

AUTUMNAL AESTHETICS

As the autumn weather takes over, Ceriz's Autumn/Winter 2018 Collection offers the ultimate excuse to walk out in vogue. Opulent textures, exquisite cuts and profound hues of the collection are reminiscent of the polymorphic forms of wintertide.

Enamoured with nature, Ceriz's AW 2018 collection draws inspiration from autumnal aesthetics, bringing to life a new sartorial mood in tune with the shift in seasons.

The Ceriz AW 2018 Collection introduces effortless, elegant and minimalist design integrated with quality craftsmanship. Anchored to our love of all things Parisian-chic, the collection has a certain je ne sais quoi which is an ode to classic French fashion.

Ceriz has created bold and modern pieces that complement the personalities of the strong women of today.

The new collection is a welcome amalgamation of class and style, tied together by comfort and durability.

The color scheme consists of dark and neutral shades along with structured designs, clean cuts and inclusion of metallic embellishment that best describes the collection.

Every product matches the current fashion standards, keeping style and quality its top priorities. Ceriz has also tried to play around with a few bright shades, as demanded by the season's trends.
