

Göckel G50 EL

System Overview

Experience modern and cost-effective grinding with the Göckel G50 EL system.

Göckel has more than 115 years tradition in mechanical engineering experience and has specialized in precision grinding machines for decades.

We offer you innovation for your production with the Göckel G50 EL precision grinding system. Optional add-ons include paper filter, magnetic separator, and electromagnetic chuck.

Göckel G50 EL Specifications

Grinding motor capacity	2 bis, 11kW (15 hp)
Grinding lengths	1000 mm (39") to 7000 mm (275")
Grinding head	Up to 250 mm diameter
Grinding widths	Up to 225

Features and Benefits

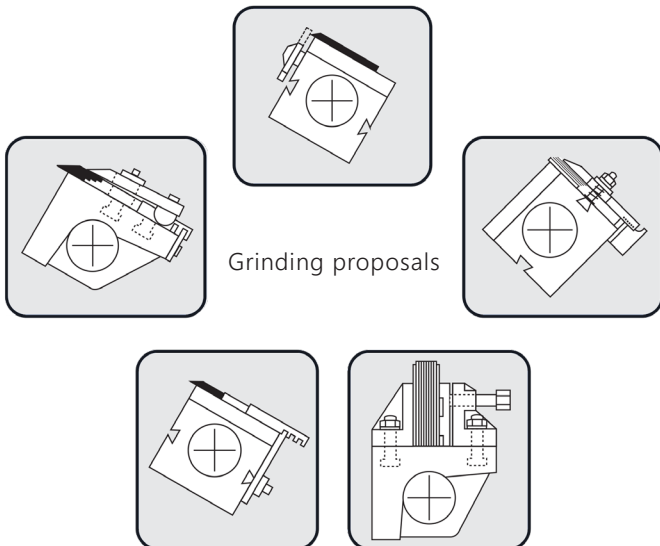

Magnetic separator for cleaning of coolant water

Electromagnetic clamping

Patented electromagnetic quick changing device for grinding tools

Grinding proposals

Cross grinding

Radial grinding

Swiss grinding

Creep feed grinding
