

LK 850 M Kirschner Tipper

The LK 850 M Kirschner Tipper brazes pre-tinned carbide tips in a precise, central, and efficient way. It is ideally suited for repair work and small saw production batches.

Features

- The pre-tinned carbide tip is placed by hand in the feed rail.
- The tip is automatically positioned and picked up by the high-precision and solid gripper, positioned perfectly center into the blade, then brazed with the perfect temperature.
- Easily change the processing modes in the control panel (brazing, annealing, tip removal).
- Perfect shear strength combined with low heat absorbed by the blade.
- Shortest set-up time with ergonomic arm support and PLC control.
- New feature for PCD face angle brazing as option.
- The machine is designed and equipped according to CE standards.

Process sequence, tip clamped centrally; easiest operation with the multifunction button
