

Capacity Sort

(adapted from Van De Walle, 2006)

Standard: 3MD2

Materials:

- Different sized containers marked A,B,C,D,E
- 1 container marked “Target”
- Recording sheet
- Scoop, funnel, beans/rice

I Can:

- Look at the target container and estimate the containers that hold
 - more than,
 - less than or
 - about the same amount as the target container
- record my findings on the recording sheet
- measure and see which containers actually hold
 - more than,
 - less than or
 - about the same amount as the target container

Recording Sheet

Estimate then record which containers hold more than, less than or about the same amount as the target container

Container	Estimate	Actual Measurement
Target Container		
A		
B		
C		
D		
E		
F
