- 3. Connection Diagram**

1. Description

Instant Touch Button Key Switch Sensor Module Compatible with DIY items. This is a useful module, fast response, strong anti-interference ability, and durable.

2. Specifications

Rating	50mA 12VDC
Contact Resistance	50 megohm max(initial)
Insulation Resistance	100MΩ(minDC 250V)
Dielectric Strength	AC250V(50/60Hz for 1minute)
Environment temperature	-25°C~+105°C
Operating Force	180/230(±20gf)

3. Connection Diagram

Connect the power line (middle) and ground to +5V and GND respectively. Connect signal (S) to pin 3 on the arduino.
