Features

Filter Lever

To maintain and quickly release

1, 2 or 3
4x4 or 4x5.65 filters

Filter Ejection Piston (x2)

If the Filter Lever is **quickly** pressed down:
It gives a smooth and safe spring-impulsion
and allows to help remove filters easily
in reception in one hand.

If the Filter Lever is **slowly** pressed down:
The ejection is not significant, as usual

Sliding Drawer (x2)

Both in closed position:
Allow to insert 1 or 2
4x4 or 4x5.65 filters.

Both in open position:
Allow to insert a 3rd 4x5.65 filter
or to tilt 1 or 2 4x5.65 filters

Magnetic fastener (x2)

To fit with the Bottom Flag Bracket

BF-BR
NEW

Lens Clamp Screw

Pre-setting of the Lens Clamp tightening
To adjust when the Quick Release Lever
is on "closed" position

Quick Release Red Lever

2 positions: Open / Close

Clamps ON and OFF the lens instantly
without
touching the clamping pre-setting
