Video:	AV1-for VCD/DVD/DVR, AV2-for backup camera

### Product Features

- I : TFT-LCD display for DVD/VCD Player/camera
- II : Special anti-glaring glasses for eye protection, instead of the original rearview mirror.
- III: Automatically switch to rear view system when reversing.
- IV: Button: on Video: turn on/off the monitor. On Camera:Adjust.
- V: Can connect to VCD/DVD/TV/DVR, etc.
- VI: Easy for installation and uninstallation.
- VII: Two LED Reading light

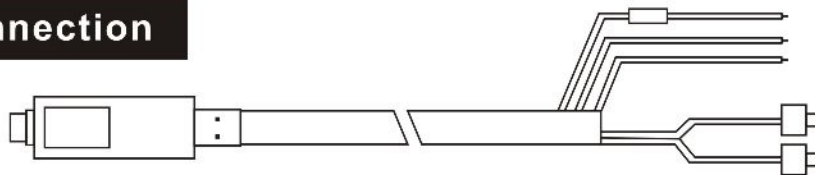

### Auto Switching When Reverse

- I : Under power-on condition: When reverse gear is engaged, the system automatically switches from DVD/VCD video to backup camera video, and when parking is completed, it switches back automatically.
- II : Under power-off condition: When reverse gear is engaged, the system automatically starts on to find the camera signal and display backup video When parking is completed, it switches off automatically.

### Attention

When connecting with power cable, please make sure not to mistaken the positive and negative pole, otherwise the fuse will melt down itself immediately for security protection. In case it happens, please replace the melted fuse with a new one with same specification, and then connect properly to the right pole. Do not increase the current magnitude of the fuse, and NEVER use metal wire as a substitute.

# Connection

Red-----+12V  
 Black-----Grounded  
 Green-----Back Control

Video input connects DVD/VCD  
 Camera connects camera
