# The ALASTIN Skincare® Difference

**A comprehensive skincare system**— from procedure support skincare products that complement **in-office cosmetic treatments to daily anti-aging formulations** for glowing, healthier, more youthful-looking skin.

Formulated with patented **TriHex Technology®**, an elastin and collagen support system that works with the skin to **help remove damaged elastin and collagen and supports the skin's natural ability to produce healthy new elastin and collagen**, key components for a healthier, rejuvenated appearance.

**Scientifically proven, award-winning products**, backed by over 25 published clinical studies, and recommended by more than **2,500 physicians nationwide**.

A pioneer in **Procedure Support Skincare helping to enhance treatment outcomes** when paired with in-office aesthetic treatments.

**Daily Restorative Skincare**, a specialized line of daily-use, anti-aging products that **help to restore and maintain the appearance of smoother, brighter, and more youthful-looking skin**.

# Award-Winning Products

# Procedure Support Skincare

An exclusive line of, face and body, procedure support skincare that helps to enhance treatment outcomes when paired with in-office aesthetic treatments. Products were designed to support the skin pre and post procedure.

## Regenerating Skin Nectar with TriHex Technology®
