

Silicone Wire Set

datasheet

Silicone Wire Set, 5 Spools

Green, Black, Yellow, Blue and Red

Silicone Wire Set

Description	Fehler! Textmarke nicht definiert.
Technical Specifications	3
Design	Fehler! Textmarke nicht definiert.
Electrical properties at 20 °C	Fehler! Textmarke nicht definiert.
Application	4

Specifications

Insulation color	Black, Red, Green, Blue, Yellow
Conductor area CSA	28 AWG
Insulation material	Silicone
Conductor material	Tinned copper
External diameter	1.3 mm
Insulation thickness	0.3 mm
Length per reel	9 m
Temperature range	-60° to 200°C

Silicone Wire Set

Application

A silicone-single cores and recommended for use in the case of raised ambient temperatures under sufficient ventilation and small mechanical stress. Large resistant to oil, alcohol, acids, caustic solutions, salt solutions and salt water.

Typical fields of application: control cabinet manufacturing, appliances and apparatus engineering, electric motor industry, sauna/solarium construction, thermal and heating elements, lighting technology, ventilator engineering, air-conditioning technology, furnace construction, polymer processing, generator and transformer manufacturing.
