INSPIRATION & SOLUTIONS

DORMA opens doors to the world's best addresses.

DORMA is a high performance global company creating value through our full range of premium access solutions and services.

DORMA is a market leader of innovative and inspiring designs and technologies for access solutions. DORMA features a design-oriented portfolio of architectural door hardware, specialty hardware for glass door and wall applications, door automation systems including Crane revolving doors, operable wall systems featuring Modernfold, and electronic access control systems with Rutherford Controls and Farpointe Data.

Architects and designers never have to look far for the help they need, thanks to DORMA's extensive network of professional staff in the Americas. Our partnership with independent distribution ensures local availability of products and support. Customers and partners around the world respect DORMA as a reliable, globally active business partner.

TRANSPORTATION

Transportation Centers, Airports, Train Stations

Busy transportation centers need to have access that is reliable and safe. DORMA provides a variety of applications to meet these requirements. For example, the PHX Sky Harbor International Airport installed ESA300 Automatic Doors at its Sky Train facility for transporting travellers to and from terminals. In Chicago, Crane Revolving Doors and ESA Automatic Doors are part of an underground metro entrance system that enables efficient and safe traffic flow.

SPECIFICATION WRITING SERVICES

Experienced Architectural Hardware Consultants on Staff

Experienced Architectural Hardware Consultants (AHCs) on staff provide comprehensive specification writing services—including consultation on architectural hardware, doors and frames, glass doors, operable walls, revolving doors, and automatic doors and operators.

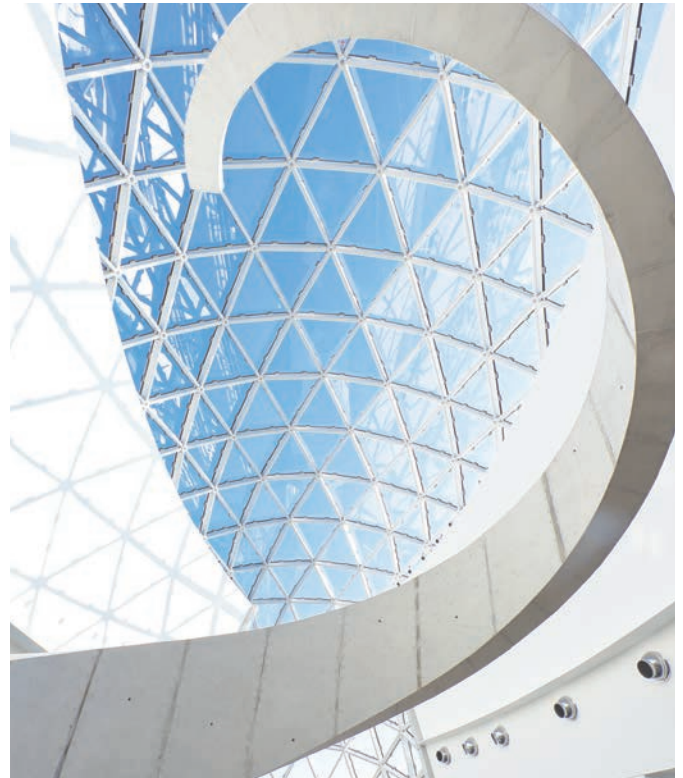

DORMA's AHC consultants offer the following services:

- Develop detailed, non-proprietary, open and competitive architectural hardware specifications and schedules
- Develop detailed specifications for all other product groups
- Meet with Design Professional and/or Owner to discuss project requirements and security coordination
- Assist with sizing and layout of systems
- Prepare budgets
- Review substitution requests
- Review submittals
- Respond to RFIs, Owner's comments, and comments from other entities
- Assist Owner to develop a keying schedule
- Develop a punch list during Contract Administration

SERVICE AND MAINTENANCE

Automatic, Manual & Revolving Doors, Door Hardware, Operable Partitions, Moveable Glass Walls

The industry's most comprehensive services – from specification and new installation to ongoing maintenance and support.

With an emphasis on customer service, DORMA is committed to selling, installing, and servicing automatic, revolving, and manual doors and hardware for commercial applications.

DORMA's nationwide service and maintenance network provides responsive, professional, and comprehensive sales, technical, project management, and maintenance support. With offices throughout North America, DORMA has literally hundreds of dedicated professionals available to respond to your individual needs.

Committed to the highest level of customer service possible, all DORMA service technicians are American Association of Automatic Door Manufacturers (AAADM) certified.

Visit go.dorma.com/service to learn more about DORMA USA Service and Maintenance.

CNA Building – Chicago, IL
Crane 4000 Series Complete Entrance
with ESA Automatic Sliding Doors

Over the past 10 years, DORMA has acquired numerous powerhouse service and maintenance companies – including Carolina Door, Florida Door Control, Door Controls, Inc., Advanced Entry Systems, and DOR-TECH. These acquisitions have increased our service workforce significantly, making us one of the largest service organizations for all automatic, revolving, and manual doors, and the entire DORMA product portfolio in North America.

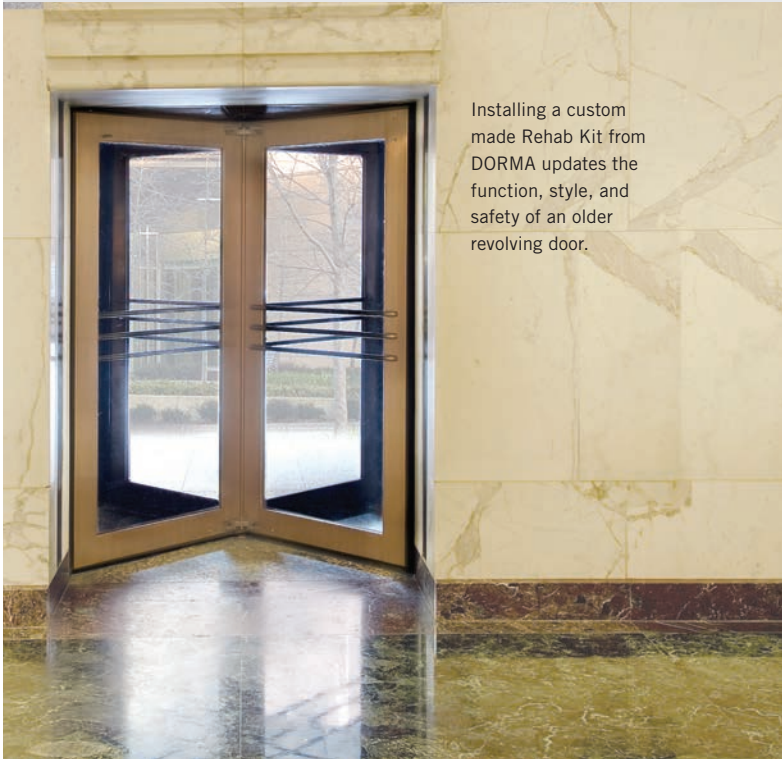

PHX Sky Train – Phoenix, AZ
Architect: HOK

Revolving Door Rehab Kit

A special service from DORMA provides Rehab Kits for older revolving doors, no matter the original make. We can manufacture a Rehab Kit to any dimension to replace the wings and hardware of an existing revolving door and update its function, style, and safety.

A Rehab Kit can be made from aluminum, stainless steel, bronze, or wood either to match the original door as closely as possible or to give new style to an outdated entrance.

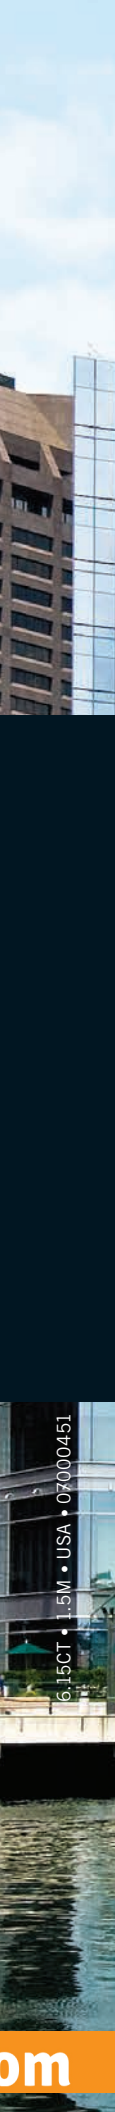

Installing a custom made Rehab Kit from DORMA updates the function, style, and safety of an older revolving door.
