, having precise valve timing for optimal power transfer and higher compression ratio for better fuel efficiency.

Drive.

Dry clutch

Standard centrifugal clutch
Simple application

Wet clutch

2:1 Reduction gearbox
Submerged plates increased reliability

Torque converter

Belt progressively converts torque from
initial drive to improve drivability

Extra protection.

ROLL CAGE #R

Your safety is important. Easily transform your go kart to an full caged buggy for the extra protection. Complete with padding, roof shade and side mirrors.

Custom paint

We like to keep things playful. Select from a range of colours. You can mix and match, paint the rims, individual frames, anything we'll paint it!

Make it yours.

Example

#HBR200K

\$790AUD

- Hand controls power grip steering wheel
- Basic front rigid chassis
- Regular sized middle chassis
- 200cc OHV engine w/ dry clutch
- 13" knobby off road wheels
- Max load 80kg
- Max speed 40km/h

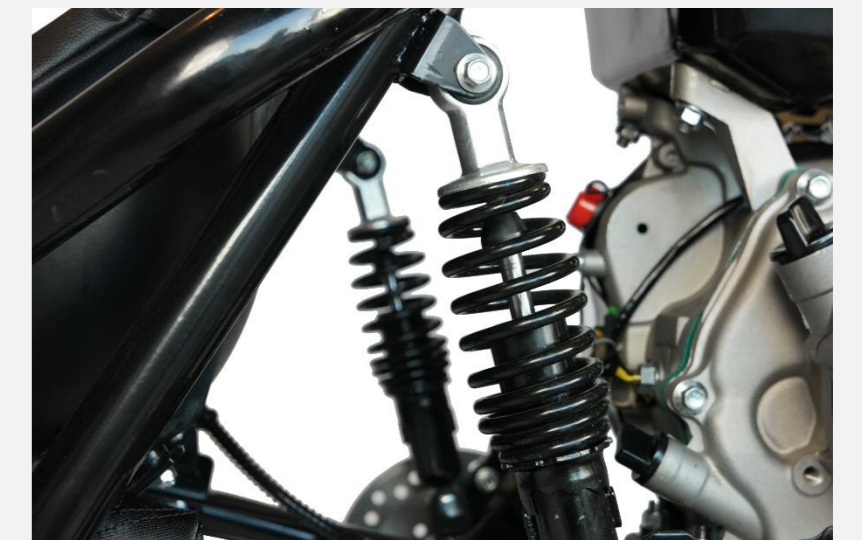

Example

#FBR200S

\$890AUD

- Hand controls power grip steering wheel
- Basic front rigid chassis
- Regular sized middle chassis
- 200cc OHV engine w/ wetclutch
- 13" slick road wheels
- Max load 100kg
- Max speed 50km/h

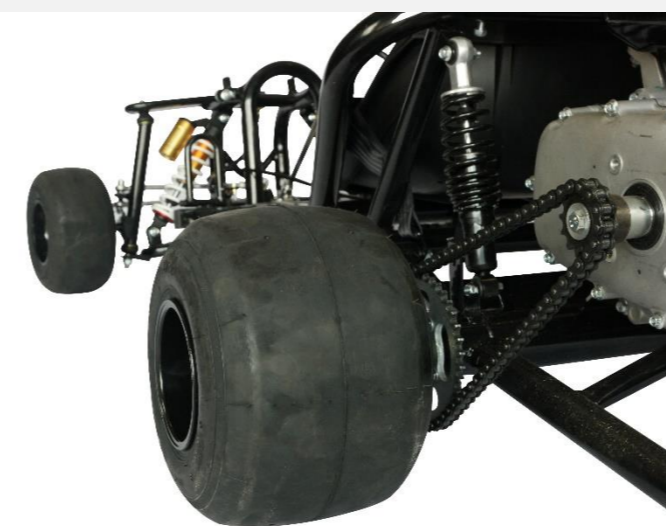

Example

#FAR270SS

\$1220AUD

- Foot pedal controls circle steering wheel
- Advanced front suspension chassis
- Regular sized middle chassis
- 270cc OHV engine w/ wetclutch
- Super slicks road wheels
- Max load 120kg
- Max speed 60km/h

Example

#FAE270XR **\$1490AUD**

- Foot pedal controls circle steering wheel
- Advanced front suspension chassis
- Extended sized middle chassis
- 270cc OHV engine w/ wetclutch
- 16" XXL off road wheels
- Max load 120kg
- Max speed 60km/h

The box.

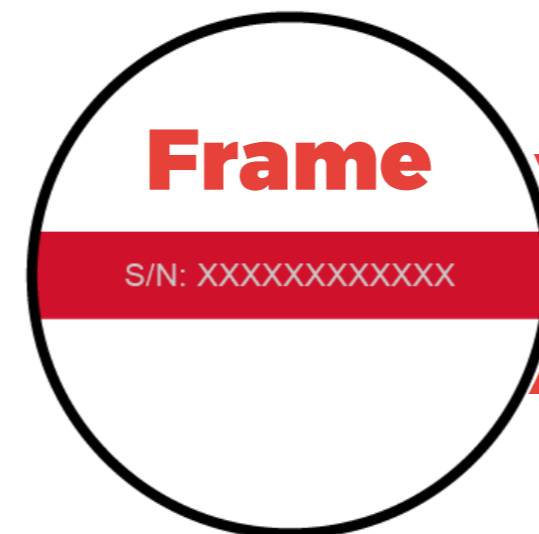

1200mm x 980mm x 560mm - up to 95KG

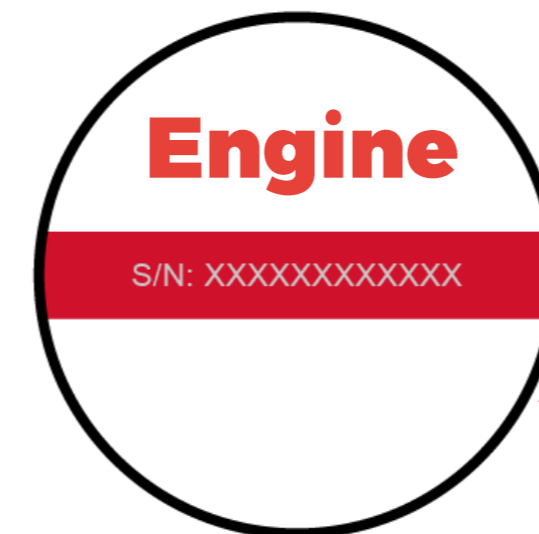

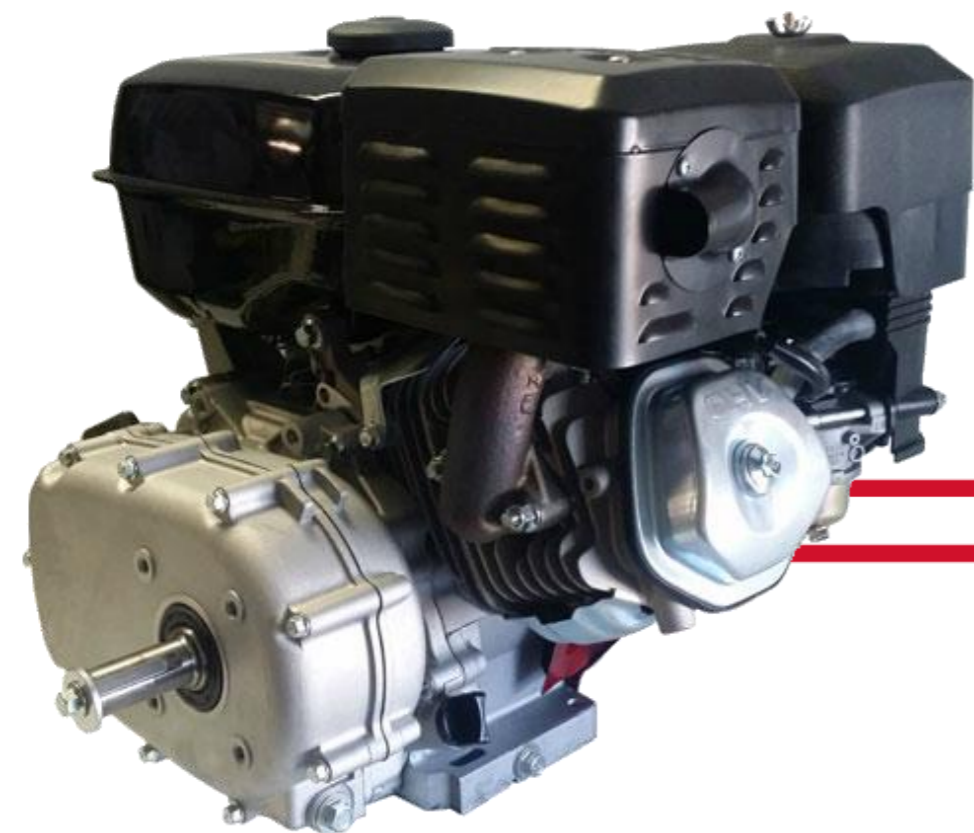

The go kart will be palletized and securely packaged in a large carton box. Majority of the kart will arrive pre-assembled, along with basic instructions manual and a tool kit set to complete the assembly. Alternatively, users can request to have the kart in complete kit form which will require more assembly work. No oil and petrol will be inside the engine for safety purposes during transit. A “How to” video is published on our website for all users to follow step by step instructions.

Serial #code

All our go karts are stamped with an alphanumeric identification code. Each go kart is unique and complies with all Australian standards.

(15) XXXXXXXXXXXXXXXXX

(10) XXXXXXXXXXXXX

100% Satisfaction.

- **Spare parts readily available**
- **Online customer support**
- **30day money back guarantee**
- **Seasonal new release(s)**

Our online presence is evident, and as we continue to innovate with “the kart” you can bet we are here to stay. With Helmetkarts Australia, you are guaranteed expert service and a group of passionate individuals willing to go the extra mile for you. It’s in our best interest to build a great product and importantly build a great relationship with our audience.

Lifetime Warranty.

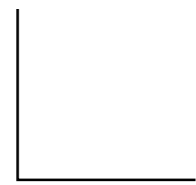

All vehicles come with manufacture's warranty, to be free from defects in material and workmanship. Most components of the go kart are warranted against failure or defect arising from normal use up to 6months from the date of purchase. We will replace or repair anything found to be defective. However, we do not cover regular wear and tear and all warranties are void if the go kart is used for other than normal activities.

Lifetime warranty is applied to the chassis code of any go kart upon purchase with Helmetkarts Aus. We will replace your chassis if any welds are damaged free of charge.

Join the **journey.**

If you're interested to become a participating retailer or want to volunteer helping us grow this unique business we are welcoming you to become part of the team. The opportunity awaits.

Your opportunity participate.

We're ready to take the next step and we want you to join us. There's plenty of room to grow and we know it takes a team of passionate innovators to make a difference, which is why we value new members and their ideas. From all types of occupations, Australia wide, we know a growing team have become the building blocks to our story.

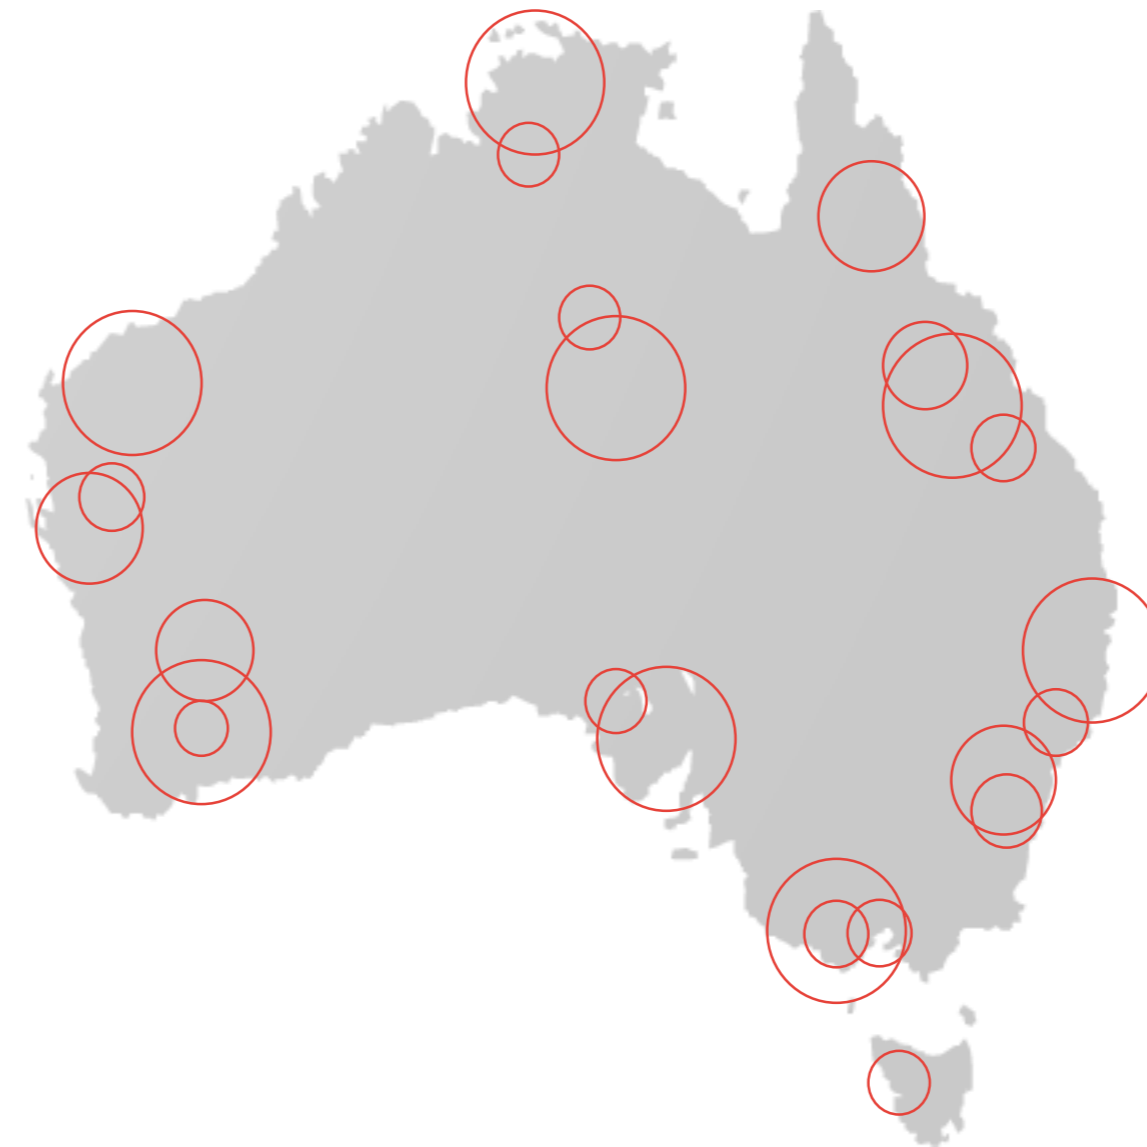

The same Interests?

We've begun rolling out our products and services Australia wide. This includes non profitable organizations such as schools, youth centers and local workshops. Each audience type is unique, set apart with different goals but all sharing the same interest. Keeping it fun.

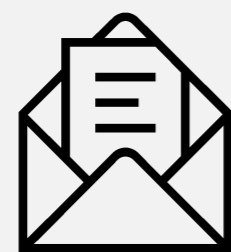

A bright Future.

There's no big secret to our success. We simply love what we do and want to share it with everyone. Our active and contributing groups dictate the future of Helmetkarts Australia and we would not be where we are today without the support of the team.

Thank you for taking the time to hear our story. We tried to keep this short and meaningful.
If there's something we missed you can always reach out to us to us and we'll have a team ready to answer all your questions.
A complete catalog showcasing all our products and various options for retailers to participate will be available upon request.
If you have a different approach or proposition please contact our team so we can get the ball rolling.

Thank you
