

Comparing Rectangles

adapted from Van De Walle, 2006

Standard: 3MD7

Materials:

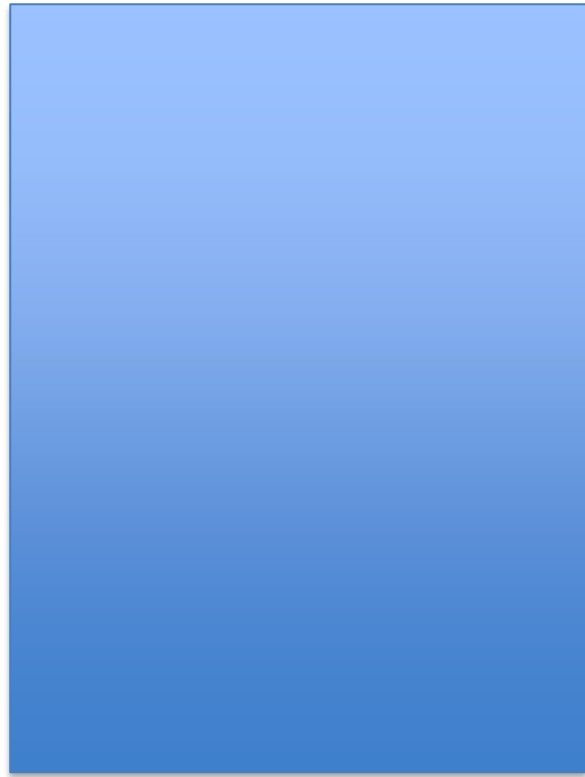

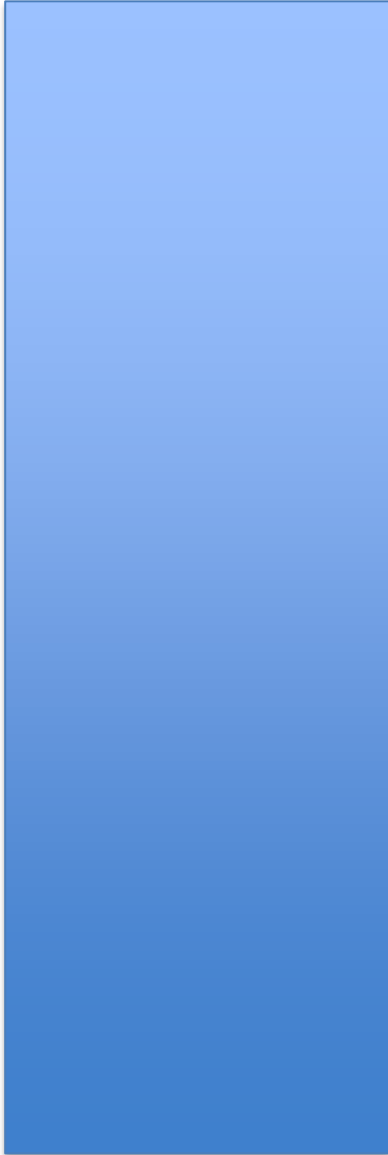

- Rectangle pairs to compare
- Ruler
- 1 square unit tile

I Can:

- Look at the two rectangles and work out which is larger or smaller, or whether they are the same
- Use my ruler to work this out
- Do this without cutting out the rectangles or even drawing on them
- Use words, drawings and numbers to explain my thinking.

	How I compared them	What I noticed
Set A Rectangles		
Set B Rectangles		

Set A: Two Rectangles to Compare

Set B: Two Rectangles to Compare
