

TPA3116D2

Datasheet

TPA3116D2

Digital Amplifier board stereo

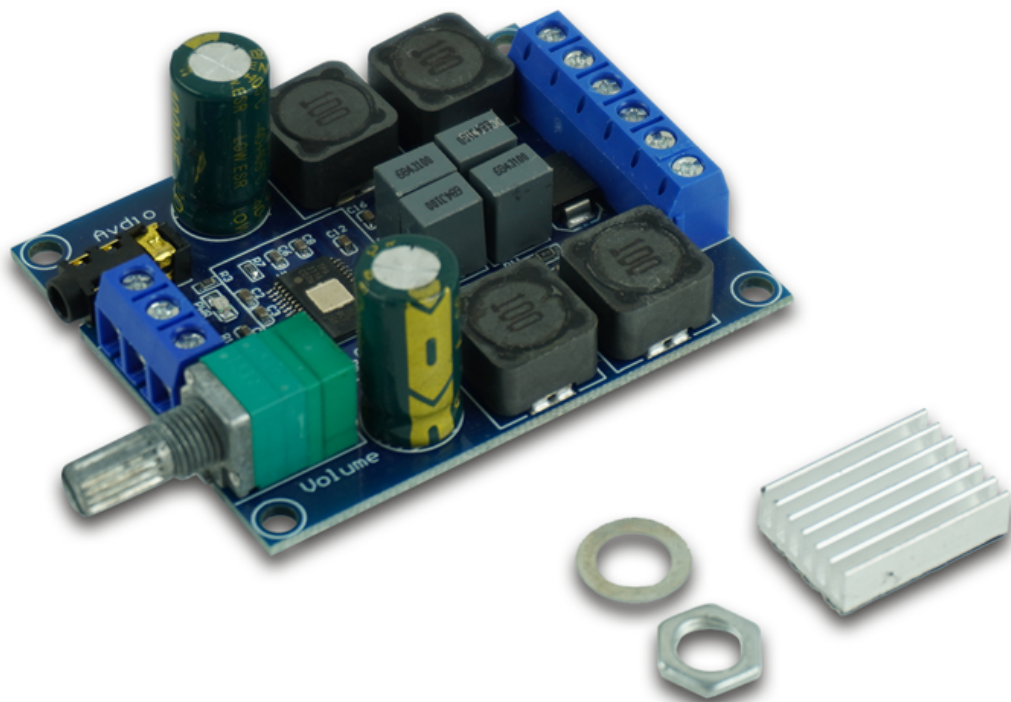

Table of Contents

Specification	3
Pinout	4

Specification

Input voltage	4.5 V - 24 V
Output power	2 x 50 W
recommended impedance	4 - 8 Ohm
Frequency range	14-100 kHz
Amplifier class	Class D
Switching frequency	1,2 MHz
Dimensions	64 x 51 x 22mm
Weight	45g

Potentiometer to adjust volume with on/off position

Please note that the maximum output power cannot be reached with the included passive cooler, enhanced cooling needed.
