

Packing Instructions

STEP 1

If mailer has a bottom gusset, ensure this is pushed out before filling.

STEP 2

Fill your mailer with your product and give a quick shake to ensure the full capacity of the bag is being used.

STEP 3

Remove the first peel and seal at the top of the lip.

STEP 4

Fold lip to close bag tightly around product to ensure no movement.

STEP 5

Ensure the lip is pressed **FIRMLY** from edge to edge and moulded around the product inside (this is important as glue is pressure sensitive).
