

datasheet

Soldering Wire

Specifications

Diameter	1 mm
Alloy	Sn99,3Cu0,7
Flux type	Resin-type hydrogenated pine rosin
Flux content	1.6 - 3.0 %
Melting point	227°C
Working temperature	350-450°C
Weight	50 g

Features

- flat appearance,
- bright solder joints,
- low residue,
- good flow,
- good wetting,
- low smoke
